RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this prospectus before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. Please note that throughout this prospectus, the words “we”, “our” or “us” refer to the Company and not to the selling stockholders.

WE HAVE A LIMITED OPERATING HISTORY THAT YOU CAN USE TO EVALUATE US, AND THE LIKELIHOOD OF OUR SUCCESS MUST BE CONSIDERED IN LIGHT OF THE PROBLEMS, EXPENSES, DIFFICULTIES, COMPLICATIONS AND DELAYS FREQUENTLY ENCOUNTERED BY A SMALL DEVELOPING COMPANY.

We were incorporated in Nevada in October 2006. We have no significant financial resources and no revenues to date. The likelihood of our success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered by a small developing company starting a new business enterprise and the highly competitive environment in which we will operate. Since we have a limited operating history, we cannot assure you that our business will be profitable or that we will ever generate sufficient revenues to meet our expenses and support our anticipated activities.

WE WILL REQUIRE FINANCING TO ACHIEVE OUR CURRENT BUSINESS STRATEGY AND OUR INABILITY TO OBTAIN SUCH FINANCING COULD PROHIBIT US FROM EXECUTING OUR BUSINESS PLAN AND CAUSE US TO SLOW DOWN OUR EXPANSION OF OPERATIONS.

We will need to raise additional funds through public or private debt or sale of equity to achieve our current business strategy. Such financing may not be available when needed. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. Our capital requirements to implement our business strategy will be significant. Moreover, in addition to monies needed to continue operations over the next twelve months, we anticipate requiring additional funds in order to significantly expand our operations and acquire the operating entities as set forth in our plan of operations. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. There can be no assurance that we will be able to obtain financing if and when it is needed on terms we deem acceptable.

If we are unable to obtain financing on reasonable terms, we could be forced to delay or scale back our plans for expansion. In addition, such inability to obtain financing on reasonable terms could have a material adverse effect on our business, operating results, or financial condition.

OUR AUDITOR HAS EXPRESSED SUBSTANTIAL DOUBT AS TO OUR ABILITY TO CONTINUE AS A GOING CONCERN.

Based on our financial history since inception, our auditor has expressed substantial doubt as to our ability to continue as a going concern. We are a development stage company that has never generated any revenue. From inception to June 30, 2009, we have incurred a net loss of \$22,625. If we cannot obtain sufficient funding, we may have to delay the implementation of our business strategy.

OUR FUTURE SUCCESS IS DEPENDENT, IN PART, ON THE PERFORMANCE AND CONTINUED SERVICE OF BELEN FLORES. WITHOUT HER CONTINUED SERVICE, WE MAY BE FORCED TO INTERRUPT OR EVENTUALLY CEASE OUR OPERATIONS.

We are presently dependent to a great extent upon the experience, abilities and continued services of Belen Flores, our only officer. We currently do not have an employment agreement with Mr. Flores. The loss of her services could have a material adverse effect on our business, financial condition or results of operation.

THE OFFERING PRICE OF THE SHARES WAS ARBITRARILY DETERMINED, AND THEREFORE SHOULD NOT BE USED AS AN INDICATOR OF THE FUTURE MARKET PRICE OF THE SECURITIES. THEREFORE, THE OFFERING PRICE BEARS NO RELATIONSHIP TO THE ACTUAL VALUE OF THE COMPANY, AND MAY MAKE OUR SHARES DIFFICULT TO SELL.

Since our shares are not listed or quoted on any exchange or quotation system, the offering price of \$0.05 per share for the shares of common stock was arbitrarily determined. The facts considered in determining the offering price were our financial condition and prospects, our limited operating history and the general condition of the securities market. The offering price bears no relationship to the book value, assets or earnings of our company or any other recognized criteria of value. The offering price should not be regarded as an indicator of the future market price of the securities.

THERE IS NO ASSURANCE OF A PUBLIC MARKET OR THAT THE COMMON STOCK WILL EVER TRADE ON A RECOGNIZED EXCHANGE. THEREFORE, YOU MAY BE UNABLE TO LIQUIDATE YOUR INVESTMENT IN OUR STOCK.

There is no established public trading market for our common stock. Our shares are not and have not been listed or quoted on any exchange or quotation system. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, which operates the OTC Electronic Bulletin Board, nor can there be any assurance that such an application for quotation will be approved or that a regular trading market will develop or that if developed, will be sustained. In the absence of a trading market, an investor may be unable to liquidate their investment.

OUR COMMON STOCK IS CONSIDERED A PENNY STOCK, WHICH IS SUBJECT TO RESTRICTIONS ON MARKETABILITY, SO YOU MAY NOT BE ABLE TO SELL YOUR SHARES.

If our common stock becomes tradable in the secondary market, we will be subject to the penny stock rules adopted by the Securities and Exchange Commission that require brokers to provide extensive disclosure to their customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our shareholders to sell their securities.

USE OF PROCEEDS

The selling stockholders are selling shares of common stock covered by this prospectus for their own account. We will not receive any of the proceeds from the resale of these shares. We have agreed to bear the expenses relating to the registration of the shares for the selling security holders.

DETERMINATION OF OFFERING PRICE

Since our shares are not listed or quoted on any exchange or quotation system, the offering price of the shares of common stock was arbitrarily determined. The offering price was determined by the price shares were sold to our shareholders in our private placement which was completed in February 2008 pursuant to an exemption under Rule 506 of Regulation D.

The offering price of the shares of our common stock has been determined arbitrarily by us and does not necessarily bear any relationship to our book value, assets, past operating results, financial condition or any other established criteria of value. The facts considered in determining the offering price were our financial condition and prospects, our limited operating history and the general condition of the securities market.

Although our common stock is not listed on a public exchange, we will be filing to obtain a listing on the Over The Counter Bulletin Board (OTCBB) concurrently with the filing of this prospectus. In order to be quoted on the Bulletin Board, a market maker must file an application on our behalf in order to make a market for our common stock. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, which operates the OTC Electronic Bulletin Board, nor can there be any assurance that such an application for quotation will be approved.

In addition, there is no assurance that our common stock will trade at market prices in excess of the initial public offering price as prices for the common stock in any public market which may develop will be determined in the marketplace and may be influenced by many factors, including the depth and liquidity.

DILUTION

The common stock to be sold by the selling shareholders is common stock that is currently issued. Accordingly, there will be no dilution to our existing shareholders.

SELLING SHAREHOLDERS

The shares being offered for resale by the selling stockholders consist of the 997,855 shares of our common stock held by 40 shareholders of our common stock which sold in our Regulation D Rule 506 offering completed in February 2008.

The following table sets forth the name of the selling stockholders, the number of shares of common stock beneficially owned by each of the selling stockholders as of September 22, 2009 and the number of shares of common stock being offered by the selling stockholders. The shares being offered hereby are being registered to permit public secondary trading, and the selling stockholders may offer all or part of the shares for resale from time to time. However, the selling stockholders are under no obligation to sell all or any portion of such shares nor are the selling stockholders obligated to sell any shares immediately upon

effectiveness of this prospectus. All information with respect to share ownership has been furnished by the selling stockholders.

- has ever been one of our officers or directors or an officer or director of our predecessors or affiliates
- Are broker-dealers or affiliated with broker-dealers.

PLAN OF DISTRIBUTION

The selling security holders may sell some or all of their shares at a fixed price of \$0.05 per share until our shares are quoted on the OTC Bulletin Board and thereafter at prevailing market prices or privately negotiated prices. Prior to being quoted on the OTCBB, shareholders may sell their shares in private transactions to other individuals. Although our common stock is not listed on a public exchange, we will be filing to obtain a listing on the Over The Counter Bulletin Board (OTCBB) concurrently with the filing of this prospectus. In order to be quoted on the Bulletin Board, a market maker must file an application on our behalf in order to make a market for our common stock. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, which operates the OTC Electronic Bulletin Board, nor can there be any assurance that such an application for quotation will be approved. However, sales by selling security holder must be made at the fixed price of \$0.05 until a market develops for the stock.

Once a market has been developed for our common stock, the shares may be sold or distributed from time to time by the selling stockholders directly to one or more purchasers or through brokers or dealers who act solely as agents, at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices, which may be changed. The distribution of the shares may be effected in one or more of the following methods:

- o ordinary brokers transactions, which may include long or short sales,
- o transactions involving cross or block trades on any securities or market where our common stock is trading, market where our common stock is trading,
- o through direct sales to purchasers or sales effected through agents,
- o through transactions in options, swaps or other derivatives (whether exchange listed or otherwise), or exchange listed or otherwise), or
- o any combination of the foregoing.

In addition, the selling stockholders may enter into hedging transactions with broker-dealers who may engage in short sales, if short sales were permitted, of shares in the course of hedging the positions they assume with the selling stockholders. The selling stockholders may also enter into option or other transactions with broker-dealers that require the delivery by such broker-dealers of the shares, which shares may be resold thereafter pursuant to this prospectus.

Brokers, dealers, or agents participating in the distribution of the shares may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agent or to whom they may sell as principal, or both (which compensation as to a particular broker-dealer may be in excess of customary commissions). Neither the selling stockholders nor we can presently estimate the amount of such compensation. We know of no existing arrangements between the selling stockholders and any other stockholder, broker, dealer or agent relating to the sale or distribution of the shares. We will not receive any proceeds from the sale of the shares of the selling security holders pursuant to this prospectus. We have agreed to bear the expenses of the registration of the shares, including legal and accounting fees, and such expenses are estimated to be approximately \$50,000.

Notwithstanding anything set forth herein, no FINRA member will charge commissions that exceed 8% of the total proceeds of the offering.

DESCRIPTION OF BUSINESS

General

The Company was incorporated in October 2006 in Nevada with the intention of providing personal consultation services to the general public. The company intends to commence business activity in the state of California with the hope of extending its business throughout the United States.

We intend to appeal to the individuals wanting to engage the services of hip stylish experts who offer a “make better” approach to grooming, wardrobe, and choices of entertainment venues, food, wine and décor. We will cater to both male and female clients. Services will be priced from \$2,000 to \$20,000. Clients will have a broad range of choices by deciding which area or areas to emphasize and to what degree. Our client will complete a brief informational questionnaire and decide on a budget, we will then enter into a formal agreement and schedule an initial appointment. Our team of consultants will begin working with the client sorting through likes and dislikes to develop the perfect solution for a better and more stylish life.

Our consultants will visit the client in his/her home, introduce one another, get acquainted, review goals and objectives and establish schedules for each phase of the “make better” process. The team will then set about its work shopping for clothing, skin care, decorative items, groceries and event tickets with a mindful eye toward the client’s budget and make-better objectives.

The hands-on work will begin during subsequent visits: cooking lessons, skin care, grooming, and apparel. Clients will be treated to the renovated décor and surprised with event tickets on the final visit by our team.

Our consultants will be “top-drawer” and come with the highest recommendations in the various fields in which they advise clients. Consultants will be hired based on their demonstrated abilities, their likeability, and their pleasant and fun attitude about working with clients and their various challenges. New Image consultants will demonstrate a sense of professionalism, diplomacy and overriding sense of delight in producing happy and satisfied clients. Consultants will receive a salary plus vested options if they remain with the corporation while we establish the business and expand it to other areas.

A change in everyday appearance can inject a whole new sense of energy and confidence into one’s attitude. Image consultants help people make the most of their appearance. They cast their critical eye over how a client stands, walks, dresses and grooms. They advise on anything from collar width, tie pattern and jacket cut, to heel height, lipstick shade and hair color. They take into account everything from skin tone down to ankle width. Image consultants stress that they aren’t about showing people how to don the very latest trends, but about showing people how to present themselves to suit their age, shape, size, status and situation. People are judged by first impressions, and the images they portray are part of those first impressions.

We will take the image makeover experience to a whole new level. We will work with clients to not only improve their look, but also improve their self-esteem. Our consultants will take clients on a fast-track tour of improving physical appearance, etiquette, surroundings, and behavioral and lifestyle choices. Instead of a single generalist, we will do this with a team of food & wine, interior design, personal grooming and culture specialists.

Properties

Our business office is located at 2019 Delaware Avenue, Santa Monica, CA 90404.

Marketing

We will maintain a website detailing the services we offer with examples of our work, and establish an office to respond to questions, mail out informational brochures and schedule appointments.

Our corporation will come to be associated with a fun time, great value and overall wonderful experience that customers will popularize by word of mouth and be anxious to repeat for themselves. Once the LA market has been established, we will reach out to other metro areas such as San Francisco, New York, Washington, D.C., Chicago, Boston, Seattle and others. We will establish offices and hire consultants to duplicate the success of the LA team. As the popularity of our program soars, we will forge merchandising agreements with various retail and service businesses in our metro areas to further promote New Image Concepts and the establishments that support our business.

Web Site

We will design an interactive web site to encourage potential clients to submit questions and request informational brochures and schedule appointments.

NOTES TO THE FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 - ORGANIZATION

New Image Concepts, Inc. (“NIC” or the “Company”), a development stage company, was incorporated on October 3, 2006 under the laws of the State of Nevada. Although the Company has recognized some nominal amount of revenue since inception, the Company is still devoting substantially all of its efforts on developing a business plan and establishing contacts and visibility in the marketplace. The Company plans to provide personal consultation services to the general public.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The accompanying interim financial statements for the three and six months ended June 30, 2009, 2008, and the period from October 3, 2006 (Inception) through June 30, 2009 are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results of operations realized during an interim period are not necessarily indicative of results to be expected for a full year. These financial statements should be read in conjunction with the information filed on Form 10-K which was declared effective on March 23, 2009.

Development Stage Company

The Company is a development stage company as defined by Statement of Financial Accounting Standards No. 7 “*Accounting and Reporting by Development Stage Enterprises*” (“SFAS No. 7”). Although the Company has recognized some nominal amount of revenue since inception, the Company is still devoting substantially all of its efforts on establishing the business and its planned principal operations have not commenced. All losses accumulated since inception, have been considered as part of the Company’s development stage activities.

Use of Estimates

Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Fair Value of Financial Instruments

The Company follows Statement of Financial Accounting Standards No. 107 “*Disclosures about fair value of Financial Instruments*” (“SFAS No. 107”) for disclosures about fair value of its financial instruments and has adopted Financial Accounting Standards Board (“FASB”) No. 157 “*Fair Value Measurements*” (“SFAS No. 157”) to measure the fair value of its financial instruments. SFAS No. 157 establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, SFAS No. 157 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by SFAS No. 157 are described below:

- Level 1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.
- Level 2 Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.
- Level 3 Pricing inputs that are generally observable inputs and not corroborated by market data.

As defined by SFAS No. 107, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale, which was further clarified as the price that would be received to sell an asset or paid to transfer a liability (“an exit price”) in an orderly transaction between market participants at the measurement date. The carrying amounts of the Company’s financial assets and liabilities, such as cash and accrued expenses, approximate their fair values because of the short maturity of these instruments.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis, consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at June 30, 2009 or 2008, nor gains or losses are reported in the statement of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date for the interim period ended June 30, 2009 or 2008.

Revenue Recognition

The Company’s revenues are derived principally from personal consultation services to the general public. The Company follows the guidance of the Securities and Exchange Commission’s Staff Accounting Bulletin 104 (“SAB No. 104”) for revenue recognition. The Company will recognize revenue when it is realized or realizable and earned less estimated future doubtful accounts. The Company considers revenue realized or realizable and earned when it has persuasive evidence of an arrangement that the services have been rendered to the customer, the sales price is fixed or determinable, and collectability is reasonably assured.

Income taxes

The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109 “*Accounting for Income Taxes*” (“SFAS No. 109”). Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

The Company adopted the provisions of Financial Accounting Standards Board (“FASB”) Interpretation No. 48 “*Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109*” (“FIN 48”). FIN 48 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of FIN 48.

Net loss per common share

Net loss per common share is computed pursuant to Statement of Financial Accounting Standards No. 128. “Earnings per Share” (“SFAS No. 128”). Basic net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period. There were no potentially dilutive shares outstanding as of June 30, 2009 or 2008.

Recently Issued Accounting Pronouncements

In June 2003, the Securities and Exchange Commission (“SEC”) adopted final rules under Section 404 of the Sarbanes-Oxley Act of 2002 (“Section 404”), as amended by SEC Release No. 33-8934 on June 26, 2008. Commencing with the Company’s Annual Report for the fiscal year ended January 31, 2010, the Company is required to include a report of management on the Company’s internal control over financial reporting. The internal control report must include a statement of management’s responsibility for establishing and maintaining adequate internal control over financial reporting for the Company; of management’s assessment of the effectiveness of the Company’s internal control over financial reporting as of year end; of the framework used by management to evaluate the effectiveness of the Company’s internal control over financial reporting; and that the Company’s independent accounting firm has issued an attestation report on management’s assessment of the Company’s internal control over financial reporting, which report is also required to be filed as part of the Annual Report on Form 10-K.

In May 2008, the FASB issued Statement of Financial Accounting Standard No. 162 “The Hierarchy of Generally Accepted Accounting Principles” (“SFAS 162”). The purpose of this standard is to provide a consistent framework for determining what accounting principles should be used when preparing U.S. GAAP financial statements. SFAS 162 categorizes accounting pronouncements in a descending order of authority. In the instance of potentially conflicting accounting principles, the standard in the highest category must be used. This statement will be effective 60 days after the SEC approves the Public Company Accounting and Oversight Board’s related amendments. The Company believes that SFAS 162 will have no impact on their existing accounting methods.

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) Financial Accounting Standard (FAS) 157-4 “Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly”. Based on the guidance, if an entity determines that the level of activity for an asset or liability has significantly decreased and that a transaction is not orderly, further analysis of transactions or quoted prices is needed, and a significant adjustment to the transaction or quoted prices may be necessary to estimate fair value in accordance with Statement of Financial Accounting Standards (SFAS) No. 157 “Fair Value Measurements”. This FSP is to be applied prospectively and is effective for interim and annual periods ending after June 15, 2009 with early adoption permitted for periods ending after March 15, 2009. The company will adopt this FSP for its quarter ending June 30, 2009. There is no expected impact on the financial statements.

In April 2009, the FASB issued FSP FAS 107-1 and Accounting Principles Board (APB) 28-1 “Interim Disclosures about Fair Value of Financial Instruments”. The FSP amends SFAS No. 107 “Disclosures about Fair Value of Financial Instruments” to require an entity to provide disclosures about fair value of financial instruments in interim financial information. This FSP is to be applied prospectively and is effective for interim and annual periods ending after June 15, 2009 with early adoption permitted for periods ending after March 15, 2009. The company will include the required disclosures in its quarter ending June 30, 2009.

In April 2008, the FASB issued FSP FAS 142-3, “Determination of the Useful Life of Intangible Assets”. The FSP states that in developing assumptions about renewal or extension options used to determine the useful life of an intangible asset, an entity needs to consider its own historical experience adjusted for entity-specific factors. In the absence of that experience, an entity shall consider the assumptions that market participants would use about renewal or extension options. This FSP is to be applied to intangible assets acquired after January 1, 2009. The adoption of this FSP did not have an impact on the financial statements.

In May 2009, the FASB issued SFAS No. 165, “Subsequent Events” (“SFAS 165”), which provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 also requires entities to disclose the date through which subsequent events were evaluated as well as the rationale for why that date was selected. This disclosure should alert all users of financial statements that an entity has not evaluated subsequent events after that date in the set of financial statements being presented. SFAS 165 is effective for interim and annual periods ending after June 15, 2009. Since FAS 165 at most requires additional disclosures, the Company does not expect the adoption to have a material impact on its consolidated financial position, results of operations or cash flows.

In June 2009, the FASB approved the “FASB Accounting Standards Codification” (the “Codification”) as the single source of authoritative nongovernmental U.S. GAAP to be launched on July 1, 2009. The Codification does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all the authoritative literature related to a particular topic in one place. All existing accounting standard documents will be superseded and all other accounting literature not included in the Codification will be considered nonauthoritative. The Codification is effective for interim and annual periods ending after September 15, 2009. The Codification is effective for the Company in the interim period ending September 30, 2009 and the Company does not expect the adoption to have a material impact on its consolidated financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying financial statements.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company had a deficit accumulated during the development stage of \$61,040, a net loss and net cash used in operations of \$7,722 and \$7,872 for the period ended June 30, 2009, respectively. These conditions raise substantial doubt about its ability to continue as a going concern.

While the Company is attempting to produce sufficient sales, the Company's cash position may not be sufficient to support the Company's daily operations. While the Company believes in the viability of its strategy to produce sales volume and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate sufficient revenues. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern.

NOTE 4 – SUBSEQUENT EVENTS

In May 2009, the FASB issued Statement of Financial Accounting Standard No. 165 "Subsequent Events" ("SFAS 165"), which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. It requires the disclosure of the date through which subsequent events have been evaluated as well as the basis for that date. This statement is effective prospectively for interim or annual financial periods ending after June 15, 2009. The Company has evaluated all subsequent events through August 3, 2009, the date of this filing, and determined there are no material recognized or unrecognized subsequent events.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
New Image Concepts, Inc.
Santa Monica, California

We have audited the accompanying balance sheets of New Image Concepts, Inc. (a development stage company) as of December 31, 2008 and 2007 and the related statements of operations, stockholders' equity (deficit) and cash flows for the years then ended, and for the period from October 3, 2006 (inception) through December 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Image Concepts, Inc. as of December 31, 2008 and 2007 and the results of its operations and its cash flows for the years then ended, and for the period from October 3, 2006 (inception) through December 31, 2008 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that New Image Concepts, Inc. will continue as a going concern. As discussed in Note 3 to the financial statements, the Company has limited financial resources, has limited revenue and an accumulated deficit all of which raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NEW IMAGE CONCEPTS, INC.
(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS
December 31, 2008 and 2007

NOTE 1 - ORGANIZATION

New Image Concepts, Inc. (“NIC” or the “Company”), a development stage company, was incorporated on October 3, 2006 under the laws of the State of Nevada. Initial operations have included organization and incorporation, target market identification, marketing plans, and capital formation. A substantial portion of the Company’s activities has involved developing a business plan and establishing contacts and visibility in the marketplace. The Company has generated minimal revenues since inception. The Company plans to provide personal consultation services to the general public.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of presentation

The Company’s financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Development Stage Company

The Company is a development stage company as defined by Statement of Financial Accounting Standards No. 7 “*Accounting and Reporting by Development Stage Enterprises*” (“SFAS No. 7”). The Company has recognized no revenue, is still devoting substantially all of its efforts on establishing the business and its planned principal operations have not commenced. All losses accumulated since inception, have been considered as part of the Company’s development stage activities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents.

Fair Value of Financial Instruments

The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties. The carrying amounts of financial assets and liabilities, such as cash and accrued expenses, approximate their fair values because of the short maturity of these instruments.

Revenue Recognition

The Company's revenues are derived principally from classroom instruction in driving a Formula One vehicle and other ancillary services to the general public. The Company follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 ("SAB No. 104") for revenue recognition. The Company recognizes revenue when it is realized or realizable and earned less estimated future doubtful accounts. The Company considers revenue realized or realizable and earned when it has persuasive evidence of an arrangement that the services have been rendered to the customer, the sales price is fixed or determinable, and collectability is reasonably assured.

Net loss per common share

Net loss per common share is computed pursuant to Statement of Financial Accounting Standards No. 128. "Earnings per Share" ("SFAS No. 128"). Basic net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period. There were no potentially dilutive shares outstanding as of December 31, 2008 or 2007.

Recently Issued Accounting Pronouncements

In June 2003, the Securities and Exchange Commission ("SEC") adopted final rules under Section 404 of the Sarbanes-Oxley Act of 2002 ("Section 404"), as amended by SEC Release No. 33-8934 on June 26, 2008. Commencing with its annual report for the fiscal year ending December 31, 2009, the Company will be required to include a report of management on its internal control over financial reporting. The internal control report must include a statement

- of management's responsibility for establishing and maintaining adequate internal control over its financial reporting;
- of management's assessment of the effectiveness of its internal control over financial reporting as of year end; and
- of the framework used by management to evaluate the effectiveness of the Company's internal control over financial reporting.

Furthermore, in the following fiscal year, it is required to file the auditor's attestation report separately on the Company's internal control over financial reporting on whether it believes that the Company has maintained, in all material respects, effective internal control over financial reporting.

In December 2007, the FASB issued FASB Statement No. 141 (Revised 2007) "*Business Combinations*" ("SFAS No. 141(R)"), which requires the Company to record fair value estimates of contingent consideration and certain other potential liabilities during the original purchase price allocation, expense acquisition costs as incurred and does not permit certain restructuring activities previously allowed under Emerging Issues Task Force Issue No. 95-3 to be recorded as a component of purchase accounting. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, except for the presentation and disclosure requirements, which shall be applied retrospectively for all periods presented. The Company has not determined the effect that the adoption of SFAS No. 141(R) will have on the financial results of the Company.

In December 2007, the FASB issued FASB Statement No. 160 "*Non-controlling Interests in Consolidated Financial Statements - an amendment of ARB No. 51*" ("SFAS No. 160"), which causes non-controlling interests in subsidiaries to be included in the equity section of the balance sheet. SFAS No. 160 applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, except for the presentation and disclosure requirements, which shall be applied retrospectively for all periods presented. The Company has not determined the effect that the adoption of SFAS No. 160 will have on the financial results of the Company.

In March 2008, the FASB issued FASB Statement No. 161 "*Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133*" ("SFAS No. 161"), which changes the disclosure requirements for derivative instruments and hedging activities. Pursuant to SFAS No.161, Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 with early application encouraged. SFAS No. 161 encourages but does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In years after initial adoption, this Statement requires comparative disclosures only for periods subsequent to initial adoption. The Company does not expect the adoption of SFAS No. 161 to have a material impact on the financial results of the Company.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying financial statements.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company had a deficit accumulated during the development stage of \$53,318, a net loss and net cash used in operations of \$30,693 and \$27,243 for the year ended December 31, 2008, respectively. These conditions raise substantial doubt about its ability to continue as a going concern.

While the Company is attempting to produce sufficient sales, the Company's cash position may not be sufficient to support the Company's daily operations. While the Company believes in the viability of its strategy to produce sales volume and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate sufficient revenues. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern.

The financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

NOTE 4 - STOCKHOLDERS' EQUITY

Common stock

On May 13, 2008, the sole director of the Company authorized a 3 for 1 forward stock split. All share and per share data in the financial statements and related notes have been restated to give retroactive effect to the forward stock split.

For the period from January 2008 through September 30, 2008, the Company sold 1,364,565 shares of its common stock in a private placement at \$0.00167 per share to fifteen (15) individuals for a total of \$22,743.

NOTE 5 – INCOME TAXES

Deferred tax assets

At December 31, 2008, the Company had net operating loss (“NOL”) carry-forwards for Federal income tax purposes of \$53,318 that may be offset against future taxable income through 2028. No tax benefit has been reported with respect to these net operating loss carry-forwards in the accompanying financial statements because the Company believes that the realization of the Company’s net deferred tax assets of approximately \$18,128 was not considered more likely than not and accordingly, the potential tax benefits of the net loss carry-forwards are fully offset by a valuation allowance of \$18,128.

Deferred tax assets consist primarily of the tax effect of NOL carry-forwards. The Company has provided a full valuation allowance on the deferred tax assets because of the uncertainty regarding its realizability. The valuation allowance increased approximately \$10,435 and \$7,098 for the year ended December 31, 2008 and 2007, respectively.

Components of deferred tax assets at December 31, 2008 and 2007 are as follows:

	December 31, 2008	December 31, 2007
Net deferred tax assets – Non-current:		
Expected income tax benefit from NOL carry- forwards	\$ 18,128	7,693
Less valuation allowance	(18,128)	(7,693)
Deferred tax assets, net of valuation allowance	<u>\$ -</u>	<u>\$ -</u>

Income taxes in the statements of operations

A reconciliation of the federal statutory income tax rate and the effective income tax rate as a percentage of income before income taxes is as follows:

	For the Year Ended December 31, 2008	For the Year Ended December 31, 2007
Federal statutory income tax rate	34.0%	34.0%
Change in valuation allowance on net operating loss carry-forwards	<u>(34.0)%</u>	<u>(34.0)%</u>

NOTE 6 – CONCENTRATIONS AND CREDIT RISK

One customer accounted for 100.0% of total sales for the year ended December 31, 2008.

NOTE 7 – COMMITMENTS AND CONTINGENCIES

Employment agreement

On March 13, 2008 the Company entered into an employment agreement (“Employment Agreement”) with its majority stockholder and sole director and officer (“Employee”) for a term of three years from the date of signing. The Employee is to be paid a minimum of \$500 per month and paid periodically not less than monthly. Either the Company or the Employee can terminate the Employment Agreement without cause upon thirty (30) days’ notice to the other party.

MANAGEMENT DISCUSSION AND ANALYSIS

This section of the Registration Statement includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our predictions.

Plan of Operation

We have begun operations very limited operations, and we require outside capital to implement our business model.

1. We believe we can begin to implement our plan to provide image consulting services to our clients.
2. All functions will be coordinated and managed by our founder, including marketing, finance and operations.
3. We intend to support these marketing efforts through advertising and the development of high-quality printed marketing materials. We expect the total cost of the marketing program to range from \$20,000-\$40,000.
4. Within 90-120 days of the initiation of our marketing campaign, we believe that we will begin to generate business.

In summary, we should be generating revenues from services within 180 days of the date of this registration statement.

If we are unable to market effectively our premium cigars, we may have to suspend or cease our efforts. If we cease our previously stated efforts, we do not have plans to pursue other business opportunities.

Limited Operating History

We have generated less than two full years of financial information and have not previously demonstrated that we will be able to expand our business through increased investment marketing. Our business is subject to risks inherent in growing an enterprise with limited capital resources.

Future financing may not be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue expanding our operations. Equity financing will result in a dilution to existing shareholders.

Results of Operations

For the period from October 3, 2006 (inception), to June 30, 2009 we had no revenue. Expenses for the period totaled \$3,497 resulting in a loss of \$3,497. Expenses of \$3,497 for the period consisted of \$1,500 for compensation, \$997 for general and administrative expenses and \$1,000 for professional fees.

Capital Resources and Liquidity

As of June 30, 2009 we had \$14,903 in cash.

We believe that we will need additional funding to satisfy our cash requirements for the next twelve months. Completion of our plan of operation is subject to attaining adequate revenue. We cannot assure investors that additional financing will be available. In the absence of additional financing, we may be unable to proceed with our plan of operations.

[Table of Contents](#)

We anticipate that our operational, and general and administrative expenses for the next 12 months will total approximately \$100,000. The foregoing represents our best estimate of our cash needs based on current planning and business conditions. The exact allocation, purposes and timing of any monies raised in subsequent private financings may vary significantly depending upon the exact amount of funds raised and our progress with the execution of our business plan. We anticipate that depending on market conditions and our plan of operations, we may incur operating losses in the foreseeable future. Therefore, our auditors have raised substantial doubt about our ability to continue as a going concern.

Our director and officer is indemnified as provided by the Nevada Statutes and our Bylaws. Recent Sales Of Unregistered Securities.

We were incorporated in the State of Nevada in October 2006 and 1,000,000 shares were issued to Belen Flores as compensation for our incorporation. Additionally, in April of 2007, we issued 13,000,000 shares of our common stock to Belen Flores, our sole director and officer as compensation for services rendered. These shares were issued in reliance on the exemption under Section 4(2) of the Securities Act of 1933, as amended (the "Act"). These shares of our common stock qualified for exemption under Section 4(2) of the Securities Act of 1933 since the issuance shares by us did not involve a public offering. The offering was not a "public offering" as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of shares offered.

We did not undertake an offering in which we sold a high number of shares to a high number of investors. In addition, these shareholders had the necessary investment intent as required by Section 4(2) since they agreed to and received share certificates bearing a legend stating that such shares are restricted pursuant to Rule 144 of the 1933 Securities Act. This restriction ensures that these shares would not be immediately redistributed into the market and therefore not be part of a “public offering.” Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act of 1933 for this transaction.

In February 2008, we completed a Regulation D Rule 506 offering in which we sold 997,855 shares of common stock to 40 investors, at a price per share of \$0.05 per share for an aggregate offering price of \$49,893. The following sets forth the identity of the class of persons to whom we sold these shares and the amount of shares for each shareholder:

Undertakings.

(A) The undersigned Registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
 - (ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and
 - (iii) Include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(B) The issuer is subject to Rule 430C (ss. 230. 430C of this chapter): Each prospectus filed pursuant to Rule 424(b)(ss. 230. 424(b) of this chapter) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A (ss. 230. 430A of this chapter), shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our firm under the caption "Experts" in the Registration Statement. In so doing, we do not admit that we are in the category of persons whose consent is required under Section 7 of the Act and the rules and regulations of the Securities and Exchange Commission promulgated thereunder.
