Overview

We are a leading owner, operator, and provider of electric vehicle (“EV”) charging equipment and networked EV charging services. We offer both residential and commercial EV charging equipment, enabling EV drivers to easily recharge at various location types.

Our principal line of products and services is our Blink EV charging network (the “Blink Network”) and EV charging equipment (also known as electric vehicle supply equipment) and EV related services. Our Blink Network is proprietary cloud-based software that operates, maintains, and tracks all of the Blink EV charging stations and the associated charging data. The Blink Network provides property owners, managers, and parking companies, who we refer to as our “Property Partners”, with cloud-based services that enable the remote monitoring and management of EV charging stations, payment processing, and provides EV drivers with vital station information including station location, availability, and applicable fees.

We offer our Property Partners a flexible range of business models for EV charging equipment and services. In our comprehensive and turnkey business model, we own and operate the EV charging equipment, manage the installation, maintenance, and related services; and share a portion of the EV charging revenue with the property owner. Alternatively, Property Partners may share in the equipment and installation expenses, with Blink operating and managing the EV charging stations and providing connectivity to the Blink Network. For Property Partners interested in purchasing and owning EV charging stations that they manage, we can also provide EV charging hardware, site recommendations, connectivity to the Blink Network, and service and maintenance services.

We have strategic relationships with hundreds of Property Partners that include well-recognized companies, large municipalities, and local businesses. The types of properties include airports, auto dealers, healthcare/medical, hotels, mixed-use, municipal locations, multifamily residential and condo, parks and recreation areas, parking lots, religious institutions, restaurants, retailers, schools and universities, stadiums, supermarkets, transportation hubs, and workplace locations. Some examples are Caltrans, City of Azusa, City of Chula Vista, City of Springfield, City of Tucson, Cracker Barrel, Federal Realty, Fred Meyer Stores, Inc., Fry’s Food & Drug, Inc., IKEA, JBG Associates, LLC, Kroger Company and Ralphs Grocery Company. We continue to establish contracts with Property Partners that previously had contracts with the EV services providers that we acquired, including ECotality, Inc. (“ECotality”), the former owner of the Blink related assets, which we acquired in October 2013.

As of February 13, 2018, we have approximately 14,102 charging stations deployed of which 4,733 are Level 2 commercial charging units, 114 DC Fast Charging EV chargers and 2,027 residential charging units in service on the Blink Network. Additionally, we currently have approximately 323 Level 2 commercial charging units on other networks and there are also approximately an additional 6,905 non-networked, residential Blink EV charging stations. The non-networked, residential Blink EV charging stations are all partner owned. Level 2 EV chargers are ideal for commercial and residential use, and has the standard J1772 connector, which is compatible with all major auto manufacturer electric vehicle models. Our DC Fast Charging equipment (“DCFC”) currently has the CHAdeMo connector, which is compatible with Nissan, Kia, and Tesla electric vehicle models, and typically provides an 80% charge in less than 30 minutes.

Competitive Advantages/Operational Strengths

Early Mover Advantage: We continue to leverage our large and defensible first mover advantage and the digital customer experience we have created for both drivers and Property Partners. We have more than 114,000 drivers currently registered with Blink that appreciate the value of EV charging sessions on a leading, established, and robust network. We have thousands of Blink chargers deployed across the United States and the goal is to keep our Property Partners on one consistent network when expanding on any given property.

Long-Term Contracts with Property Owners: We have strategic and often long term agreements with location exclusivity for Property Partners across numerous transit/destination locations, including airports, car dealers, healthcare/medical, hotels, mixed-use, municipal locations, multifamily residential and condo, parks and recreation areas, parking lots, religious institutions, restaurants, retailers, schools and universities, stadiums, supermarkets, transportation hubs, and workplace locations. We have hundreds of Property Partners that include well-recognized companies, large municipalities, and local businesses. Some examples are Caltrans, Carl’s Jr., City of Azusa, City of Chula Vista, City of Springfield, City of Tucson, Cracker Barrel, Federal Realty, Fred Meyer Stores, Inc., Fry’s Food & Drug, Inc., Garage Management Company, Icon Parking, IKEA, iPark, JBG Associates, Kohls, Kroger Company, LAZ Parking, Macy’s, McDonald’s, and Ralphs Grocery Company, Sears, Simon Properties, and SP+ Parking. We continue to establish new contracts with Property Partners that previously secured our services independently, or had contracts with the EV services providers that we acquired, including ECOTALITY, the former owner of the Blink related assets.

Flexible Business Model: We are able to offer and sell both EV charging equipment as well as access to our robust, cloud-based EV charging software, which we refer to as the Blink Network. We believe that we have an advantage in our ability to offer various business models to Property Partners and leverage along with our technology to meet the needs of both Property Partners and EV drivers. Our Property Partner business model options include:

1. **Blink Owned:** We provide EV charging equipment, which we own and maintain, and operate the EV charging services through our Blink Network and share a portion of the revenues generated from the stations with our Property Partner.
2. **Host Owned:** The Property Partner purchases our EV charging equipment and pays for connectivity to our Blink Network as well as payment transaction fees and optional service fees.
3. **Hybrid:** We also offer customized business models that meet individual Property Partner needs and combines features from the aforementioned business models.

Ownership and Control of EV Charging Stations and Services: We own a large percentage of our stations, which is a significant differentiation between us and some of our primary competitors. This ownership model allows us to control the settings and pricing for our EV charging services, service the equipment as necessary, and have greater brand management and price uniformity.

Experience with Products and Services of Other EV Charging Service Providers. From inception in 2009 and via acquisitions of other EV charging service providers (Beam Charging, 350Green, EV Pass, and Blink), we have had the experience of owning and operating EV charging equipment provided by other EV charging service providers, including General Electric, ChargePoint, and SemaConnect. This experience has provided us with the working knowledge of the benefits and drawbacks of other equipment manufacturers and their applicable EV charging networks.

Our Risks and Challenges

- The Unavailability, Reduction or Elimination of Government Incentives Could Have a Material Adverse Effect on Our Business, Financial Condition, Operating Results and Prospects; and
- If We Are Unable to Keep up with Advances in Electric Vehicle Technology, We May Suffer a Decline in Our Competitive Position.

We are subject to a number of additional risks which you should be aware of before you buy our securities in this offering. These risks are discussed more fully in the section entitled "Risk Factors" following this prospectus summary.

Securities Purchase Agreement with JMJ Financial

We entered into a Securities Purchase Agreement dated October 7, 2016 (the "Purchase Agreement") with JMJ Financial, a Nevada sole proprietorship owned by Justin Keener ("JMJ," and together with our Company, the "Parties"). In accordance with its terms, the Purchase Agreement became effective upon (i) execution by the Parties of the Purchase Agreement, a Promissory Note (as defined below), and the October JMJ Warrant (as defined below), and (ii) delivery of an initial advance pursuant to the Promissory Note of \$500,000, which occurred on October 13, 2016. The Promissory Note and the October JMJ Warrant were issued on October 13, 2016. The Purchase Agreement was amended on March 23, May 15, June 15, July 20, August 28, August 29, September 6, September 14, and October 23 (all in 2017). Pursuant to the Purchase Agreement, JMJ purchased from our Company (i) a promissory note (the "Promissory Note"), convertible into Common Stock, in the aggregate principal amount of up to \$3,725,000 due and payable on the earlier of February 15, 2018 or the third business day after the closing of this offering, and (ii) a Common Stock purchase warrant (the "October JMJ Warrant") to purchase 14,286 shares of our Common Stock at an exercise price per share equal to the lesser of (i) 80% of the per share price of this offering, (ii) \$35, (iii) 80% of the unit price of this offering (if applicable), (iv) the exercise price of any warrants issued in this offering, or (v) the lowest conversion price, exercise price, or exchange price, of any security issued by us that was outstanding on October 13, 2016. Pursuant to the terms of the Promissory Note, JMJ has agreed that it will not convert the Promissory Note into more than 9.99% of our outstanding shares of Common Stock. JMJ currently does not own any shares of our Common Stock. The initial amount borrowed under the Promissory Note was \$500,000, with the remaining amounts permitted to be borrowed under the Promissory Note being subject to us achieving certain milestones. The Promissory Notes each have an original issue discount of approximately 6%. This means that the Company will need to repay at least \$530,000 for every \$500,000 borrowed.

If we do not repay the Promissory Note on the maturity date (currently February 15, 2018), JMJ can convert all or part of the outstanding and unpaid principal, accrued interest, and any other fees into shares of Common Stock at a conversion price that is the lesser of \$35.00 or 60% of the lowest trade price in the 25 trading days previous to the conversion. If we do not repay the Promissory Note on the maturity date and if we have issued a variable security at any time the Promissory Note is outstanding, then in such event JMJ shall have the right to convert all or any portion of the outstanding balance of the Promissory Note into shares of Common Stock on the same terms as granted in any applicable variable security issued by us.

With the achievement of certain milestones in November 2016 (the filing with the Securities and Exchange Commissions (the "SEC") of a Preliminary Information Statement on Schedule 14C regarding the Reverse Stock Split), an additional advance of \$500,000 under the Promissory Note occurred on November 28, 2016. Another warrant to purchase 14,286 shares of our Common Stock was issued as of November 28, 2016. With the achievement of certain milestones in February 2017 (the filing with the SEC of a revised Preliminary Information Statement and a Definitive Information Statement, each on Schedule 14C regarding the Reverse Stock Split), additional advances of \$225,100 and \$300,000 under the Promissory Note occurred on February 10 and February 27, respectively. Thus, two more warrants to purchase the Company's Common Stock were issued, one for 6,431 shares and the other for 8,571 shares, respectively. All advances after February 28, 2017 have been at the discretion of JMJ without regard to any specific milestones occurring. Additional advances of \$250,000 and \$30,000 under the Promissory Note occurred on March 14, 2017 and March 24, 2017, respectively, and two more warrants to purchase the Company's Common Stock were issued, one for 7,143 shares and the other for 857 shares. An additional advance of \$400,000 occurred on April 5, 2017 and another warrant to purchase 11,429 shares of our Common Stock was issued on the same date. An additional advance of \$295,000 occurred on May 9, 2017 and another warrant to purchase 8,429 shares of the Company's Common Stock was issued on the same date. On July 27, 2017, an additional advance of \$50,000 was made to the Company and another warrant to purchase 1,429 shares of the Company's Common Stock was issued to JMJ.

In connection with the Purchase Agreement, the Company entered into a Representations and Warranties Agreement (the "Representations and Warranties Agreement") with JMJ regarding the Company's existing debt as of October 7, 2016. The Company had agreed to obtain agreements, by December 15, 2016, with holders owning at least \$7,000,000 of the outstanding liabilities as reflected on the Company's balance sheet as of June 30, 2016, providing for those holders to convert their liabilities into shares of Series C Convertible Preferred Stock ("Series C Preferred Shares") or Common Stock of the Company at or prior to the time of the closing of this offering. The Company had also agreed to, by December 15, 2016, seek agreements so that the Company would not have, other than securities issued to JMJ, any variable securities. The Company is still seeking these letter agreements. Although the Company did not meet the December 2016 deadline, JMJ has not sought any remedies or assessed any fees for such failure.

On March 23, 2017, the parties amended the terms of the Promissory Note such that JMJ agreed to conditionally waive the defaults with regards to our failure to meet the original maturity date of the Promissory Note and the original delivery date of February 15, 2017 for the Origination Shares and extended the Maturity Date to May 15, 2017.

"Origination Shares" is defined in the Purchase Agreement as the following: on the fifth (5th) trading day after the closing of this offering we will deliver to JMJ shares of our Common Stock equal to 48% of the consideration paid by JMJ under the Promissory Note divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of our Common Stock during the ten days prior to delivery of the Origination Shares (subject to adjustment for stock splits), or (iii) 80% of the Common Stock price of this offering, or (iv) 80% of the unit price of this offering (if applicable), or (v) the exercise price of any warrants issued in this offering. The number of shares to be issued will be determined based on the offering price in this offering. The Origination Shares will now be issued in the form of Series D Preferred Stock to be issued pursuant to the Additional Agreement discussed below.

On March 23, 2017, JMJ did not waive any damages, fees, penalties, liquidated damages, or other amounts or remedies otherwise resulting from such defaults (which damages, fees, penalties, liquidated damages, or other amounts or remedies JMJ may choose in the future to assess, apply or pursue in its sole discretion) and JMJ's conditional waiver is conditioned on us not being in default of and not breaching any term of the note, the securities purchase agreement, or any other transaction documents in connection therewith at any time subsequent to March 23, 2017. The parties amended the terms of the Promissory Note in a similar manner on May 15, 2017 (extending the Maturity Date to June 15, 2017), June 15, 2017 (extending the Maturity Date to July 15, 2017), July 20, 2017 (extending the Maturity Date to August 20, 2017), August 28, 2017 (extending the Maturity Date to August 31, 2017), August 29, 2017 (extending the Maturity Date to September 6, 2017), September 6, 2017 (extending the Maturity Date to September 14, 2017) and September 14, 2017 (extending the Maturity Date to September 21, 2017).

JMJ and the Company entered into a Lockup, Conversion, and Additional Investment Agreement dated October 23, 2017 (the "Additional Agreement"), however, it became effective upon the document being fully executed on October 24, 2017.

In accordance with the terms of the Additional Agreement, on October 24, 2017, JMJ advanced to the Company \$949,900 available pursuant to previous agreements with JMJ. The Additional Agreement extended the Maturity Date to December 15, 2017 (subsequently extended to February 15, 2018). In addition, JMJ has claimed that the Company would owe JMJ \$12 million as a mandatory default amount pursuant to previous agreements with the Company. JMJ agreed to allow the Company to have two options for settling a previously issued note (including settling the mandatory default amount for either \$1.1 million or \$2.1 million), securing a lockup agreement from JMJ, and exchanging previously issued warrants for shares of Common Stock. Each of these options depends upon this offering closing by December 15, 2017 (subsequently extended to February 15, 2018). The option chosen is at the Company's sole discretion.

The first option is that the Company, upon the closing of this offering: (a) will pay \$2.0 million in cash to JMJ; and (b) will issue shares of Common Stock to JMJ with a value of \$9,005,000 (including the Origination Shares). The second option is that the Company, upon the closing of this offering, will not pay any cash to JMJ and will issue shares of Common Stock to JMJ with a value of \$12,005,000 (including the Origination Shares). In each case, the Company will issue such number of duly and validly issued, fully paid and non-assessable shares of Common Stock equal to the amount in question divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of the Common Stock during the ten days prior to delivery of shares (subject to adjustment for stock splits), or (iii) 80% of the Common Stock price of this offering, or (iv) 80% of the unit price of this offering (if applicable), or (v) the exercise price of any warrants issued in this offering. Prior to the Company choosing the option at the closing, JMJ could elect to receive some or all of the share consideration (to be issued pursuant to either option) discussed in this paragraph in the form of convertible preferred stock. JMJ made this election on January 29, 2018.

Unless otherwise stated, this prospectus assumes the Company will choose the second option and not pay any cash to JMJ.

Pursuant to the Additional Agreement, on January 29, 2018, JMJ informed the Company that it had elected to convert all of the principal and interest due and owing to them in connection with the Promissory Note and all other advances made to the Company into a series of preferred stock with the designations, rights, preferences and privileges as mutually agreed upon between the Company and JMJ. Accordingly, the Company will file a Certificate of Designation for its Series D Convertible Preferred Stock (the "Series D Preferred Stock") (i) following the effectiveness of the registration statement of which this prospectus forms a part and (ii) prior to the closing of this offering. The Series D Preferred Stock will have the rights, preferences and privileges outlined in the "Description of Capital Stock" below.

Upon the closing of this offering, the Company will not pay any cash to JMJ and will issue shares of Series D Preferred Stock to JMJ with a value of \$12,005,000 (including the Origination Shares). The Series D Preferred Stock will convert into Common Stock based on the lowest daily closing price of the Common Stock during the ten days prior to delivery of the shares of Series D Preferred Stock (\$3.12).

On November 29, 2017, the Company and JMJ entered into the first amendment to the Additional Agreement, extending the Maturity Date to December 31, 2017. On January 4, 2018, the Company and JMJ entered into the second amendment to the Additional Agreement, extending the Maturity Date to January 31, 2018. On February 1, 2018, the Company and JMJ entered into the third amendment to the Additional Agreement, extending the Maturity Date to February 10, 2018. On February 7, 2018, the Company and JMJ entered into the fourth amendment to the Additional Agreement, extending the Maturity Date to February 15, 2018.

Upon the closing of this offering, JMJ will sign a six-month lockup agreement. In addition, the Company agreed to give JMJ a right of participation of up to \$5 million in this offering and up to \$5 million in each of the Company's subsequent financings during the two-year period after this offering.

As of February 13, 2018, ten (10) warrants to purchase a total of 100,001 shares of the Company's Common Stock have been issued to JMJ. The aggregate exercise price is \$3,500,000. On the fifth (5th) trading day after the closing of this offering, but in no event later than February 15, 2018, we will deliver the Origination Shares to JMJ. If this offering does not occur prior to February 15, 2018 and JMJ owns Origination Shares at the time of a subsequent public offering where the pricing terms above would result in a lower Origination Share pricing, the Origination Shares pricing shall be subject to a reset based on the same pricing terms as described above. The Origination Shares will now be issued in the form of Series D Preferred Stock to be issued pursuant to the Additional Agreement.

As of February 13, 2018, JMJ has not asserted its right to assess penalties resulting from the defaults with regards to our failure to meet the original (and amended) maturity date of the Promissory Note and the original (and amended) delivery date for the Origination Shares.

We refer herein to these transactions with JMJ as the "JMJ Financing".

Separately from and unrelated to the JMJ Financing, JMJ lent \$250,000 to the Company on January 22, 2018. We will be issuing units of unregistered shares of Common Stock and warrants as repayment of this \$250,000 advance at the closing of the offering.

Recent Developments

Non-Cash Expense: On August 29, 2017, following the effectiveness of the Reverse Stock Split, the Farkas Group Inc. (“FGI”) (an entity whose sole owner is Michael Farkas, our Executive Chairman) exercised, on a cashless basis, its warrants to purchase 3.1 million shares, accounted for as derivative liabilities, that were not subject to the Reverse Stock Split. The Company issued 2,990,404 shares of Common Stock to FGI as a result of the cashless exercise. As a result, since the exercised warrants were previously classified as a derivative liability, the Company recorded a mark-to-market adjustment during the three months ended September 30, 2017 of approximately \$43.9 million which was included within change in fair value of warrant liabilities on the condensed consolidated statement of operations. On November 20, 2017, JMJ confirmed in writing that it would not pursue a price reset of its outstanding warrants as a result of the FGI warrant exercise. The Company expects that this will result in a substantial reduction of the fair market value of JMJ’s derivative liabilities (\$25 million on the September 30, 2017 balance sheet) in the fourth quarter of 2017.

On December 6, 2017, the Company and Mr. Farkas signed a letter agreement, pursuant to which, Mr. Farkas, on behalf of FGI, agreed that upon the closing of this offering, FGI will cancel 2,930,596 of its shares of Common Stock (of the 2,990,404 received).

Listing on The Nasdaq Capital Market

Our Common Stock and warrants have been approved for listing on The Nasdaq Capital Market (“NASDAQ”) under the symbols “BLNK” and “BLNKW”, respectively.

Going Concern Considerations

As reflected in our unaudited condensed consolidated financial statements for the nine months ended September 30, 2017, we had a cash balance, a working capital deficiency and an accumulated deficit of \$9,062, \$67,198,792 and \$182,206,113, respectively. During the nine months ended September 30, 2017, the Company incurred a net loss of \$101,134,331. These factors raise substantial doubt about our ability to continue as a going concern within a period of one year after the September 30, 2017 financial statement issuance date, as expressed in the notes to our unaudited condensed consolidated financial statements. Historically, we have been able to raise funds to support our business operations.

While we believe in the viability of our strategy to generate sufficient revenues and in our ability to raise additional funds through the completion of this offering, there can be no assurance that we will be able to generate sufficient revenues or complete this offering, raise anticipated proceeds, or that any other debt or equity financing will be available or, if available, that it will be available on terms acceptable to us. If we fail to complete this offering or raise anticipated proceeds, we may not be able to continue operations and as such our independent auditor’s report will continue to contain an uncertainty paragraph expressing substantial doubt as to our ability to continue as a going concern.

Corporate Information

Blink Charging Co. (formerly known as “Car Charging Group, Inc.”), a Nevada corporation, is the parent company of Car Charging, Inc., a Delaware corporation, which serves as the main operating company and is, in turn, the parent company of several distinct wholly-owned subsidiary operating companies including, but not limited to, eCharging Stations LLC, Blink, Beam Charging LLC and EV Pass LLC. Blink Charging Co. was formed in the State of Nevada on October 3, 2006, under our prior name, New Image Concepts, Inc. New Image Concepts, Inc. changed its name to Car Charging Group, Inc., on December 8, 2008. Car Charging, Inc. was incorporated in Delaware on September 8, 2009. We purchased the assets referred to as the Blink Network from ECotality, Inc. on October 16, 2013. From April 22, 2013 to April 16, 2014, 350 Green LLC (“350 Green”) was a wholly-owned subsidiary of the Company in which the Company had full control and was consolidated. Beginning on April 17, 2014, when 350 Green’s assets and liabilities were transferred to a trust mortgage, 350 Green became a variable interest entity. We had determined that we were the primary beneficiary of 350 Green, and as such, 350 Green’s assets, liabilities and results of operations are included in our consolidated financial statements for the period of April 22, 2013 through May 17, 2017. On May 18, 2017, each of 350 Green and Green 350 Trust Mortgage LLC filed to commence an assignment for the benefit of creditors, which resulted in their residual assets being controlled by an assignee in a judicial proceeding. As a result, as of May 18, 2017, 350 Green is no longer a variable interest entity of the Company and, accordingly, as of June 30, 2017, 350 Green’s approximately \$3.7 million of liabilities were deconsolidated from the Company’s financial statements. On August 17, 2017, we changed our name to Blink Charging Co.

We maintain our principal offices at 3284 N 29th Court, Hollywood, Florida 33020. Our telephone number is (305) 521-0200. Our Silicon Valley office is located at 20 So. (2) The Company received agreements signed by certain holders of outstanding warrants to purchase Common Stock, pursuant to which warrants to purchase an aggregate of 726,504 warrant shares converted into 710,841 shares of Common Stock. These 710,841 shares were issued pursuant to Board resolutions dated September 26, 2017. The issuance of these 710,841 shares will result in a gain of approximately \$3.8 million and reduce liabilities by approximately \$8.0 million.

(3) The issuance on November 29, 2017 of 9,119 Series C Preferred Shares as payment in full of payment-in-kind dividends and registration rights penalties and accrued interest thereon, owed to our Series C Preferred Shareholders accrued as of September 30, 2017.

(5) The payment of \$30,000 to Douglas Stein pursuant to a Forbearance Agreement with the Company dated January 8, 2018 out of a total of \$223,168.

- a pro forma as adjusted basis, giving effect to the pro forma events above and for the sale by us of 4,353,000 units in this offering, after deducting underwriting discounts and commissions and estimated offering expenses, and the following:
 - (1) On December 6, 2017 and December 7, 2017, the two holders of the Series A Preferred Shares (Mr. Farkas and Mr. Feintuch) signed letter agreements pursuant to which, at the closing of this offering, 11,000,000 Series A Preferred Shares will convert into 550,000 shares of Common Stock. The Company recorded the beneficial conversion feature with a value of \$1,000,000 as a deemed dividend by recording an offsetting debit and credit to additional paid-in capital because the Company has an accumulated deficit.
 - (2) On May 19, 2017, the holder of the Series B Preferred Shares signed a conversion agreement pursuant to which, at the closing of this offering, 8,250 Series B Preferred Shares will convert into 223,235 shares of Common Stock, which will result in an inducement charge of approximately \$124,000, by dividing the \$825,000 payable by the public offering price of \$4.25 and multiplying by a factor of 1.15.
 - (3) At the closing of this offering, the 250,180 Series C Preferred Shares will convert into an aggregate of 9,124,264 shares of Common Stock. The majority (outside of those issued to Horton Capital) will be issued based upon the following formula: the number of outstanding Series C Preferred Shares (i) multiplied by a factor of 115, (ii) divided by \$3.12 (the conversion price of the Series D Preferred Stock to be issued to JMJ). Horton Capital will be issued shares of Common Stock based on receiving shares worth \$2,700,000 (based on the number of outstanding Series C Preferred Shares owned by Horton, multiplied by a factor of 115 and then reduced for any amount in excess of \$2,700,000) (i) divided by the public offering price of \$4.25, (ii) multiplied by 80%. Of the 250,180 Series C Preferred Shares that will be outstanding as of the anticipated closing date of February 16, 2018, Mr. Farkas controls 5,732 Series C Preferred Shares in his own name and 169,980 Series C Preferred Shares held by BLNK Holdings in which Mr. Farkas has a controlling interest. Upon the closing of this offering, these 185,222 Series C Preferred Shares will convert into an aggregate of 7,038,369 shares of Common Stock. The majority of the shares are being converted pursuant to conversion agreements signed by holders of the Series C Preferred Shares and the remainder are being issued pursuant to the Series C Amendments. The conversion of the Series C Preferred Shares resulted in a deemed dividend of approximately \$9.7 million which was recognized by recording an offsetting debit and credit to additional paid-in capital because the Company has an accumulated deficit. The Series C Certificate of Designation (as amended) contains a provision that allows the Series C Preferred Shares holders to have the most favorable conversion formula agreed to by the Company with any investor. At this time, pursuant to the Additional Agreement, JMJ has the most favorable conversion formula. The Company will be using JMJ's conversion price of \$3.12 for its Series D Preferred Stock for the conversion of the 250,180 Series C Preferred Shares.
 - (4) At the closing of this offering, the Company will repay: (i) \$688,238 in principal and interest owed pursuant to outstanding convertible notes issued to FGI; and (ii) placement agent and legal fees of approximately \$212,245 related to the JMJ Financing (of which \$77,245 will be paid to the Representative, \$120,000 will be paid to Ardour, and \$15,000 will be paid to IBIS Co.). Pursuant to an election by JMJ permitted by the Additional Agreement, the Company will issue to JMJ shares of Series D Preferred Stock convertible into 3,847,756 shares of Common Stock, based on the lowest daily closing price of the Common Stock during the ten days prior to delivery of the shares of Series D Preferred Stock (\$3.12), to reflect the full payment of all dollar amounts and share amounts owed in connection with the JMJ Financing. The settlement with JMJ will result in a gain of \$38.1 million. See "Use of Proceeds" section on page 30.
 - (5) At the closing of this offering, the Company will pay the former principals of 350 Green LLC \$25,000 in installment debt and \$50,000 within 60 days thereafter in settlement of a \$360,000 debt (inclusive of imputed interest) in accordance with a Settlement Agreement between the parties dated August 21, 2015 resulting in a gain of \$285,000.
 - (6) At the closing of this offering, the Company will issue 334,269 units issuable to two employee members of the Board (Mr. Farkas and Mr. Calise) as well as a former member of the Board who remains our President (Mr. Kinard) in settlement and consideration of services rendered during the period of April 1, 2016 through March 31, 2017 for payment of \$113,551 divided by the public offering price of \$4.25 multiplied by 80%, resulting in an inducement charge of \$28,000. Each unit will consist of one share of Common Stock and two warrants each to purchase one share of Common Stock. The Company will not be registering any of the securities issued in connection with this payment.
 - (7) At the closing of this offering, the Company will charge approximately \$781,000 against additional paid-in capital related to offering costs that have been deferred.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider the following risks and uncertainties described below, as well as other information included in this prospectus before deciding to purchase our securities. There are many risks that affect our business and results of operations, some of which are beyond our control. Our business, financial condition or operating results could be materially harmed by any of these risks. This could cause the trading price of our securities to decline, and you may lose all or part of your investment. Additional risks that we do not yet know of or that we currently think are immaterial may also affect our business and results of operations.

Relating to Our Business

Our Revenue Growth Depends on Consumers' Willingness to Adopt Electric Vehicles.

Our growth is highly dependent upon the adoption by consumers of electric vehicles ("EV"), and we are subject to a risk of any reduced demand for EVs. If the market for EVs does not gain broad market acceptance or develops more slowly than we expect, our business, prospects, financial condition and operating results will be harmed. The market for alternative fuel vehicles is relatively new, rapidly evolving, characterized by rapidly changing technologies, price competition, additional competitors, evolving government regulation and industry standards, frequent new vehicle announcements, long development cycles for EV original equipment manufacturers, and changing consumer demands and behaviors. Factors that may influence the purchase and use of alternative fuel vehicles, and specifically EVs, include:

- perceptions about EV quality, safety (in particular with respect to lithium-ion battery packs), design, performance and cost, especially if adverse events or accidents occur that are linked to the quality or safety of EVs;
- the limited range over which EVs may be driven on a single battery charge and concerns about running out of power while in use;
- improvements in the fuel economy of the internal combustion engine;
- consumers' desire and ability to purchase a luxury automobile or one that is perceived as exclusive;
- the environmental consciousness of consumers;
- volatility in the cost of oil and gasoline;
- consumers' perceptions of the dependency of the U.S. on oil from unstable or hostile countries and the impact of international conflicts;
- government regulations and economic incentives promoting fuel efficiency and alternate forms of energy;
- access to charging stations, standardization of EV charging systems and consumers' perceptions about convenience and cost to charge an EV; and
- the availability of tax and other governmental incentives to purchase and operate EVs or future regulation requiring increased use of nonpolluting vehicles.

The influence of any of the factors described above may negatively impact the widespread consumer adoption of EVs, which would materially adversely affect our business, operating results, financial condition and prospects.

Changes to the Corporate Average Fuel Economy Standards May Impact the Electric Vehicle Market and Affect our Business and Results of Operations.

As regulatory initiatives have required an increase in the consumption of renewable transportation fuels, such as ethanol and biodiesel, consumer acceptance of electric and other alternative vehicles is increasing. To meet higher fuel efficiency and greenhouse gas emission standards for passenger vehicles, automobile manufacturers are increasingly using technologies, such as turbocharging, direct injection and higher compression ratios, that require high octane gasoline. If fuel efficiency of vehicles continues to rise, and affordability of vehicles using renewable transportation fuels increases, the demand for electric and high energy vehicles could diminish. If consumers no longer purchase electric vehicles, it would materially adversely affect our business, operating results, financial condition and prospects.

Computer Malware, Viruses, Hacking, Phishing Attacks and Spamming Could Harm Our Business and Results of Operations.

Computer malware, viruses, physical or electronic break-ins and similar disruptions could lead to interruption and delays in our services and operations and loss, misuse or theft of data. Computer malware, viruses, computer hacking and phishing attacks against online networking platforms have become more prevalent and may occur on our systems in the future.

Any attempts by hackers to disrupt our website service or our internal systems, if successful, could harm our business, be expensive to remedy and damage our reputation or brand. Our network security business disruption insurance may not be sufficient to cover significant expenses and losses related to direct attacks on our website or internal systems. Efforts to prevent hackers from entering our computer systems are expensive to implement and may limit the functionality of our services. Though it is difficult to determine what, if any, harm may directly result from any specific interruption or attack, any failure to maintain performance, reliability, security and availability of our products and services and technical infrastructure may harm our reputation, brand and our ability to attract customers. Any significant disruption to our website or internal computer systems could result in a loss of customers and could adversely affect our business and results of operations.

We have previously experienced, and may in the future experience, service disruptions, outages and other performance problems due to a variety of factors, including infrastructure changes, third-party service providers, human or software errors and capacity constraints. If our mobile application is unavailable when customers attempt to access it or it does not load as quickly as they expect, customers may seek other services.

Our platform functions on software that is highly technical and complex and may now or in the future contain undetected errors, bugs, or vulnerabilities. Some errors in our software code may only be discovered after the code has been deployed. Any errors, bugs, or vulnerabilities discovered in our code after deployment, inability to identify the cause or causes of performance problems within an acceptable period of time or difficultly maintaining and improving the performance of our platform, particularly during peak usage times, could result in damage to our reputation or brand, loss of revenues, or liability for damages, any of which could adversely affect our business and financial results.

We expect to continue to make significant investments to maintain and improve the availability of our platform and to enable rapid releases of new features and products. To the extent that we do not effectively address capacity constraints, upgrade our systems as needed and continually develop our technology and network architecture to accommodate actual and anticipated changes in technology, our business and operating results may be harmed.

We have a disaster recovery program to transition our operating platform and data to a failover location in the event of a catastrophe and have tested this capability under controlled circumstances, however, there are several factors ranging from human error to data corruption that could materially lengthen the time our platform is partially or fully unavailable to our user base as a result of the transition. If our platform is unavailable for a significant period of time as a result of such a transition, especially during peak periods, we could suffer damage to our reputation or brand, or loss of revenues any of which could adversely affect our business and financial results.

Growing Our Customer Base Depends Upon the Effective Operation of Our Mobile Applications with Mobile Operating Systems, Networks and Standards That We Do Not Control.

We are dependent on the interoperability of our mobile applications with popular mobile operating systems that we do not control, such as Google's Android and iOS, and any changes in such systems that degrade our products' functionality or give preferential treatment to competitive products could adversely affect the usage of our applications on mobile devices. Additionally, in order to deliver high quality mobile products, it is important that our products work well with a range of mobile technologies, systems, networks and standards that we do not control. We may not be successful in developing relationships with key participants in the mobile industry or in developing products that operate effectively with these technologies, systems, networks or standards.

We Need Additional Capital to Fund Our Growing Operations and Cannot Assure You That We Will Be Able to Obtain Sufficient Capital on Reasonable Terms or at All, and We May Be Forced to Limit the Scope of Our Operations.

We need additional capital to fund our growing operations and if adequate additional financing is not available on reasonable terms or available at all, we may not be able to undertake expansion or continue our marketing efforts and we would have to modify our business plans accordingly. The extent of our capital needs will depend on numerous factors, including (i) our profitability; (ii) the release of competitive products and/or services by our competition; (iii) the level of our investment in research and development; (iv) the amount of our capital expenditures, including acquisitions; and (v) our growth. We cannot assure you that we will be able to obtain capital in the future to meet our needs.

Even if we do find a source of additional capital, we may not be able to negotiate terms and conditions for receiving the additional capital that are acceptable to us. Any future capital investments could dilute or otherwise materially and adversely affect the holdings or rights of our existing stockholders. In addition, new equity or convertible debt securities issued by us to obtain financing could have rights, preferences and privileges senior to our Common Stock. We cannot give you any assurance that any additional financing will be available to us, or if available, will be on terms favorable to us.

The Report of Our Independent Registered Public Accounting Firm Contains an Explanatory Paragraph That Expresses Substantial Doubt About Our Ability to Continue as a Going Concern.

The report of our independent registered public accounting firm with respect to our financial statements as of December 31, 2016 and for the year then ended indicates that our financial statements have been prepared assuming that we will continue as a going concern. The report states that, since we have incurred net losses since inception and we need to raise additional funds to meet our obligations and sustain our operations, there is substantial doubt about our ability to continue as a going concern. Our plans in regard to these matters are described in Note 2 to our audited financial statements as of December 31, 2016 and 2015 and for the years then ended. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We Have a History of Significant Losses, and If We Do Not Achieve and Sustain Profitability, Our Financial Condition Could Suffer.

We have experienced significant net losses, and we expect to continue to incur losses for the foreseeable future. We incurred net losses of \$7.7 million and \$8.2 million the years ended December 31, 2016 and 2015, respectively, and as of December 31, 2016 our accumulated deficit was \$81.1 million. We incurred a net loss of \$101.1 million during the nine months ended September 30, 2017, and as of September 30, 2017 our accumulated deficit was \$182.2 million.

The net loss was primarily due to an increase in other expenses of \$92,865,802 from \$3,028,163 for the nine months ended September 30, 2016 to \$95,893,965 for the nine months ended September 30, 2017. The increase was primarily due to an increase in the non-cash change in fair value of warrant liabilities of approximately \$70.4 million, which was primarily attributable to the quantity of warrants held by our Executive Chairman not being subject to our Reverse Split, which, as a result of the Reverse Split, caused them to increase in value.

On December 6, 2017, the Company and Mr. Farkas signed a letter agreement, pursuant to which, Mr. Farkas, on behalf of FGI, agreed that upon the closing of this offering, FGI will cancel 2,930,596 of its shares of Common Stock (of the 2,990,404 received).

Our prior losses, combined with expected future losses, have had and will continue to have, for the foreseeable future, an adverse effect on our stockholders' equity and working capital. If our revenue grows more slowly than we anticipate, or if our operating expenses are higher than we expect, we may not be able to achieve profitability and our financial condition could suffer. Even if we achieve profitability in the future, we may not be able to sustain profitability in subsequent periods. Whether we can achieve cash flow levels sufficient to support our operations cannot be accurately predicted. Unless such cash flow levels are achieved in addition to the proceeds from this offering, we may need to borrow additional funds or sell debt or equity securities, or some combination thereof, to provide funding for our operations. Such additional funding may not be available on commercially reasonable terms, or at all.

If the proceeds from this offering are insufficient for us to continue as a going concern, it could make it more difficult for us to raise additional capital, should it be needed, or cause our customers, suppliers and other business partners to lose confidence in us thereby resulting in a reduction of revenue, loss of supply resources and other effects that would be significantly harmful to our business. If adequate funds are not available when needed, our liquidity, financial condition and operating results would be materially and adversely affected, and we may not be able to operate our business without significant changes in our operations or at all.

We May Not Have The Liquidity to Support Our Future Operations and Capital Requirements.

Whether we can achieve cash flow levels sufficient to support our operations cannot be accurately predicted. Unless such cash flow levels are achieved, in addition to the proceeds from this offering, we may need to borrow additional funds or sell debt or equity securities, or some combination thereof, to provide funding for our operations. Such additional funding may not be available on commercially reasonable terms, or at all. If adequate funds are not available when needed, our financial condition and operating results would be materially and adversely affected and we may not be able to operate our business without significant changes in our operations, or at all.

We Have Failed to Pay Certain State and Federal Taxes and May be Subject to Penalties as a Result.

We are delinquent in filing and, in certain instances, paying sales taxes collected from customers in specific states that impose a tax on sales of our products. We have accrued an approximate \$227,000 and \$218,000 liability as of September 30, 2017 and December 31, 2016, respectively, related to this matter. In addition, we are currently delinquent in remitting approximately \$577,000 and \$244,000 as of September 30, 2017 and December 31, 2016, respectively, of federal and state payroll taxes withheld from employees. On March 29, 2017 and August 21, 2017, we sent a letter to the Internal Revenue Service (“IRS”) notifying the IRS of our intention to resolve the delinquent taxes upon the receipt of additional working capital. We may be subject to penalties as a result of our failure to pay these taxes and such penalties may have an adverse effect on our business.

Although Our Shares and Warrants Have Been Approved for Listing on NASDAQ, We Can Provide No Assurance That Our Common Stock and Warrants Will Continue to Meet NASDAQ Listing Requirements. If We Fail to Comply With The Continuing Listing Standards of NASDAQ, Our Securities Could Be Delisted.

Our Common Stock and warrants have been approved for listing on NASDAQ under the symbols “BLNK” and “BLNKW”, respectively, however, if we fail to satisfy the continued listing requirements of NASDAQ, such as the corporate governance requirements, stockholder equity requirements or the minimum closing bid price requirement, NASDAQ may take steps to delist our Common Stock and warrants. Such a delisting would likely have a negative effect on the price of our Common Stock and warrants and would impair your ability to sell or purchase Common Stock and warrants underlying the units when you wish to do so. In the event of a delisting, we can provide no assurance that any action taken by us to restore compliance with listing requirements would allow our Common Stock and warrants to become listed again, stabilize the market price or improve the liquidity of our Common Stock and warrants, prevent our Common Stock from dropping below the NASDAQ minimum bid price requirement or prevent future non-compliance with NASDAQ’s listing requirements.

To meet the requirements of NASDAQ, we may be required to restructure certain of our equity securities or satisfy certain liabilities through the issuance of additional equity securities. Our ability to restructure certain of our equity securities may require us to enter into new agreements with the applicable security holders, which we may be unable to do on favorable terms or at all. Any such agreement may result in the issuance of new securities or the modification of the rights of existing securities in a manner that may be dilutive to our Common Stock holders.

The Unavailability, Reduction or Elimination of Government Incentives Could Have a Material Adverse Effect on Our Business, Financial Condition, Operating Results and Prospects.

As of December 31, 2016, and September 30, 2017, government grants accounted for 10% and 10%, respectively, of our revenues. Any reduction, elimination or discriminatory application of government subsidies and economic incentives because of policy changes, fiscal tightening or other reasons may result in diminished revenues from government sources and diminished demand for our products. This could materially and adversely affect our business, prospects, financial condition and operating results.

Our growth depends in part on the availability and amounts of government subsidies for EV charging equipment. In the event such subsidies discontinue, our business outlook and financial conditions could be negatively impacted.

If We Are Unable to Keep Up With Advances in EV Technology, We May Suffer a Decline in Our Competitive Position.

The EV industry is characterized by rapid technological change. If we are unable to keep up with changes in EV technology, our competitive position may deteriorate which would materially and adversely affect our business, prospects, operating results and financial condition. As technologies change, we plan to upgrade or adapt our EV charging stations and Blink Network software in order to continue to provide EV charging services with the latest technology. However, due to our limited cash resources, our efforts to do so may be limited. For example, the EV charging network that we acquired from ECOtality was originally funded, in part, by the U.S. Department of Energy (“DOE”), which funding is no longer available to us. As a result, we may be unable to grow, maintain and enhance the network of charging stations that we acquired from ECOtality at the same rate and scale as ECOtality did prior to the acquisition or at levels comparable our current competitors. Any failure of our charging stations to compete effectively with other manufacturers’ charging stations will harm our business, operating results and prospects.

We Need to Manage Growth in Operations to Realize Our Growth Potential and Achieve Our Expected Revenues, and Our Failure to Manage Growth Will Cause a Disruption of Our Operations Resulting in the Failure to Generate Revenue and an Impairment of Our Long-Lived Assets.

In order to take advantage of the growth that we anticipate in our current and potential markets, we believe that we must expand our marketing operations. This expansion will place a significant strain on our management and our operational, accounting, and information systems. We expect that we will need to continue to improve our financial controls, operating procedures and management information systems. We will also need to effectively train, motivate and manage our employees. Our failure to manage our growth could disrupt our operations and ultimately prevent us from generating the revenues we expect.

In order to achieve the above-mentioned targets, the general strategies of our Company are to maintain and search for hard-working employees who have innovative initiatives, as well as to keep a close eye on expansion opportunities through merger and/or acquisition.

If Our Estimates or Judgments Relating to Our Critical Accounting Policies Prove to Be Incorrect, Our Financial Condition And Results of Operations Could Be Adversely Affected.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, as discussed under “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” included elsewhere in this prospectus and in our consolidated financial statements included herein. The results of these estimates form the basis for making judgments about the carrying values of assets, liabilities and equity, and the amount of revenue and expenses that are not readily apparent from other sources. Significant assumptions and estimates used in preparing our consolidated financial statements include those related to revenue recognition, allowance for doubtful accounts, inventory reserves, impairment of goodwill, indefinite-lived and long-lived assets, pension and other post-retirement benefits, product warranty, valuation allowances for deferred tax assets, valuation of Common Stock warrants, and share-based compensation. Our financial condition and results of operations may be adversely affected if our assumptions change or if actual circumstances differ from those in our assumptions, which could cause our results of operations to fall below the expectations of securities analysts and investors, resulting in a decline in the price of our Common Stock.

We Face Risks Arising From Acquisitions.

In 2012 and 2013, we acquired certain assets from 350 Green and Beam Charging, LLC (“Beam Charging”). We may pursue similar strategic transactions in the future. Risks in acquisition transactions include difficulties in the integration of acquired businesses into our operations and control environment, difficulties in assimilating and retaining employees and intermediaries, difficulties in retaining the existing clients of the acquired entities, assumed or unforeseen liabilities that arise in connection with the acquired businesses, the failure of counterparties to satisfy any obligations to indemnify us against liabilities arising from the acquired businesses, and unfavorable market conditions that could negatively impact our growth expectations for the acquired businesses. Fully integrating an acquired company or business into our operations may take a significant amount of time. We cannot assure you that we will be successful in overcoming these risks or any other problems encountered with acquisitions and other strategic transactions. These risks may prevent us from realizing the expected benefits from acquisitions and could result in the failure to realize the full economic value of a strategic transaction or the impairment of goodwill and/or intangible assets recognized at the time of an acquisition. These risks could be heightened if we complete a large acquisition or multiple acquisitions within a short period of time. In addition, in connection with the acquisition of 50% of the interests of the ECotality Estate in April 2015, we issued certain Series B Preferred Shares, which we believe constitute an exempt issuance as intended under agreements with certain of our investors as such shares (i) were issued to effectuate the strategic acquisition of ECotality, and (ii) permit us, in our sole control, to settle these shares for cash at stated optional redemption dates, as opposed to a variable number of shares. However, there can be no assurance that our investors agree with our interpretation of our investment documents and won’t pursue any of the potential remedies that may be available to them.

We Could Be Forced To Pay Damages In Connection With Litigation Involving 350 Green.

On September 9, 2015, the United States Court of Appeals for the Seventh Circuit of Chicago, Illinois affirmed the ruling of the United States District Court for the Northern District of Illinois in the matter of JNS Power & Control Systems, Inc. (“JNS”) v. 350 Green, LLC in favor of JNS, which affirmed the sale of certain assets by our former subsidiary 350 Green to JNS and the assumption of certain 350 Green liabilities by JNS. On April 7, 2016, JNS amended the complaint to add the Company alleging an unspecified amount of lost revenues from the chargers, among other matters, caused by the defendants. JNS also seeks indemnity for its unspecified costs in connection with enforcing the asset purchase agreement dated April 13, 2013 between 350 Green and JNS in courts in New York and Chicago. On July 26, 2017, the District Court denied the Company’s motion to dismiss the Company from the suit. The Company filed its answer and affirmative defenses to the second amended complaint on August 16, 2017. The deadline for the parties to complete discovery was December 8, 2017. The next status hearing on the matter is set for March 1, 2018. We believe our legal position is strong on any potential corporate veil-piercing arguments with regard to our former subsidiary, however, if this position is challenged and not upheld, it could have a material adverse effect on our business. As of September 30, 2017, the Company accrued a \$750,000 liability in connection with its settlement offer to JNS. On February 2, 2018, the parties entered into an asset purchase agreement whereby the parties have agreed to settle the litigation. The Company will purchase back the EV chargers it previously sold to JNS for: (a) shares of Common Stock worth \$600,000 with a price per share equal to the price per share of this offering; (b) \$50,000 cash payment within ten days of the closing of this offering; and (c) \$100,000 cash payment within six months following the closing of this offering. JNS will file a motion to dismiss the lawsuit without prejudice within three business days of the \$50,000 payment. JNS will file a motion to convert the dismissal without prejudice to dismissal with prejudice within three business days of the \$100,000 payment.

We Have Limited Insurance Coverage, and Any Claims Beyond Our Insurance Coverage May Result in Our Incurring Substantial Costs and a Diversion of Resources.

We hold employer’s liability insurance generally covering death or work-related injury of employees. We hold public liability insurance covering certain incidents involving third parties that occur on or in the premises of our Company. We hold directors and officers liability insurance. We do not maintain key-man life insurance on any of our senior management or key personnel, or business interruption insurance. Our insurance coverage may be insufficient to cover any claim for product liability, damage to our fixed assets or employee injuries. Any liability or damage to, or caused by, our facilities or our personnel beyond our insurance coverage may result in our incurring substantial costs and a diversion of resources.

Our Future Success Depends, in Part, on the Performance and Continued Service of Our Officers.

We presently depend to a great extent upon the experience, abilities and continued services of our management team, which consists of Mr. Calise (our CEO), Mr. Farkas (our Executive Chairman), Mr. Kinard (our President) and Mr. Feintuch (our Chief Operating Officer). The loss of services of Mr. Calise, Mr. Farkas, Mr. Kinard or Mr. Feintuch could have a material adverse effect on our business, financial condition or results of operation. Failure to maintain our management team could prove disruptive to our daily operations, require a disproportionate amount of resources and management attention and could have a material adverse effect on our business, financial condition and results of operations.

Our Future Success Depends, in Part, on Our Ability to Attract and Retain Highly Qualified Personnel.

Our future success also depends upon our ability to attract and retain highly qualified personnel. We are in the process of building our management team. Among other positions, we need to hire a Chief Financial Officer with public company experience. Mr. Calise currently acts as our interim principal financial officer and our interim principal accounting officer. Although we intend to hire a permanent Chief Financial Officer soon, there is no assurance that we will have sufficient financial resources to do so. Our accounting controls may continue to be deficient unless we obtain the services of an experienced Chief Financial Officer who can help us address material weaknesses. In addition, expansion of our business and the management and operation of our Company will require additional managers and employees with industry experience, and our success will be highly dependent on our ability to attract and retain skilled management personnel and other employees. There can be no assurance that we will be able to attract or retain highly qualified personnel. As our industry continues to evolve, competition for skilled personnel with the requisite experience will be significant. This competition may make it more difficult and expensive to attract, hire and retain qualified managers and employees.

We Are in an Intensely Competitive Industry and There Can Be No Assurance That We Will Be Able to Compete with Our Competitors Who May Have Greater Resources.

We face strong competition from competitors in the EV charging services industry, including competitors who could duplicate our model. Many of these competitors may have substantially greater financial, marketing and development resources and other capabilities than us. In addition, there are very few barriers to entry into the market for our services. There can be no assurance, therefore, that any of our current and future competitors, many of whom may have far greater resources, will not independently develop services that are substantially equivalent or superior to our services. Therefore, an investment in our Company is very risky and speculative due to the competitive environment in which we may operate.

Our competitors may be able to provide customers with different or greater capabilities or benefits than we can provide in areas such as technical qualifications, past contract performance, geographic presence and price. Furthermore, many of our competitors may be able to utilize substantially greater resources and economies of scale to develop competing products and technologies, divert sales away from us by winning broader contracts or hire away our employees by offering more lucrative compensation packages. In the event that the market for EV charging stations expands, we expect that competition will intensify as additional competitors enter the market and current competitors expand their product lines. In order to secure contracts successfully when competing with larger, well-financed companies, we may be forced to agree to contractual terms that provide for lower aggregate payments to us over the life of the contract, which could adversely affect our margins. Our failure to compete effectively with respect to any of these or other factors could have a material adverse effect on our business, prospects, financial condition or operating results.

We Have Experienced Significant Customer Concentration in Recent Periods, And Our Revenue Levels Could Be Adversely Affected if Any Significant Customer Fails To Purchase Products From Us At Anticipated Levels.

We are subject to customer concentration risk as a result of our reliance on a relatively small number of customers for a significant portion of our revenues. The relative magnitude and the mix of revenue from our largest customers have varied significantly quarter to quarter. During the nine months ended September 30, 2017, two customers accounted for 31% of our revenues. In addition, one of these customers accounted for 10% of total accounts receivable as of September 30, 2017. The loss of these customers could have a material adverse effect on our business.

If a Third Party Asserts That We Are Infringing Its Intellectual Property, Whether Successful or Not, It Could Subject Us to Costly and Time-Consuming Litigation or Expensive Licenses, and Our Business May Be Harmed.

The EV and EV charging industries are characterized by the existence of a large number of patents, copyrights, trademarks and trade secrets. As we face increasing competition, the possibility of intellectual property rights claims against us grows. Our technologies may not be able to withstand any third-party claims or rights against their use. Additionally, although we have acquired from other companies' proprietary technology covered by patents, we cannot be certain that any such patents will not be challenged, invalidated or circumvented. Intellectual property infringement claims against us could harm our relationships with our customers, may deter future customers from subscribing to our services or could expose us to litigation with respect to these claims. Even if we are not a party to any litigation between a customer and a third party, an adverse outcome in any such litigation could make it more difficult for us to defend our intellectual property in any subsequent litigation in which we are a named party. Any of these results could harm our brand and operating results.

Any intellectual property rights claim against us or our customers, with or without merit, could be time-consuming, expensive to litigate or settle and could divert management resources and attention. An adverse determination also could prevent us from offering our services to our customers and may require that we procure or develop substitute services that do not infringe.

With respect to any intellectual property rights claim against us or our customers, we may have to pay damages or stop using technology found to be in violation of a third party's rights. We may have to seek a license for the technology, which may not be available on reasonable terms, may significantly increase our operating expenses or require us to restrict our business activities in one or more respects. The technology also may not be available for license to us at all. As a result, we may also be required to develop alternative non-infringing technology, which could require significant effort and expense.

The Success of Our Business Depends in Large Part on Our Ability to Protect and Enforce Our Intellectual Property Rights.

We rely on a combination of patent, copyright, service mark, trademark, and trade secret laws, as well as confidentiality procedures and contractual restrictions, to establish and protect our proprietary rights, all of which provide only limited protection. We cannot assure you that any patents will issue with respect to our currently pending patent applications, in a manner that gives us the protection that we seek, if at all, or that any future patents issued to us will not be challenged, invalidated or circumvented. Our currently issued patents and any patents that may issue in the future with respect to pending or future patent applications may not provide sufficiently broad protection or they may not prove to be enforceable in actions against alleged infringers. Also, we cannot assure you that any future service mark registrations will be issued with respect to pending or future applications or that any registered service marks will be enforceable or provide adequate protection of our proprietary rights.

We endeavor to enter into agreements with our employees and contractors and agreements with parties with whom we do business in order to limit access to and disclosure of our proprietary information. We cannot be certain that the steps we have taken will prevent unauthorized use of our technology or the reverse engineering of our technology. Moreover, others may independently develop technologies that are competitive to ours or infringe our intellectual property. The enforcement of our intellectual property rights also depends on our legal actions against these infringers being successful, but we cannot be sure these actions will be successful, even when our rights have been infringed.

Furthermore, effective patent, trademark, service mark, copyright and trade secret protection may not be available in every country in which our services are available over the Internet. In addition, the legal standards relating to the validity, enforceability and scope of protection of intellectual property rights in EV-related industries are uncertain and still evolving.

Changes to Federal, State or International Laws or Regulations Applicable To Our Company Could Adversely Affect Our Business.

Our business is subject to a variety of federal, state and international laws and regulations, including those with respect government incentives promoting fuel efficiency and alternate forms of energy, electric vehicles and others. These laws and regulations, and the interpretation or application of these laws and regulations, could change. Any reduction, elimination or discriminatory application of government subsidies and economic incentives because of policy changes, fiscal tightening or other reasons may result in diminished revenues from government sources and diminished demand for our products. In addition, new laws or regulations affecting our business could be enacted. These laws and regulations are frequently costly to comply with and may divert a significant portion of management's attention. If we fail to comply with these applicable laws or regulations, we could be subject to significant liabilities which could adversely affect our business.

There are many federal, state and international laws that may affect our business, including measures to regulate charging systems, electric vehicles, and others. If we fail to comply with these applicable laws or regulations we could be subject to significant liabilities which could adversely affect our business.

There are a number of significant matters under review and discussion with respect to government regulations which may affect the business we intend to enter and/or harm our customers, and thereby adversely affect our business, financial condition and results of operations.

Our Ability to Use Our Net Operating Loss Carryforwards May Be Limited.

For the year ended December 31, 2016, we had net operating loss carryforwards ("NOLs") for U.S. federal income tax purposes of approximately \$59 million. We generally are able to carry NOLs forward to reduce taxable income in future years. These NOLs may be offset against future taxable income through 2035, if not utilized before that time. We will not, however, be able to utilize the NOLs until we file our delinquent federal and state corporate income tax returns for the years ended December 31, 2014 and 2015. In addition, our ability to utilize the NOLs is subject to the rules of Section 382 of the Internal Revenue Code of 1986, as amended ("Section 382"). Section 382 generally restricts the use of NOLs after an "ownership change." An ownership change generally occurs if, among other things, the stockholders (or specified groups of persons) who own, have owned or are treated as owning, directly or indirectly, five percent or more of our stock increase their aggregate percentage ownership of our stock by more than 50 percentage points over the lowest percentage of the stock owned by these persons over a three-year rolling period. In the event of an ownership change, Section 382 generally imposes an annual limitation on the amount of taxable income that we may offset with NOLs. Any unused annual limitation may be carried over to later years until the applicable expiration date for the respective NOLs.

The rules of Section 382 are complex and subject to varying interpretations. Because of our numerous capital raises, uncertainty exists as to whether we may have undergone an ownership change in the past or will undergo one as a result of the various transactions discussed herein or other future transactions. Accordingly, no assurance can be given that our NOLs will be fully available or utilizable.

Risks Associated with Our Common Stock

If We Fail to Establish and Maintain an Effective System of Internal Control, We May Not Be Able to Report Our Financial Results Accurately or Prevent Fraud. Any Inability to Report and File Our Financial Results Accurately and Timely Could Harm Our Reputation and Adversely Impact the Trading Price of Our Common Stock.

Effective internal control is necessary for us to provide reliable financial reports and prevent fraud. If we cannot provide reliable financial reports or prevent fraud, we may not be able to manage our business as effectively as we would if an effective control environment existed, and our business and reputation with investors may be harmed. As a result, our small size and any current internal control deficiencies may adversely affect our financial condition, results of operations and access to capital. We have also experienced complications reporting as a result of material weaknesses and have at times been delinquent in our reporting obligations. We have carried out an evaluation under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the most recent period covered by this report. Based on the foregoing, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses described below.

A material weakness is a deficiency, or a combination of deficiencies, within the meaning of Public Company Accounting Oversight Board (“PCAOB”) Audit Standard No. 5, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Management has identified the following material weaknesses which have caused management to conclude that as of September 30, 2017 our internal controls over financial reporting (“ICFR”) were not effective at the reasonable assurance level:

1. We do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act which is applicable to us for the year ended December 31, 2016. Management evaluated the impact of our failure to have written documentation of our internal controls and procedures during our assessment of our disclosure controls and procedures and concluded that the control deficiency that resulted represented a material weakness.
2. We do not have sufficient resources in our accounting function, which restricts our ability to gather, analyze and properly review information related to financial reporting in a timely manner. In addition, due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions should be performed by separate individuals. Management evaluated the impact of our failure to have segregation of duties during our assessment of our disclosure controls and procedures and concluded that the control deficiency that resulted represented a material weakness.
3. We do not have personnel with sufficient experience with U.S. GAAP to address complex transactions.
4. We have inadequate controls to ensure that information necessary to properly record transactions is adequately communicated on a timely basis from non-financial personnel to those responsible for financial reporting. Management evaluated the impact of the lack of timely communication between non-financial and financial personnel on our assessment of our reporting controls and procedures and has concluded that the control deficiency represented a material weakness.
5. We have determined that oversight over our external financial reporting and internal control over our financial reporting by our audit committee is ineffective. The audit committee has not provided adequate review of our SEC filings and consolidated financial statements and has not provided adequate supervision and review of our accounting personnel or oversight of the independent registered accounting firm’s audit of our consolidated financial statement.

We have taken steps to remediate some of the weaknesses described above, including by engaging third party financial consultants with expertise in accounting for complex transactions and SEC reporting. We intend to continue to address these weaknesses as resources permit.

We are Required to Register Under the Securities Act the Resale of Shares of Our Common Stock by a Number of Our Security Holders. Our Failure to Comply With Our Contractual Obligations and Timely Register the Resale of Any Shares of Our Common Stock Has Resulted in, and Will Result in, Among Other Things, the Payment of Liquidated Damages, And Could Have a Material Adverse Effect on Our Ability to Raise Additional Funds in The Future And Have a Material Adverse Effect on Our Business.

We have entered into various agreements with purchasers of our securities from time to time which require us to register under the Securities Act of 1933, as amended (the "Securities Act") the resale of shares of our Common Stock that we have issued or will be required to issue to such purchasers. We had failed to perform our obligations under these agreements and had accrued registration rights penalties, inclusive of accrued interest, in an amount equal to \$56,000 for the period April 1, 2017 through June 30, 2017. On May 8, 2017, the Company issued a total of 61,740 Series C Preferred Shares to forty-eight (48) stockholders as payment in full, among other items, of registration rights penalties accrued through March 31, 2017. On August 25, 2017, the Company issued 8,265 Series C Preferred Shares to forty-three (43) stockholders as payment in full, among other items, of registration rights penalties accrued for the period of April 1, 2017 through June 30, 2017. On November 29, 2017, the Company issued 9,119 Series C Preferred Shares to forty-five (45) stockholders as payment in full, among other items, of registration rights penalties accrued for the period of July 1, 2017 through September 30, 2017. The penalties and dividends have continued to accrue from October 1, 2017. At the time of the offering, 20,269 Series C Preferred Shares will be issued for the incremental penalties and dividends, and subsequently converted into Common Stock.

These additional issuances of securities had a dilutive effect on our other stockholders. In addition, our failure to timely register the resale of any shares of our Common Stock may result in reputational harm for our Company and could have a material adverse effect on our ability to raise additional funds in the future, which may have a material adverse effect on our business.

We are Required to Enable Some of our Stockholders to Sell Shares of Our Common Stock Pursuant to Rule 144 of the Securities Act. Our Failure to Comply With Our Contractual Obligations and Enable Such Sales Has Resulted in, and Will Result in, Among Other Things, the Payment of Liquidated Damages, And Could Have a Material Adverse Effect on Our Ability to Raise Additional Funds Through Private Placements in The Future And Have a Material Adverse Effect on Our Business.

The Company is a former shell company. As a result, to enable investors to sell shares of our Common Stock pursuant to Rule 144 of the Securities Act, we need to be: (A) subject to the reporting requirements of section 13 or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"); and (B) current in filing such reports. We have entered into various agreements with purchasers of our securities from time to time which require us to enable sales of our Common Stock pursuant to Rule 144. Although we became current in our filings in August 2016, because we are not currently subject to the Exchange Act and make such filings voluntarily, investors are still not able to utilize Rule 144. Upon the closing of this offering, investors will be able to use Rule 144 to sell shares of our Common Stock, as applicable. We accrued public information failure rights penalties in an aggregate amount equal to \$3,005,277, inclusive of accrued interest, as of March 31, 2017 due to our failure to perform our obligations under these agreements. On May 8, 2017, the Company issued a total of 61,740 Series C Preferred Shares to forty-eight (48) stockholders as payment in full, among other items, of these public information failure rights penalties accrued through March 31, 2017. The Company is still assessing whether it needs to accrue any public information failure rights penalties going forward from April 1, 2017. On August 25, 2017, the Company issued 8,265 Series C Preferred Shares to forty-three (43) stockholders as payment in full, among other items, of registration rights penalties accrued for the period of April 1, 2017 through June 30, 2017. On November 29, 2017, the Company issued 9,119 Series C Preferred Shares to forty-five (45) stockholders as payment in full, among other items, of registration rights penalties accrued for the period of July 1, 2017 through September 30, 2017. The penalties and dividends have continued to accrue from October 1, 2017. At the time of the offering, 20,629 Series C Preferred Shares will be issued for the incremental penalties and dividends, and subsequently converted into Common Stock. With the conversion, the Company will no longer be accruing registration rights penalties.

Our failure to comply with our contractual obligations and timely register the resale of any shares of our Common Stock for any reason, including as a result of any unexpected delay in the completion of any offering, may result in additional breaches of the agreements with certain security holders and in the payment of liquidated damages as required under the terms of our agreements with certain security holders. These additional issuances of securities had a dilutive effect on our other stockholders. In addition, our failure to timely file our 10-Qs and 10-Ks may result in reputational harm for our Company and could have a material adverse effect on our ability to raise additional funds through private placements in the future, which may have a material adverse effect on our business.

Shares of Our Common Stock Which May Be Issued Upon Conversion of the Series D Preferred Stock being Issued in Exchange for Outstanding Indebtedness by JMJ May Dilute the Ownership Interests of Our Stockholders.

On October 7, 2016, we executed a Promissory Note in favor of JMJ in the amount up to \$3,725,000 bearing interest on the unpaid balance at the rate of six percent. The initial amount borrowed under the Promissory Note was \$500,000, with the remaining amounts permitted to be borrowed under the Promissory Note being subject to us achieving certain milestones. The Promissory Note is convertible into shares of our Common Stock based on the lesser of a per share price of \$35.00 or 60% of the lowest trade price in the 25 trading days prior to the date of conversion. If JMJ elects to convert the principal balance of the Promissory Note into shares of our Common Stock under the terms of the Promissory Note, our current stockholders would be subject to dilution of their interests. Pursuant to the terms of the Promissory Note, JMJ has agreed that it will not convert the note into more than 9.99% of our outstanding shares. JMJ currently does not own any shares of our Common Stock.

If we do not repay the Promissory Note on the maturity date (currently February 15, 2018) and if we issue a variable security at any time the Promissory Note is outstanding, then in such event JMJ shall have the right to convert all or any portion of the outstanding balance of the Promissory Note into shares of Common Stock on the same terms as granted in any applicable variable security issued by us.

We initially issued one warrant to JMJ to purchase a total of 14,286 shares of our Common Stock at an exercise price equal to the lesser of: (i) 80% of the Common Stock price of this offering, (ii) \$35.00 per share, (iii) 80% of the unit price of this offering (if applicable), (iv) the exercise price of any warrants issued in this offering, or (v) the lowest conversion price, exercise price, or exchange price, of any security issued by us that is outstanding on October 13, 2016.

The initial amount borrowed under the Promissory Note was \$500,000, with the remaining amounts permitted to be borrowed under the Promissory Note being subject to us achieving certain milestones. With the achievement of certain milestones in November 2016 (the filing with the SEC of a Preliminary Information Statement on Schedule 14C regarding the Reverse Stock Split), an additional advance of \$500,000 under the Promissory Note occurred on November 28, 2016. Another warrant to purchase 14,286 shares of our Common Stock was issued as of November 28, 2016. With the achievement of certain milestones in February 2017 (the filing with the SEC of a revised Preliminary Information Statement and a Definitive Information Statement, each on Schedule 14C regarding the Reverse Stock Split), additional advances of \$225,100 and \$300,000 under the Promissory Note occurred on February 10 and February 27, respectively. Thus, two more warrants to purchase the Company's Common Stock were issued, one for 6,431 shares and the other for 8,571 shares, respectively.

All advances after February 28, 2017 have been at the discretion of JMJ without regard to any specific milestones occurring. Additional advances of \$250,000 and \$30,000 under the Promissory Note occurred on March 14, 2017 and March 24, 2017, respectively, and two more warrants to purchase the Company's Common Stock were issued, one for 7,143 shares and the other for 857 shares. An additional advance of \$400,000 occurred on April 5, 2017 and another warrant to purchase 11,429 shares of our Common Stock was issued on the same date. An additional advance of \$295,000 occurred on May 9, 2017 and another warrant to purchase 8,429 shares of the Company's Common Stock was issued on the same date. On July 27, 2017, an additional advance of \$50,000 was made to the Company and another warrant to purchase 1,429 shares of the Company's Common Stock was issued to JMJ. The Company and JMJ entered into the Additional Agreement on October 23, 2017. In accordance with the terms of the Additional Agreement, on October 24, 2017, JMJ advanced to the Company \$949,900 available pursuant to previous agreements with JMJ. As of February 13, 2018, ten (10) warrants to purchase a total of 100,001 shares of the Company's Common Stock have been issued to JMJ. The aggregate exercise price is \$3,500,000.

The Additional Agreement extended the Maturity Date to December 15, 2017 (subsequently extended to February 15, 2018). In addition, JMJ has claimed that the Company would owe JMJ \$12 million as a mandatory default amount pursuant to previous agreements with the Company. JMJ agreed to allow the Company to have two options for settling a previously issued note (including settling the mandatory default amount for either \$1.1 million or \$2.1 million), securing a lockup agreement from JMJ, and exchanging previously issued warrants for shares of Common Stock. Each of these options depends upon this offering closing by December 15, 2017 (subsequently extended to February 15, 2018). The option chosen is at the Company's sole discretion.

The first option is that the Company, upon the closing of this offering: (a) will pay \$2.0 million in cash to JMJ; and (b) will issue shares of Common Stock to JMJ with a value of \$9,005,000 (including the Origination Shares). The second option is that the Company, upon the closing of this offering, will not pay any cash to JMJ and will issue shares of Common Stock to JMJ with a value of \$12,005,000 (including the Origination Shares). In each case, the Company will issue such number of duly and validly issued, fully paid and non-assessable shares of Common Stock equal to the amount in question divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of the Common Stock during the ten days prior to delivery of shares (subject to adjustment for stock splits), or (iii) 80% of the Common Stock price of this offering, or (iv) 80% of the unit price of this offering (if applicable), or (v) the exercise price of any warrants issued in this offering. Prior to the Company choosing the option at the closing, JMJ could elect to receive some or all of the share consideration (to be issued pursuant to either option) discussed in this paragraph in the form of convertible preferred stock. JMJ made this election on January 29, 2018.

Unless otherwise stated, this prospectus assumes the Company will choose the second option and not pay any cash to JMJ.

On November 29, 2017, the Company and JMJ entered into the first amendment to the Additional Agreement, extending the Maturity Date to December 31, 2017. On January 4, 2018, the Company and JMJ entered into the second amendment to the Additional Agreement, extending the Maturity Date to January 31, 2018. On February 1, 2018, the Company and JMJ entered into the third amendment to the Additional Agreement, extending the Maturity Date to February 10, 2018. On February 7, 2018, the Company and JMJ entered into the fourth amendment to the Additional Agreement, extending the Maturity Date to February 15, 2018.

On the fifth (5th) trading day after the closing of this offering, but in no event later than February 15, 2018, we will deliver the Origination Shares to JMJ. If this offering does not occur prior to February 15, 2018 and JMJ owns Origination Shares at the time of a subsequent public offering where the pricing terms above would result in a lower Origination Share pricing, the Origination Shares pricing shall be subject to a reset based on the same pricing terms as described above. The Origination Shares will now be issued in the form of Series D Preferred Stock to be issued pursuant to the Additional Agreement.

Pursuant to an election by JMJ permitted by the Additional Agreement, the Company will issue to JMJ shares of Series D Preferred Stock convertible into 3,847,756 shares of Common Stock, to reflect the full payment of all dollar amounts and share amounts owed in connection with the JMJ Financing. Because the Series D Preferred Stock is convertible into shares of our Common Stock, upon JMJ's conversion of the Series D

Preferred Stock into shares of our Common Stock, holders of our Common Stock will experience dilution.

If this offering does not close prior to February 15, 2018 and we are unable to repay the Promissory Note, we will be in default under the Promissory Note and subject to penalties.

Separately from and unrelated to the JMJ Financing, JMJ lent \$250,000 to the Company on January 22, 2018. We will be issuing units of unregistered shares of Common Stock and warrants as repayment of this \$250,000 advance at the closing of the offering.

Our Shares of Common Stock Are Very Thinly Traded, and the Price May Not Reflect Our Value and There Can Be No Assurance That There Will Be an Active Market for Our Shares of Common Stock Either Now or in the Future.

Our shares of Common Stock are very thinly traded, and the price, if traded, may not reflect our value. There can be no assurance that there will be an active market for our shares of Common Stock either now or in the future. The market liquidity will be dependent on the perception of our operating business and any steps that our management might take to increase awareness of our Company with investors. There can be no assurance given that there will be any awareness generated. Consequently, investors may not be able to liquidate their investment or liquidate it at a price that reflects the value of the business. If a more active market should develop, the price may be highly volatile. Because there may be a low price for our shares of Common Stock, many brokerage firms may not be willing to effect transactions in the securities. Even if an investor finds a broker willing to effect a transaction in the shares of our Common Stock, the combination of brokerage commissions, transfer fees, taxes, if any, and any other selling costs may exceed the selling price. Further, many lending institutions will not permit the use of such shares of Common Stock as collateral for loans.

We Have a Significant Number of Shares of Our Common Stock Issuable Upon Conversion of Certain Outstanding Options, Warrants, Debt Obligations, and Convertible Preferred Stock, and The Issuance of Such Shares Upon Exercise or Conversion Will Have a Significant Dilutive Impact On Our Stockholders. Sales of a Substantial Number of Shares of Our Common Stock Following This Offering May Adversely Affect the Market Price of Our Common Stock and the Issuance of Additional Shares Will Dilute All Other Stockholders.

As of February 13, 2018, there were 550,000, 142,495, and 655,860 shares of Common Stock issuable upon conversion of our Series A, Series B and Series C Preferred Shares, respectively.

In addition, as of February 13, 2018, we had outstanding stock options and warrants to purchase a total of 198,037 shares of our Common Stock consisting of: (i) 105,136 shares of Common Stock issuable upon exercise of outstanding warrants with a weighted average exercise price of \$44.93; and (iii) 92,901 shares issuable upon exercise of outstanding options with a weighted average exercise price of \$52.77, under our equity compensation plans.

As of February 13, 2018, we owed (i) 15,240 shares issuable to Mr. Farkas upon exercise of options to be issued pursuant to the Third Amendment with the options having a weighted average exercise price of \$34.06; (ii) 15,000 shares of Common Stock issuable to Mr. Farkas upon exercise of options to be issued as replacements of expired options with the options having a weighted average exercise price of \$5.30; (iii) 16,600 shares issuable to Mr. Feintuch upon exercise of outstanding options issued pursuant to the Compensation Agreement with the options having a weighted average exercise price of \$34.34; (iv) 90,993 shares of Common Stock issuable to Mr. Shapiro upon exercise of warrants to be issued upon the closing of the offering pursuant to an agreement with the Company with the warrants having a weighted average exercise price of \$4.25; and (v) 68,150 shares of Common Stock issuable to Mr. Engel upon exercise of warrants to be issued upon the closing of the offering pursuant to an agreement with the Company with the warrants having a weighted average exercise price of \$4.25.

Sales of a substantial number of shares of our Common Stock in the public market or otherwise following this offering, or the perception that such sales could occur, could adversely affect the market price of our Common Stock. After completion of this offering at the public offering price of \$4.25 per unit, our existing stock holders will own approximately 77% of our shares of Common Stock assuming there is no exercise of the underwriters' over-allotment option to purchase shares and/or warrants.

After completion of this offering, there will be 19,228,892 shares of our Common Stock outstanding.

After the offering, there will be 10,505,565 warrants and 139,741 options outstanding.

Upon the closing of this offering, there will be 3,847,756 shares of Common Stock issuable upon conversion of our Series D Preferred Stock.

In addition, our articles of incorporation, as amended, permits the issuance of up to approximately 470,125,802 additional shares of Common Stock after the completion of this offering. Thus, we have the ability to issue substantial amounts of Common Stock in the future, which would dilute the percentage ownership held by the investors who purchase shares of our Common Stock in this offering.

Upon the closing of this offering, there will be 550,000, 223,235 and 9,124,264 shares of Common Stock issued upon conversion of our Series A, Series B and Series C Preferred Shares, respectively.

For a more complete description concerning the dilution you will incur if you purchase Common Stock in this offering, see "Dilution."

We and our officers, directors and certain stockholders have agreed, subject to customary exceptions, not to, without the prior written consent of Joseph Gunnar & Co., LLC, the representative of the underwriters of this offering, during the period ending 180 days from the date of this offering in the case of us and our directors and officers and 90 days or 270 days from the date of this offering in the case of certain stockholders, directly or indirectly, offer to sell, sell, pledge or otherwise transfer or dispose of any of shares of our Common Stock, enter into any swap or other derivatives transaction that transfers to another any of the economic benefits or risks of ownership of shares of our Common Stock, make any demand for or exercise any right or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of Common Stock or securities convertible into or exercisable or exchangeable for Common Stock or any other securities of our Company or publicly disclose the intention to do any of the foregoing.

After the lock-up agreements with certain stockholders pertaining to this offering expire: (i) 270 days from the date of this offering unless waived earlier by the representative, up to 8,367,879 of the shares that had been locked up; and (ii) 90 days from the date of this offering unless waived earlier by the representative, up to 338,969 of the shares that had been locked up, will be eligible for future sale in the public market. After the lock-up agreements with our directors and officers, Horton Capital, and JMJ pertaining to this offering expire 180 days from the date of this

offering unless waived earlier by the representative, up to 7,707,819 of the shares (including shares of Common Stock issuable upon conversion of our Series D Preferred Stock) (net of any shares also restricted by lock-up agreements with certain stockholders) that had been locked up will be eligible for future sale in the public market. Sales of a significant number of these shares of Common Stock in the public market could reduce the market price of the Common Stock.

Future Issuance of Our Common Stock, Preferred Stock, Options and Warrants Could Dilute the Interests of Existing Stockholders.

We may issue additional shares of our Common Stock, preferred stock, options and warrants in the future. The issuance of a substantial amount of Common Stock, options and warrants could have the effect of substantially diluting the interests of our current stockholders. In addition, the sale of a substantial amount of Common Stock or preferred stock in the public market, or the exercise of a substantial number of warrants and options either in the initial issuance or in a subsequent resale by the target company in an acquisition which received such Common Stock as consideration or by investors who acquired such Common Stock in a private placement could have an adverse effect on the market price of our Common Stock.

We Have Established Preferred Stock Which Can Be Designated By The Board and Have Established Series A Preferred Shares, Series B Preferred Shares and Series C Preferred Shares, Which Give The Holders Thereof a Liquidation Preference and The Ability to Convert Such Shares Into Our Common Stock.

We have 40,000,000 shares of preferred stock authorized, which includes 20,000,000 shares of designated Series A Preferred Shares of which 11,000,000 shares are issued and outstanding, 10,000 designated Series B Preferred Shares, of which 8,250 shares are issued and outstanding and 250,000 designated Series C Preferred Shares, of which 229,551 shares are issued and outstanding as of February 13, 2018. The Series A Preferred Shares do not have a liquidation preference so long as any Series C Preferred Shares are outstanding. The Series B Preferred Shares have a liquidation preference of \$100 per share. The Series C Preferred Shares have a liquidation preference of \$100 per share, which is pari passu to the liquidation preference of the Series B Preferred Shares and payable prior to the liquidation preference on the Series A Preferred Shares. As a result, if we were to dissolve, liquidate or sell our assets, the holders of our Series A Preferred Shares would not have the right to receive any proceeds from any such transaction, holders of our Series B Preferred Shares would have the right to receive up to approximately \$825,000 from any such transaction, and the holders of our Series C Preferred Shares would have the right to receive up to \$22,955,100 from any such transaction, but before any amount is paid to the holders of our Common Stock. The payment of the liquidation preferences could result in Common Stock holders not receiving any consideration if we were to liquidate, dissolve or wind up, either voluntarily or involuntarily.

Additionally, the existence of the liquidation preferences may reduce the value of our Common Stock, make it harder for us to sell shares of Common Stock in offerings in the future, or prevent or delay a change of control. Furthermore, the conversion of Series A Preferred Shares, Series B Preferred Shares and Series C Preferred Shares into Common Stock may cause substantial dilution to our Common Stock holders. Because our Board is entitled to designate the powers and preferences of the preferred stock without a vote of our stockholders, subject to NASDAQ rules and regulations, our stockholders will have no control over what designations and preferences our future preferred stock, if any, will have. In addition, we may be required to redeem any non-converted (a) Series C Preferred Shares at the rate of \$100 per share, plus accrued dividends; and (b) Series B Preferred Shares at the rate of \$100 per share, which funds we may not have, or which may not be available on favorable terms, if at all.

At the closing of this offering, all of the Series A, B and C Preferred Shares will be converted into shares of Common Stock and the only preferred stock outstanding will be our Series D Preferred Stock.

We Have Outstanding Shares of Preferred Stock With Rights And Preferences Superior to Those of Our Common Stock.

The issued and outstanding Series A Preferred Shares, Series B Preferred Shares and Series C Preferred Shares grant the holders of our preferred stock certain anti-dilution, voting, dividend and liquidation rights that are superior to those held by the holders of our Common Stock.

The issuance of shares of Common Stock in the future, issuances or deemed issuances of additional shares of Common Stock for a price below the applicable preferred shares conversion price will have the effect of diluting current stockholders. The rights of our preferred stockholders may increase our net losses, dilute our Common Stock holders, and allow such preferred stockholders to have approval rights and therefore to exert influence over certain corporate actions. For example, the holders of our Series C Preferred Shares are entitled to certain dividend, liquidation preference, and anti-dilution rights that are described in the as-amended Certificate of Designation of the Series C Preferred Shares (the "Series C Certificate of Designation") and the related securities purchase agreement dated as of March 11, 2016. In addition, the holders of our Series C Preferred Shares have certain redemption rights that may be exercised after December 2016 and, if such rights are exercised, could adversely affect our business and could require us to consider a range of strategic alternatives, including refinancing their securities or effecting a sale of our Company or its assets. We cannot assure you that the rights associated with the Series C Preferred Shares or our other series of preferred stock will not adversely affect the holders of our Common Stock.

At the closing of this offering, all of the Series A, B and C Preferred Shares will be converted into shares of Common Stock.

We Do Not Intend to Pay Dividends for the Foreseeable Future, and You Must Rely on Increases in the Market Prices of Our Common Stock for Returns on Your Investment.

For the foreseeable future, we intend to retain any earnings to finance the development and expansion of our business, and we do not anticipate paying any cash dividends on our Common Stock. Accordingly, investors must be prepared to rely on sales of their Common Stock after price appreciation to earn an investment return, which may never occur. Investors seeking cash dividends should not purchase our Common Stock. Any determination to pay dividends in the future will be made at the discretion of our Board and will depend on our results of operations, financial condition, contractual restrictions, restrictions imposed by applicable law and other factors the Board deems relevant.

Our Executive Officers and Directors, Including Our Executive Chairman Mr. Farkas and His Affiliates, Possess Controlling Voting Power With Respect to Our Common Stock, Which Will Limit Your Influence on Corporate Matters.

As of February 13, 2018, our directors and executive officers collectively beneficially own approximately 73.80% of the shares of our Common Stock on a fully-diluted basis including the beneficial ownership of our Executive Chairman and director Mr. Farkas and his affiliates of 72.26% of the shares of our Common Stock on a fully-diluted basis.

Upon the closing of this offering, our directors and executive officers will collectively beneficially own approximately 54.18% of the shares of our Common Stock on a fully-diluted basis including the beneficial ownership of Mr. Farkas and his affiliates of 52.66% of the shares of our Common Stock on a fully-diluted basis.

As a result, our insiders have the ability to effectively control our management and affairs through the election and removal of our Board and all other matters requiring stockholder approval, including any future merger, consolidation or sale of all or substantially all of our assets. This concentrated control could discourage others from initiating any potential merger, takeover or other change-of-control transaction that may otherwise be beneficial to our stockholders. Furthermore, this concentrated control will limit the practical effect of your influence over our business and affairs, through any stockholder vote or otherwise. Any of these effects could depress the price of our Common Stock.

Our Executive Chairman Mr. Farkas Will Be Able To Influence The Outcome of Stockholder Votes. Mr. Farkas' Interests May Differ From Other Stockholders.

Upon the closing of this offering, Mr. Farkas and his affiliates will beneficially own 52.66% of the shares of our Common Stock on a fully-diluted basis.

Subject to any fiduciary duties owed to our other stockholders under Nevada law, Mr. Farkas will be able to exercise significant influence over matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, and will have some control over our management and policies. Mr. Farkas may have interests that are different from yours. For example, Mr. Farkas may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of our Company or otherwise discourage a potential acquirer from attempting to obtain control of our Company, which in turn could reduce the price of our stock. In addition, Mr. Farkas could use his voting influence to maintain our existing management and directors in office, delay or prevent changes in control of our Company, or support or reject other management and board proposals that are subject to stockholder approval, such as amendments to our employee stock plans and approvals of significant financing transactions.

Our Articles of Incorporation Grants Our Board The Power to Issue Additional Shares of Common And Preferred Shares And to Designate Other Classes of Preferred Shares, All Without Stockholder Approval.

Our authorized capital consists of 540,000,000 shares of capital stock of which 40,000,000 shares are designated as preferred stock. Our Board, without any action by our stockholders, may designate and issue shares of preferred stock in such series as it deems appropriate and establish the rights, preferences and privileges of such shares, including dividends, liquidation and voting rights, provided it is consistent with Nevada law.

The rights of holders of our preferred stock that may be issued could be superior to the rights of holders of our shares of Common Stock. The designation and issuance of shares of capital stock having preferential rights could adversely affect other rights appurtenant to shares of our Common Stock. Furthermore, any issuances of additional stock (common or preferred) will dilute the percentage of ownership interest of then-current holders of our capital stock and may dilute our book value per share.

Certain Provisions of Our Corporate Governing Documents And Nevada Law Could Discourage, Delay, or Prevent A Merger or Acquisition at a Premium Price.

Certain provisions of our organizational documents and Nevada law could discourage potential acquisition proposals, delay or prevent a change in control of our Company, or limit the price that investors may be willing to pay in the future for shares of our Common Stock. For example, our articles of incorporation and bylaws permit us to issue, without any further vote or action by the stockholders, up to 40,000,000 shares of preferred stock in one or more series and, with respect to each series, to fix the number of shares constituting the series and the designation of the series, the voting powers (if any) of the shares of the series, and the preferences and relative, participating, optional, and other special rights, if any, and any qualifications, limitations, or restrictions of the shares of the series.

Risks Related to the Offering

We may have a Contingent Liability Arising Out of an Electronic Communication Sent by the Company to a Number of Prospective Investors in this Offering, which may Constitute a Potential Violation of Section 5 of the Securities Act.

On or about January 12, 2018, in an effort to inform the members of the Blink Network of this offering, an email (the "Email") was sent by the Company to such members. The Email did not attach a copy of the preliminary prospectus, but rather provided an active hyperlink to a Company webpage with a hyperlink to the preliminary prospectus. The disclosure in this prospectus, and not in the Email, should be the only disclosure that is relied upon in making an investment decision in this offering.

If the Email, which may be the use of an ineligible free writing prospectus, was held by a court to be in violation of the Securities Act, we could have a contingent liability arising out of the possible violation of Section 5 of the Securities Act. The likelihood and magnitude of this contingent liability is presently impossible to quantify, and would depend, in part, upon the number of units purchased by an individual recipient of the Email and the subsequent trading price of our common stock. If a claim were brought by a recipient of the Email and a court were to conclude that the dissemination of the Email constituted a violation of Section 5 of the Securities Act, the recipient may have rescission rights and we could be required to repurchase the units sold to such recipient of the Email, at the original purchase price, plus statutory interest from the date of purchase, for claims brought during a period of one year from the date of purchase of the units. We could also incur considerable expense in contesting any such claims. Such payments and expenses, if required, could significantly reduce the amount of working capital we have available for our operations and business plan, delay or prevent us from completing our plan of operations, or force us to raise additional funding sooner than expected, which funding may not be available on favorable terms, if at all. Additionally, the value of our securities will likely decline in value in the event we are deemed to have liability, or are required to make payments or pay expenses in connection with the potential claim described above. If any violation of the Securities Act is asserted, we intend to contest the matter vigorously.

In addition, the Email stated in part that the underwriters of this offering had agreed to consider to reserve units for purchase by members of the Blink network. The underwriters had not obligated themselves to reserve such units and have determined not to reserve any units in this offering specifically for such members.

Investors in This Offering Will Experience Immediate and Substantial Dilution in Net Tangible Book Value.

The public offering price per unit is substantially higher than the net tangible book value per share of our outstanding Common Stock. As a result, investors in this offering will incur immediate dilution of \$3.83 per unit. Investors in this offering will pay a price per unit that substantially exceeds the book value of our assets after subtracting our liabilities. See "Dilution" for a more complete description of how the value of your investment will be diluted upon the completion of this offering.

Our Stock Price Could Fall and We Could Be Delisted in Which Case Broker-Dealers May Be Discouraged from Effecting Transactions in Shares of Our Common Stock Because They May Be Considered Penny Stocks and Thus Be Subject to the Penny Stock Rules.

The Securities and Exchange Commission (the “SEC”) has adopted a number of rules to regulate “penny stocks” that restricts transactions involving stock which is deemed to be penny stock. Such rules include Rules 3a51-1, 15g-1, 15g-2, 15g-3, 15g-4, 15g-5, 15g-6, 15g-7, and 15g-9 under the Exchange Act. These rules may have the effect of reducing the liquidity of penny stocks. “Penny stocks” generally are equity securities with a price of less than \$5.00 per share (other than securities registered on certain national securities exchanges or quoted on the NASDAQ Stock Market if current price and volume information with respect to transactions in such securities is provided by the exchange or system). Our securities have in the past constituted, and may again in the future constitute, “penny stock” within the meaning of the rules. The additional sales practice and disclosure requirements imposed upon U.S. broker-dealers may discourage such broker-dealers from effecting transactions in shares of our Common Stock, which could severely limit the market liquidity of such shares and impede their sale in the secondary market.

A U.S. broker-dealer selling penny stock to anyone other than an established customer or “accredited investor” (generally, an individual with net worth in excess of \$1,000,000 or an annual income exceeding \$200,000, or \$300,000 together with his or her spouse) must make a special suitability determination for the purchaser and must receive the purchaser’s written consent to the transaction prior to sale, unless the broker-dealer or the transaction is otherwise exempt. In addition, the “penny stock” regulations require the U.S. broker-dealer to deliver, prior to any transaction involving a “penny stock”, a disclosure schedule prepared in accordance with SEC standards relating to the “penny stock” market, unless the broker-dealer or the transaction is otherwise exempt. A U.S. broker-dealer is also required to disclose commissions payable to the U.S. broker-dealer and the registered representative and current quotations for the securities. Finally, a U.S. broker-dealer is required to submit monthly statements disclosing recent price information with respect to the “penny stock” held in a customer’s account and information with respect to the limited market in “penny stocks”.

Stockholders should be aware that, according to the SEC, the market for “penny stocks” has suffered in recent years from patterns of fraud and abuse. Such patterns include (i) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (ii) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (iii) “boiler room” practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (iv) excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and (v) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, resulting in investor losses. Our management is aware of the abuses that have occurred historically in the penny stock market. Although we do not expect to be in a position to dictate the behavior of the market or of broker-dealers who participate in the market, management will strive within the confines of practical limitations to prevent the described patterns from being established with respect to our securities.

Speculative Nature of Warrants.

The warrants offered in this offering do not confer any rights of Common Stock ownership on their holders, such as voting rights or the right to receive dividends, but rather merely represent the right to acquire shares of our Common Stock at a fixed price for a limited period of time. Specifically, commencing on the date of issuance, holders of the warrants may exercise their right to acquire the Common Stock and pay an exercise price of \$4.25 per share (100% of the public offering price of our Common Stock and warrants in this offering), prior to five years from the date of issuance, after which date any unexercised warrants will expire and have no further value. Moreover, following this offering, the market value of the warrants is uncertain and there can be no assurance that the market value of the warrants will equal or exceed their public offering price. There can be no assurance that the market price of the Common Stock will ever equal or exceed the exercise price of the warrants, and consequently, whether it will ever be profitable for holders of the warrants to exercise the warrants.

We May Need Additional Capital, and the Sale of Additional Shares or Equity or Debt Securities Could Result in Additional Dilution to Our Stockholders.

We believe that our existing cash, together with the net proceeds from this offering, will be sufficient to meet our anticipated cash needs for at least the next two years. We may, however, require additional cash resources due to changed business conditions or other future developments. If these resources are insufficient to satisfy our cash requirements, we may seek to sell additional equity or debt securities or obtain one or more credit facilities. The sale of additional equity securities could result in additional dilution to our stockholders and the terms of these securities may include liquidation or other preferences that adversely affect your rights as a Common Stock holder. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations. It is uncertain whether financing will be available in amounts or on terms acceptable to us, if at all.

If we raise additional funds through government grants, collaborations, strategic alliances, licensing arrangements or marketing and distribution arrangements, we may have to relinquish valuable rights to our technologies, future revenue stream or grant licenses on terms that may not be favorable to us. If we are unable to raise additional funds through equity or debt financings when needed, we may be required to delay, limit, reduce or terminate our product development or future commercialization efforts or grant rights to develop and market products that we would otherwise prefer to develop and market ourselves.

We Have Broad Discretion in the Use of the Net Proceeds from This Offering and May Not Use Them Effectively.

Our management will have broad discretion in the application of the net proceeds, including for any of the purposes described in the section of this prospectus entitled "Use of Proceeds." You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the net proceeds are being used appropriately. The failure by our management to apply these funds effectively could result in financial losses that could have a material adverse effect on our business, cause the price of our securities to decline and delay the development of our product candidates. Pending the application of these funds, we may invest the net proceeds from this offering in a manner that does not produce income or that loses value.

If Securities or Industry Analysts Do Not Publish Research or Reports About Our Business, or Publish Inaccurate or Unfavorable Research Reports About Our Business, Our Share Price and Trading Volume Could Decline.

The trading market for our Common Stock will, to some extent, depend on the research and reports that securities or industry analysts publish about us or our business. We do not have any control over these analysts. If one or more of the analysts who cover us from time to time should downgrade our shares or change their opinion of our business prospects, our share price would likely decline. If one or more of these analysts ceases coverage of our Company or fails to regularly publish reports on us, we could lose visibility in the financial markets, which could cause our share price or trading volume to decline.

Substantial Future Sales of Shares of Our Common Stock In The Public Market Could Cause Our Stock Price To Fall.

Shares of our Common Stock that we have issued directly or that have been or may be acquired upon exercise of warrants or the conversion of convertible securities are or may be covered by registration statements which permit the public sale of stock. Other holders of shares of Common Stock that we have issued, including shares of Common Stock issuable upon conversion and/or exercise of outstanding convertible notes, shares of preferred stock and warrants, may be entitled to dispose of their shares pursuant to an exemption from registration under the Securities Act. Additional sales of a substantial number of our shares of our Common Stock in the public market, or the perception that sales could occur, could have a material adverse effect on the price of our Common Stock. Upon the closing of this offering, investors will be able to use Rule 144 to sell shares of our Common Stock, as applicable, in which case the then-prevailing market prices for our Common Stock may be reduced. Any substantial sales of our Common Stock may have an adverse effect on the market price of our securities.

Sales of a substantial number of shares of our Common Stock in the public market following this offering could cause the market price of our Common Stock to decline. If there are more shares of Common Stock offered for sale than buyers are willing to purchase, then the market price of our Common Stock may decline to a market price at which buyers are willing to purchase the offered shares of Common Stock and sellers remain willing to sell the shares. All of the securities issued in the offering will be freely tradable without restriction or further registration under the Securities Act.

USE OF PROCEEDS

We estimate that the net proceeds to us from the sale of the units that we are offering will be approximately \$20.1 million, after deducting the underwriting discounts and commissions and estimated offering expenses, or \$23 million if the underwriters exercise their over-allotment option to purchase shares and warrants in full.

We intend to use the net proceeds of this offering for the repayment of certain debt and other obligations, for the deployment of charging stations, to expand our product offerings, to add additional staff in the areas of finance, sales, and engineering, and for general working capital purposes.

The amount and timing of our actual expenditures will depend on numerous factors, including the status of our development efforts, sales and marketing activities and the amount of cash generated or used by our operations. We may find it necessary or advisable to use portions of the proceeds for other purposes, and we will have broad discretion and flexibility in the application of the net proceeds. Dividend Policy

To date, we have not paid any dividends on our Common Stock and do not anticipate paying any such dividends in the foreseeable future. The declaration and payment of dividends on the Common Stock is at the discretion of our Board and will depend on, among other things, our operating results, financial condition, capital requirements, contractual restrictions or such other factors as our Board may deem relevant. We currently expect to use all available funds to finance the future development and expansion of our business and do not anticipate paying dividends on our Common Stock in the foreseeable future. The payment of cash dividends was prohibited under our Series C Preferred Shares financing agreements with Eventide Gilead Fund (“Eventide”). On February 7, 2017, BLNK Holdings, LLC, for which Mr. Farkas has voting power and investment power with regard to this entity’s holdings, bought all of the Company’s securities owned by Eventide and now owns over 75% of the Series C Preferred Shares outstanding. In addition, under the as-amended Certificate of Designation for the Series B Preferred Shares (the “Series B Certificate of Designation”), for so long as any shares of the Series B Preferred Shares remain outstanding, we are restricted from paying cash dividends on any shares of our capital stock.

CAPITALIZATION

The following table sets forth our consolidated cash and capitalization as of September 30, 2017. Such information is set forth on the following basis:

- On an actual basis.
- On a pro forma basis, giving effect to:
 - (1) an additional advance under the JMJ Promissory Note in the amount of \$949,900 offset by the Promissory Note discounts and issuance costs of:
 - (A) Common Stock purchase warrants for 27,140 shares of Common Stock issued to JMJ with an estimated fair value of \$5,979,688 using the multi-nomial lattice pricing model based upon: (i) an expected life of 5.0 years; (ii) estimated volatility of 149.3%; (iii) annual rate of expected dividends of 0%; (iv) a risk free interest rate of 1.50%; and (v) an estimated exercise price of \$35.00; and
 - (B) placement agent cash fees of \$94,990 and warrants to purchase 2,714 shares of Common Stock with an estimated fair value of \$597,969 using the multi-nomial lattice pricing model based upon: (i) an expected life of 5 years; (ii) estimated volatility of 149.3%; (iii) annual rate of expected dividends of 0%; (iv) a risk free interest rate of 1.50%; and (v) an estimated exercise price of \$35.00. Such fees and warrants were issued in connection with the JMJ Financing.
 - (2) The Company received agreements signed by certain holders of outstanding warrants to purchase Common Stock, pursuant to which warrants to purchase an aggregate of 726,504 warrant shares converted into 710,841 shares of Common Stock. These 710,841 shares were issued pursuant to Board resolutions dated September 26, 2017. The issuance of these 710,841 shares will result in a gain of approximately \$3.8 million and reduce liabilities by approximately \$8.0 million.
 - (3) The issuance on November 29, 2017 of 9,119 Series C Preferred Shares as payment in full of payment-in-kind dividends and registration rights penalties and accrued interest thereon, owed to our Series C Preferred Shareholders accrued as of September 30, 2017.
 - (4) Separately from and unrelated to the JMJ Financing, an additional loan of \$250,000 lent by JMJ to the Company on January 22, 2018. We will be issuing units of unregistered shares of Common Stock and warrants as repayment of this \$250,000 advance at the closing of the offering.
 - (5) The payment of \$30,000 to Douglas Stein pursuant to a Forbearance Agreement with the Company dated January 8, 2018 out of a total of \$223,168.
- On a pro forma as adjusted basis, giving effect to the pro forma events above and for the sale by us of 4,353,000 units in this offering at a public offering price of \$4.25 per unit, after deducting underwriting discounts and commissions and estimated offering expenses, and the following:
 - (1) On December 6, 2017 and December 7, 2017, the two holders of the Series A Preferred Shares (Mr. Farkas and Mr. Feintuch) signed letter agreements pursuant to which, at the closing of this offering, 11,000,000 Series A Preferred Shares will convert into 550,000 shares of Common Stock. The Company recorded the beneficial conversion feature with a value of \$1,000,000 as a deemed dividend by recording an offsetting debit and credit to additional paid-in capital because the Company has an accumulated deficit.
 - (2) On May 19, 2017, the holder of the Series B Preferred Shares signed a conversion agreement pursuant to which, at the closing of this offering, 8,250 Series B Preferred Shares will convert into 223,235 shares of Common Stock, which will result in an inducement charge of approximately \$124,000, by dividing the \$825,000 payable by the public offering price of \$4.25 and multiplying by a factor of 1.15.
 - (3) At the closing of this offering, the 250,180 Series C Preferred Shares will convert into an aggregate of 9,124,264 shares of Common Stock. The majority (outside of those issued to Horton Capital) will be issued based upon the following formula: the number of outstanding Series C Preferred Shares (i) multiplied by a factor of 115, (ii) divided by \$3.12 (the conversion price of the Series D Preferred Stock to be issued to JMJ). Horton Capital will be issued shares of Common Stock based on receiving shares worth \$2,700,000 (based on the number of outstanding Series C Preferred Shares owned by Horton, multiplied by a factor of 115 and then reduced for any amount in excess of \$2,700,000) (i) divided by the public offering price of \$4.25, (ii) multiplied by 80%. Of the 250,180 Series C Preferred Shares outstanding as of February 13, 2018, Mr. Farkas controls 5,732 Series C Preferred Shares in his own name and 185,222 Series C Preferred Shares held by BLNK Holdings in which Mr. Farkas has a controlling interest. Upon the closing of this offering, these 190,954 Series C Preferred Shares will convert into an aggregate of 7,038,369 shares of Common Stock. The majority of the shares are being converted pursuant to conversion agreements signed by holders of the Series C Preferred Shares and the remainder are being issued pursuant to the Series C Amendments. The conversion of the Series C Preferred Shares resulted in a deemed dividend of approximately \$9.7 million which was recognized by recording an offsetting debit and credit to additional paid-in capital because the Company has an accumulated deficit. The Series C Certificate of Designation (as amended) contains a provision that allows the Series C Preferred Shares holders to have the most favorable conversion formula agreed to by the Company with any investor. At this time, pursuant to the Additional Agreement, JMJ has the most favorable conversion formula. The Company will be using JMJ's conversion price of \$3.12 for its Series D Preferred Stock for the conversion of the 250,180 Series C Preferred Shares.
 - (4) At the closing of this offering, the Company will repay: (i) \$688,238 in principal and interest owed pursuant to outstanding convertible notes issued to FGI; and (ii) placement agent and legal fees of approximately \$212,245 related to the JMJ Financing (of which \$77,245 will be paid to the Representative, \$120,000 will be paid to Ardour, and \$15,000 will be paid to IBIS Co.). Pursuant to an election by JMJ permitted by the Additional Agreement, the Company will issue to JMJ shares of Series D Preferred Stock convertible into 3,847,756 shares of Common Stock, based on the lowest daily closing price of the Common

Stock during the ten days prior to delivery of the shares of Series D Preferred Stock (\$3.12), to reflect the full payment of all dollar amounts and share amounts owed in connection with the JMJ Financing. The settlement with JMJ will result in a gain of \$38.1 million. See "Use of Proceeds" section on page 30.

- (5) At the closing of this offering, the Company will pay the former principals of 350 Green LLC \$25,000 in installment debt and \$50,000 within 60 days thereafter in settlement of a \$360,000 debt (inclusive of imputed interest) in accordance with a Settlement Agreement between the parties dated August 21, 2015 resulting in a gain of \$285,000.
- (6) At the closing of this offering, the Company will issue 33,429 units issuable to two employee members of the Board (Mr. Farkas and Mr. Calise) as well as a former member of the Board who remains our President (Mr. Kinard) in settlement and consideration of services rendered during the period of April 1, 2016 through March 31, 2017 for payment of \$113,551 divided by the public offering price of \$4.25 multiplied by 80%, resulting in an inducement charge of \$28,000. Each unit will consist of one share of Common Stock and two warrants each to purchase one share of Common Stock. The Company will not be registering any of the securities issued in connection with this payment.
- (7) At the closing of this offering, the Company will charge approximately \$781,000 against additional paid-in capital related to offering costs that have been deferred.
- (8) On June 8, 2017, the Company entered into a settlement agreement with Wilson Sonsini Goodrich & Rosati to settle \$475,394 in payables owed for legal services as of June 30, 2017 requiring: (a) \$25,000 to be paid in cash at the closing of this offering; and (b) \$75,000 in the form of 17,647 shares of Common Stock issuable upon the closing of this offering. As a result, the Company will show a \$375,394 reduction in liabilities.
- (9) On June 13, 2017, the Company entered into an agreement with ITT Canon LLC whereby the Company reached a settlement regarding, as of June 30, 2017, an accrued liability of \$200,000. The Company will issue 47,059 shares of Common Stock at the closing of this offering as settlement for such liability.
- (10) Concurrent with the closing of this offering, the Company will pay or issue to Mr. Farkas:
 - (i) \$80,000 to Mr. Farkas in repayment of accrued cash compensation for the period of July 2015 through November 2015; (ii) 223,456 units of unregistered shares of Common Stock and warrants issuable as payment of \$712,500 in shares of Common Stock owed to Mr. Farkas for the period of December 1, 2015 through May 31, 2017 pursuant to the Third Amendment and pursuant to a Conversion Agreement between the Company and Mr. Farkas, dated August 23, 2017 divided by the public offering price of \$4.25 multiplied by 80%; (iii) 153,039 units of unregistered shares of Common Stock and warrants issuable as payment of (a) \$375,000 in shares of Common Stock owed to Mr. Farkas for accrued commissions on hardware sales and revenue from charging stations for the period of November 2015 through March 2017 pursuant to the Third Amendment divided by the public offering price of \$4.25 multiplied by 80%; (b) \$145,334 in shares of Common Stock owed to Mr. Farkas for accrued commissions on hardware sales and revenue from charging stations for the period of April 2017 through February 13, 2018 pursuant to an oral agreement between the Company and Mr. Farkas divided by the public offering price of \$4.25 multiplied by 80%. This oral agreement was reached pursuant to Section 7(B) of the Third Amendment; (iv) 74,753 shares of Common Stock issuable as payment of \$221,009 owed to BLNK Holdings, in principal and interest pursuant to a Conversion Agreement between the Company and BLNK Holdings, dated August 23, 2017 based upon the Formula. Mr. Farkas is also due to receive 886,119 shares of Common Stock issuable pursuant to a letter agreement, dated December 6, 2017. Mr. Farkas will also receive options (regardless of the status of the offering) for 7,000 shares of our Common Stock at an exercise price of \$30.00 per share and options for 8,240 shares of our Common Stock at an exercise price of \$37.50 per share in connection with amounts owed pursuant to the Third Amendment.

DILUTION

If you invest in our securities, your investment will be diluted immediately to the extent of the difference between the public offering price per share of Common Stock in the unit you pay in this offering, and the pro forma net tangible book value per share of Common Stock immediately after this offering.

Net tangible book value (deficit) per share represents the amount of our total tangible assets reduced by our total liabilities, divided by the outstanding shares of Common Stock. Tangible assets equal our total assets less intangible assets. As of September 30, 2017, our actual net tangible book value (deficit) was \$(67.6) million and our net tangible book value (deficit) per share was \$(14.05).

Our pro forma net tangible book value (deficit) of our Common Stock as of September 30, 2017 was \$(63.0) million, or \$(11.41) per share. Pro forma net tangible book value (deficit) represents pro forma total tangible assets less pro forma total liabilities and pro forma net tangible book value (deficit) per share represents pro forma net tangible book value divided by the total number of shares outstanding as of September 30, 2017, each after giving effect to:

- (1) an additional advance under the JMJ Promissory Note in the amount of \$949,900 offset by the Promissory Note discounts and issuance costs of:
 - (A) Common Stock purchase warrants for 27,140 shares of Common Stock issued to JMJ with an estimated fair value of \$5,979,688 using the multi-nomial lattice pricing model based upon: (i) an expected life of 5.0 years; (ii) estimated volatility of 149.3%; (iii) annual rate of expected dividends of 0%; (iv) a risk free interest rate of 1.50%; and (v) an estimated exercise price of \$35.00; and
 - (B) placement agent cash fees of \$94,990 and warrants to purchase 2,714 shares of Common Stock with an estimated fair value of \$597,969 using the multi-nomial lattice pricing model based upon: (i) an expected life of 5 years; (ii) estimated volatility of 149.3%; (iii) annual rate of expected dividends of 0%; (iv) a risk free interest rate of 1.50%; and (v) an estimated exercise price of \$35.00. Such fees and warrants were issued in connection with the JMJ Financing.
- (2) The Company received agreements signed by certain holders of outstanding warrants to purchase Common Stock, pursuant to which warrants to purchase an aggregate of 726,504 warrant shares converted into 710,841 shares of Common Stock. These 710,841 shares were issued pursuant to Board resolutions dated September 26, 2017. The issuance of these 710,841 shares will result in a gain of approximately \$3.8 million and reduce liabilities by approximately \$8.0 million.
- (3) The issuance on November 29, 2017 of 9,119 Series C Preferred Shares as payment in full of payment-in-kind dividends and registration rights penalties and accrued interest thereon, owed to our Series C Preferred Shareholders accrued as of September 30, 2017.
- (4) Separately from and unrelated to the JMJ Financing, an additional loan of \$250,000 lent by JMJ to the Company on January 22, 2018. We will be issuing units of unregistered shares of Common Stock and warrants as repayment of this \$250,000 advance at the closing of the offering.

Our pro forma as adjusted net tangible book value as of September 30, 2017 would have been approximately \$8.02 million, or \$0.42 per share of Common Stock. This amount represents an immediate increase in historical net tangible book value of \$11.83 per share to existing stockholders and an immediate dilution of \$3.83 per share to new investors purchasing units in this offering. Our pro forma as adjusted net tangible book value of our Common Stock as of September 30, 2017 gives effect to the sale of shares of Common Stock at the public offering price of \$4.25 per unit, after deducting the underwriting discount and commission and estimated offering expenses, and the following:

- (1) On December 6, 2017 and December 7, 2017, the two holders of the Series A Preferred Shares (Mr. Farkas and Mr. Feintuch) signed letter agreements pursuant to which, at the closing of this offering, 11,000,000 Series A Preferred Shares will convert into 550,000 shares of Common Stock. The Company recorded the beneficial conversion feature with a value of \$1,000,000 as a deemed dividend by recording an offsetting debit and credit to additional paid-in capital because the Company has an accumulated deficit.
- (2) On May 19, 2017, the holder of the Series B Preferred Shares signed a conversion agreement pursuant to which, at the closing of this offering, 8,250 Series B Preferred Shares will convert into 223,235 shares of Common Stock, which will result in an inducement charge of approximately \$124,000, by dividing the \$825,000 payable by the public offering price of \$4.25 and multiplying by a factor of 1.15.
- (3) At the closing of this offering, the 250,180 Series C Preferred Shares will convert into an aggregate of 9,124,264 shares of Common Stock. The majority (outside of those issued to Horton Capital) will be issued based upon the following formula: the number of outstanding Series C Preferred Shares (i) multiplied by a factor of 115, (ii) divided by \$3.12 (the conversion price of the Series D Preferred Stock to be issued to JMJ). Horton Capital will be issued shares of Common Stock based on receiving shares worth \$2,700,000 (based on the number of outstanding Series C Preferred Shares owned by Horton, multiplied by a factor of 115 and then reduced for any amount in excess of \$2,700,000) (i) divided by the public offering price of \$4.25, (ii) multiplied by 80%. Of the 250,180 Series C Preferred Shares that will be outstanding as of the anticipated closing date of February 16, 2018, Mr. Farkas controls 5,732 Series C Preferred Shares in his own name and 185,222 Series C Preferred Shares held by BLNK Holdings in which Mr. Farkas has a controlling interest. Upon the closing of this offering, these 190,954 Series C Preferred Shares will convert into an aggregate of 7,038,369 shares of Common Stock. The majority of the shares are being converted pursuant to conversion agreements signed by holders of the Series C Preferred Shares and the remainder are being issued pursuant to the Series C Amendments. The conversion of the Series C Preferred Shares resulted in a deemed dividend of approximately \$9.7 million which was recognized by recording an offsetting debit and credit to additional paid-in capital because the Company has an accumulated deficit. The Series C Certificate of Designation (as amended) contains a provision that allows the Series C Preferred Shares holders to have the most favorable conversion formula agreed to by the Company with any investor. At this time, pursuant to the Additional Agreement, JMJ has the most favorable conversion formula. The Company will be using JMJ's conversion price of \$3.12 for its Series D Preferred Stock for the conversion of the 250,180 Series C Preferred Shares.

- (4) At the closing of this offering, the Company will repay: (i) \$688,238 in principal and interest owed pursuant to outstanding convertible notes issued to FGI; and (ii) placement agent and legal fees of approximately \$212,245 related to the JMJ Financing (of which \$77,245 will be paid to the Representative, \$120,000 will be paid to Ardour, and \$15,000 will be paid to IBIS Co.). Pursuant to an election by JMJ permitted by the Additional Agreement, the Company will issue to JMJ shares of Series D Preferred Stock convertible into 3,847,756 shares of Common Stock, based on the lowest daily closing price of the Common Stock during the ten days prior to delivery of the shares of Series D Preferred Stock (\$3.12), to reflect the full payment of all dollar amounts and share amounts owed in connection with the JMJ Financing. The settlement with JMJ will result in a gain of \$38.1 million. See "Use of Proceeds" section on page 30.
- (5) At the closing of this offering, the Company will pay the former principals of 350 Green LLC \$25,000 in installment debt and \$50,000 within 60 days thereafter in settlement of a \$360,000 debt (inclusive of imputed interest) in accordance with a Settlement Agreement between the parties dated August 21, 2015 resulting in a gain of \$285,000.
- (6) At the closing of this offering, the Company will issue 33,429 units issuable to two employee members of the Board (Mr. Farkas and Mr. Calise) as well as a former member of the Board who remains our President (Mr. Kinard) in settlement and consideration of services rendered during the period of April 1, 2016 through March 31, 2017 for payment of \$113,551 divided by the public offering price of \$4.25 multiplied by 80%, resulting in an inducement charge of \$28,000. Each unit will consist of one share of Common Stock and two warrants each to purchase one share of Common Stock. The Company will not be registering any of the securities issued in connection with this payment.
- (7) At the closing of this offering, the Company will charge approximately \$781,000 against additional paid-in capital related to offering costs that have been deferred.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the financial condition and results of our operations should be read in conjunction with the "Summary Statements of Operations Data" and our consolidated financial statements and the notes to those statements appearing elsewhere in this prospectus. This discussion and analysis contains forward-looking statements reflecting our management's current expectations that involve risks, uncertainties and assumptions. Our actual results and the timing of events may differ materially from those described in or implied by these forward-looking statements due to a number of factors, including those discussed below and elsewhere in this prospectus particularly on page 10 entitled "Risk Factors".

Overview

We are a leading owner, operator, and provider of electric vehicle ("EV") charging equipment and networked EV charging services. We offer both residential and commercial EV charging equipment, enabling EV drivers to easily recharge at various location types.

Our principal line of products and services is our Blink EV charging network (the "Blink Network") and EV charging equipment (also known as electric vehicle supply equipment) and EV related services. Our Blink Network is proprietary cloud-based software that operates, maintains, and tracks all of the Blink EV charging stations and the associated charging data. The Blink Network provides property owners, managers, and parking companies, who we refer to as our Property Partners, with cloud-based services that enable the remote monitoring and management of EV charging stations, payment processing, and provide EV drivers with vital station information including station location, availability, and applicable fees.

We offer our Property Partners a flexible range of business models for EV charging equipment and services. In our comprehensive and turnkey business model, we own and operate the EV charging equipment, manage the installation, maintenance, and related services, and share a portion of the EV charging revenue with the property owner. Alternatively, Property Partners may share in the equipment and installation expenses, with Blink Charging operating and managing the EV charging stations and providing connectivity to the Blink Network. For Property Partners interested in purchasing and owning EV charging stations that they manage, we can also provide EV charging hardware, site recommendations, connectivity to the Blink Network, and service and maintenance services.

As reflected in our unaudited condensed consolidated financial statements as of September 30, 2017, we had a cash balance, a working capital deficiency and an accumulated deficit of \$9,062, \$67,198,792 and \$182,206,113, respectively. During the three and nine months ended September 30, 2017, we incurred a net loss of \$93,620,432 and \$101,134,331, respectively. These factors raise substantial doubt about our ability to continue as a going concern within a year after the issuance date of this filing, as expressed in the notes to our condensed consolidated financial statements. Historically, we have been able to raise funds to support our business operations, although there can be no assurance we will be successful.

Through April 16, 2014, 350 Green was our wholly-owned subsidiary in which we had full control and the Company was consolidated. Beginning on April 17, 2014, when 350 Green's assets and liabilities were transferred to a trust mortgage, 350 Green became a variable interest entity ("VIE"). The consolidation guidance relating to accounting for VIEs requires an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a VIE and perform ongoing reassessments of whether an enterprise is the primary beneficiary of a VIE. We determined that our Company is the primary beneficiary of 350 Green, and as such, 350 Green's assets, liabilities and results of operations are included in our condensed consolidated financial statements.

On May 18, 2017, each of 350 Green and Green 350 Trust Mortgage LLC filed to commence an assignment for the benefit of creditors, which results in their residual assets being controlled by an assignee in a judicial proceeding. As a result, as of May 18, 2017, 350 Green is no longer a VIE of the Company and, accordingly, 350 Green's approximately \$3.7 million of liabilities have been deconsolidated from our financial statements.

On August 17, 2017, Car Charging Group, Inc. changed its name to Blink Charging Co. Effective August 29, 2017, pursuant to authority granted by the stockholders of the Company, the Company implemented the Reverse Split. The number of authorized shares remains unchanged. All share and per share information has been retroactively adjusted to reflect the Reverse Split for all periods presented, unless otherwise indicated.

Consolidated Results of Operations

Three Months Ended September 30, 2017 Compared With Three Months Ended September 30, 2016

Revenues

Total revenue for the three months ended September 30, 2017 was \$606,899 compared to \$748,950 a decline of \$142,051, or 19%. The decline is attributed to a \$48,557, or 24%, decline in product sales that decreased to \$157,264 for the three months ended September 30, 2017 compared to \$205,821 for the three months ended September 30, 2016. The decrease was primarily due to cost-cutting measures, limited resources during reorientation of operations, as well as lower volume of residential and commercial units sold during the three months ended September 30, 2017. The decrease is also attributable to a \$56,148, or 79%, decline in grant and rebate revenue that decreased to \$14,978 for the three months ended September 30, 2017 compared to \$71,126 for the comparable 2016 period. Grants and rebates relating to equipment and the related installation are deferred and amortized in a manner consistent with the depreciation expense of the related assets over their useful lives. The ability to secure grant revenues is typically unpredictable and, therefore, uncertain. We have not recently received any new grants and, as a result, the 2017 revenue is related to the amortization of previous grants.

Charging service revenue from company-owned charging stations was \$328,302 for the three months ended September 30, 2017 compared to \$317,443 for the three months ended September 30, 2016, an increase of \$10,859, or 3%. Charging service revenue derived from company-owned charging stations increased despite a \$58,826 decrease in revenue from a program sponsored by Nissan North America that the Company has participated in since July 2014. The Program Coordinator pays the Company based on the number of program participants and the percentage of DC Fast Chargers in the program. Starting in July 2015, a private company participating in this program began adding chargers to the program and the Company generated less revenue as a result of the decline in its percentage of chargers in the program. The Company expects revenues derived from this program during the balance of 2017 to continue to be lower than the revenues it derived from this program in the same periods in 2016.

Total revenue from warranty revenue, network fees and other revenue was \$106,355 for the three months ended September 30, 2017 as compared to \$154,560 for the three months ended September 30, 2016, a decrease of \$48,205, or 31%. The decrease is primarily attributable to a decrease in non-company-owned fee-generating units on our network, which is included within other revenues, during the three months ended September 30, 2017 as compared to the prior period.

Cost of Revenues

Cost of revenues primarily consists of depreciation of installed charging stations, amortization of the Blink Network infrastructure, the cost of charging station goods and related services sold, repairs and maintenance, electricity reimbursements and revenue share payments to hosts when we are the primary obligor in the revenue share arrangement. Cost of revenues for the three months ended September 30, 2017 were \$305,610 as compared to \$694,656 for the three months ended September 30, 2016. The decrease is primarily attributable to a decrease of \$135,576, or 72%, in warranty, repairs and maintenance, and network costs expense due to a lower cost of repairs provided by us as compared to repairs provided by third party vendors. Additionally, the decrease is due to a decrease of \$77,104, or 12%, in total cost of revenues in connection with cost of charging services, host provider fees and cost of product sales, primarily due to a decrease in charging service revenues and equipment sales, as well as a reduction in depreciation and amortization expense that declined to \$86,744 for the three months ended September 30, 2017 as compared to \$263,110 for the three months ended September 30, 2016, as the underlying assets became fully depreciated since the 2016 period. There is a degree of variability in our gross margins related to charging services revenues from period to period primarily due to (i) the mix of revenue share payment arrangements, (ii) electricity reimbursements, and (iii) the costs of maintaining charging stations not currently in operation. Any variability in our gross margins related to equipment sales depends on the mix of products sold.

Operating Expenses

Operating expenses consist of selling, marketing, advertising, payroll, administrative, finance and professional expenses.

Compensation expense decreased by \$483,819, or 31%, from \$1,564,463 (consisting of approximately \$1.3 million of cash compensation and approximately \$0.3 million of non-cash compensation) for the three months ended September 30, 2016 to \$1,080,644 (consisting of approximately \$0.8 million of cash compensation and approximately \$0.3 million of non-cash compensation) for the three months ended September 30, 2017. The decrease was primarily attributable to decreased cash commission expenses of approximately \$315,000 earned by a company owned by our Executive Chairman as well as decrease of approximately \$180,000 of payroll expenses due to decreased headcount as compared to the 2016 period.

Other operating expenses consist primarily of rent, travel and IT expenses. Other operating expenses decreased by \$114,847, or 34%, from \$342,774 for the three months ended September 30, 2016 to \$227,927 for the three months ended September 30, 2017. The decrease was primarily attributable to a reduction in rent expense, travel expense due to decreased travel, as well as a decreased in software development expenses in connection with generation 2 chargers.

General and administrative expenses decreased by \$198,554, or 47%, from \$420,953 for the three months ended September 30, 2016 to \$222,399 for the three months ended September 30, 2017. The decrease was primarily attributable to a decrease in legal and professional fees of approximately \$183,639, and consulting fees of approximately \$31,500, partially offset by an increase in credit card processing fees \$17,715.

Other Expense

Other expense increased by \$92,256,491, or 68,715%, from \$134,260 for the three months ended September 30, 2016 to \$92,390,751 for the three months ended September 30, 2017. The increase was primarily due to an increase in the non-cash change in fair value of warrant liabilities of approximately \$71.8 million, which was primarily attributable to the quantity of warrants held by our Executive Chairman not being subject to our Reverse Split, which, as a result of the Reverse Split, caused them to increase in value. The increase in other expense was also attributable to a loss on settlement reserve of \$12.5 million, which was primarily related to our default on our note with JMJ, as well as a non-cash loss on inducement of \$7.6 million which related to exchange agreements whereby the value consideration received by the counterparty exceeded the carrying value of the liability.

Net Loss

Our net loss for the three months ended September 30, 2017 increased by \$91,212,276 or 3,788%, to \$93,620,432 compared to \$2,408,156 for the three months ended September 30, 2016. The increase was primarily due to increased other expenses of \$92,256,491. Our net loss attributable to common shareholders for the three months ended September 30, 2017 increased by \$91,654,076, or 3,279%, from \$2,794,856 to \$94,448,932 for the aforementioned reasons and due to an increase in the dividend attributable to Series C Convertible Preferred shareholders of \$441,800.

The increase in other expense was primarily due to an increase in the non-cash change in fair value of warrant liabilities of approximately \$71.8 million, which was primarily attributable to the quantity of warrants held by our Executive Chairman not being subject to our Reverse Split, which, as a result of the Reverse Split, caused them to increase in value. The increase in other expense was also attributable to a loss on settlement reserve of \$12.5, which was primarily related to our default on our note with JMJ, as well as a non-cash loss on inducement of \$7.6 million which related to exchange agreements whereby the value consideration received by the counterparty exceeded the carrying value of the liability.

Nine Months Ended September 30, 2017 Compared With Nine Months Ended September 30, 2016

Revenues

Total revenue for the nine months ended September 30, 2017 was \$1,735,493 compared to \$2,459,496, a decline of \$724,003, or 29%. The decline is primarily attributed to a \$488,388, or 57%, decline in product sales that decreased to \$367,808 for the nine months ended September 30, 2017 compared to \$856,195 for the nine months ended September 30, 2016. The decrease was primarily due to cost-cutting measures, limited resources during reorientation of operations, as well as lower volume of residential and commercial units sold during the nine months ended September 30, 2017. The decrease is also attributable to a \$134,492, or 59%, decline in grant and rebate revenue that decreased to \$93,798 for the nine months ended September 30, 2017 compared to \$228,290 for the comparable 2016 period. Grants and rebates relating to equipment and the related installation are deferred and amortized in a manner consistent with the depreciation expense of the related assets over their useful lives. The ability to secure grant revenues is typically unpredictable and, therefore, uncertain. We have not recently received any new grants and, as a result, the 2017 revenue is related to the amortization of previous grants.

Charging service revenue from company-owned charging stations was \$879,428 for the nine months ended September 30, 2017 compared to \$958,376 for the nine months ended September 30, 2016, a decrease of \$78,948, or 8%. Charging service revenue from company-owned charging stations decreased primarily due to a \$170,020 decrease in revenue from a program sponsored by Nissan North America that the Company has participated in since July 2014, partially offset by an increase in revenue of \$91,071 from company-owned charging stations. The Program Coordinator pays the Company based on the number of program participants and the percentage of DC Fast Chargers in the program. Starting in July 2015, a private company participating in this program began adding chargers to the program and the Company generated less revenue as a result of the decline in its percentage of chargers in the program. The Company expects revenues derived from this program during the balance of 2017 to continue to be lower than the revenues it derived from this program in the same periods in 2016.

Total revenue from warranty revenue, network fees and other revenue was \$394,459 for the nine months ended September 30, 2017 as compared to \$416,634 for the nine months ended September 30, 2016, a decrease of \$22,175, or 5%. The decrease is primarily attributable to a decrease in non-company-owned fee-generating units on our network during the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016, partially offset by an increase in network fees as compared to the prior period.

Cost of Revenues

Cost of revenues primarily consists of depreciation of installed charging stations, amortization of the Blink Network infrastructure, the cost of charging station goods and related services sold, repairs and maintenance, electricity reimbursements and revenue share payments to hosts when we are the primary obligor in the revenue share arrangement. Cost of revenues for the nine months ended September 30, 2017 were \$1,128,066 as compared to \$2,253,190 for the nine months ended September 30, 2016. Cost of revenues decreased in virtually every category as compared to the 2016 period except for charging services which experienced an increase of \$18,400, however, the decrease is primarily attributable to a decrease of \$392,678, or 65%, in warranty and repairs and maintenance and network costs expense due to a lower cost of repairs provided by us as compared to repairs provided by third party vendors. Warranty and repairs and maintenance expense decreased as compared to the 2016 period primarily due to a lower cost of repairs provided by us as compared to repairs provided by third party vendors.

In addition, there was a decrease of \$351,947, or 44%, in total cost of revenues in connection with cost of host provider fees and cost of product sales, primarily due to a decrease in charging service revenues and equipment sales, as well as a reduction in depreciation and amortization expense that declined to \$298,168 for the nine months ended September 30, 2017 as compared to \$697,067 for the nine months ended September 30, 2016, as the underlying assets became fully depreciated since the 2016 period. There is a degree of variability in our gross margins related to charging services revenues from period to period primarily due to (i) the mix of revenue share payment arrangements, (ii) electricity reimbursements, and (iii) the costs of maintaining charging stations not currently in operation. Any variability in our gross margins related to equipment sales depends on the mix of products sold.

Operating Expenses

Operating expenses consist of selling, marketing, advertising, payroll, administrative, finance and professional expenses.

Compensation expense decreased by \$125,569, or 3%, from \$4,217,250 (consisting of approximately \$3.1 million of cash compensation and approximately \$1.1 million of non-cash compensation) for the nine months ended September 30, 2016 to \$4,091,681 (consisting of approximately \$2.7 million of cash compensation and approximately \$1.4 million of non-cash compensation) for the nine months ended September 30, 2017. The decrease was attributable decreased commission expenses of approximately \$130,000 earned by a company owned by our Executive Chairman as well as decrease of approximately \$290,000 of payroll expenses due to decreased headcount as compared to the 2016 period, partially offset by an increase in non-cash compensation expense primarily attributable to stock-based compensation issued to directors.

Other operating expenses consist primarily of rent, travel and IT expenses. Other operating expenses decreased by \$375,517, or 36%, from \$1,057,147 for the nine months ended September 30, 2016 to \$681,630 for the nine months ended September 30, 2017. The decrease was primarily attributable to a reduction in rent expense, travel expense due to decreased travel, as well as decreased IT expenses due to decreased call center expenses as the Company inaugurated their own internal call center in Phoenix, Arizona during 2016.

General and administrative expenses decreased by \$284,188, or 27%, from \$1,058,670 for the nine months ended September 30, 2016 to \$774,482 for the nine months ended September 30, 2017. The decrease was primarily attributable to a decrease in accounting expenses of approximately \$200,905 and consulting expenses of approximately \$106,500, partially offset by an increase in legal and professional fees of approximately \$74,311.

During the nine months ended September 30, 2017, we incurred lease termination costs of \$300,000 which represents the fair value of our remaining under our lease agreement.

Other Expense

Other expense increased by \$92,865,802, or 3,067%, from \$3,028,163 for the nine months ended September 30, 2016 to \$95,893,965 for the nine months ended September 30, 2017. The increase was primarily due to an increase in the non-cash change in fair value of warrant liabilities of approximately \$70.4 million, which was primarily attributable to the quantity of warrants held by our Executive Chairman not being subject to our Reverse Split, which, as a result of the Reverse Split, caused them to increase in value. The increase in other expense was also attributable to a loss on settlement reserve of \$13.0, which was primarily related to our default on our note with JMJ, as well as a non-cash loss on inducement of \$7.6 million which related to exchange agreements whereby the value consideration received by the counterparty exceeded the carrying value of the liability.

Net Loss

Our net loss for the nine months ended September 30, 2017 increased by \$91,979,407, or 1,005%, to \$101,134,331 as compared to \$9,154,924 for the nine months ended September 30, 2016. The increase was primarily due an increase in other expenses of \$92,865,802. Our net loss attributable to common shareholders for the nine months ended September 30, 2017 increased by \$92,283,307, or 912%, from \$10,225,324 to \$103,508,631 for the aforementioned reasons and due to an increase in the dividend attributable to Series C Convertible Preferred shareholders of \$1,303,900.

The increase in other expense was primarily due to an increase in the non-cash change in fair value of warrant liabilities of approximately \$70.4 million, which was primarily attributable to the quantity of warrants held by our Executive Chairman not being subject to our Reverse Split, which, as a result of the Reverse Split, caused them to increase in value. The increase in other expense was also attributable to a loss on settlement reserve of \$13.0, which was primarily related to our default on our note with JMJ, as well as a non-cash loss on inducement of \$7.6 million which related to exchange agreements whereby the value consideration received by the counterparty exceeded the carrying value of the liability.

Year Ended December 31, 2016 Compared With Year Ended December 31, 2015

Revenues

Total revenue for the year ended December 31, 2016 was \$3,326,021 compared to \$ 3,957,795, a decline of \$631,774 or 16%. The decline is primarily attributed to an \$836,477 decline in grants and rebates revenue that decreased to \$332,672, or 72% for the year ended December 31, 2016 compared to \$1,169,149 for the year ended December 31, 2015. Grants and rebates relating to equipment and the related installation are deferred and amortized in a manner consistent with the depreciation expense of the related assets over their useful lives. Our grant revenue during the 2014 and 2015 fiscal years was primarily derived from our agreement with the Bay Area Air Quality Management District (the "BAAQMD"). Our agreement with the BAAQMD ended on December 31, 2015. Although we are not currently receiving funding under the grant, we are recognizing the funding received as revenue over the lives of the chargers to which they pertained.

Charging service revenue company-owned charging stations was \$1,144,016 for the year ended December 31, 2016 compared to \$1,074,163 for the year ended December 31, 2015, a slight increase of \$69,853 or 7%. Charging services derived from revenue company-owned charging stations increased, despite a \$155,940 decrease in revenue from a program sponsored by Nissan North America (called No Charge to Charge and currently still active), that the Company has participated in since July 2014. The Program Coordinator pays the Company based on the number of program participants and the percentage of DC Fast Chargers in the program. Starting in July 2015, the private company participating in this program began adding chargers to the program and we no longer were able to generate as much revenue from the percentage of chargers we have in the program. We expect revenues derived from this program during the balance of 2017 to continue to be lower than the revenues we derived from this program in the same periods in 2016.

Revenue from product sales was \$1,126,939 for the year ended December 31, 2016 compared to \$805,143 for the year ended December 31, 2015, an increase of \$321,796 or 40%. The increase was primarily due to a higher volume of residential and commercial units sold in 2016.

Total revenue from warranty revenue, network fees and other revenue was \$722,394 for the year ended December 31, 2016, compared to \$909,340 the year ended December 31, 2015 a decrease of \$186,946, or 21%. The decrease is attributed to a one-time gain of \$209,086 associated with the settlement of accounts payable related to network fees.

Cost of Revenues

Cost of revenues primarily consists of depreciation of installed charging stations, amortization of the Blink Network infrastructure, the cost of charging station goods and related services sold, repairs and maintenance, electricity reimbursements and revenue share payments to hosts when we are the primary obligor in the revenue share arrangement. Cost of revenues for the year ended December 31, 2016 were \$2,813,680 as compared to \$2,861,738 for the year ended December 31, 2015, a decrease of \$48,058, or 2%, primarily due to a reduction in warranty and repair costs that declined to \$346,477 for year ended December 31, 2016 compared to \$671,474 for the year ended December 31, 2015. There is a degree of variability in our gross margins related to charging services revenues from period to period primarily due to (i) the mix of revenue share payment arrangements, (ii) electricity reimbursements, and (iii) the costs of maintaining charging stations not currently in operation. Any variability in our gross margins related to equipment sales depends on the mix of products sold.

Gross Profit

The gross profit for the year ended December 31, 2016, was \$512,341 compared to \$1,096,057 for the year ended December 31, 2015, a decrease of \$583,716. The reduction in gross profit contribution is largely attributed to a year over year reduction in grant and rebate revenue of \$836,477. For the year ended December 31, 2016, the gross profit contribution from company-owned charging stations defined as charging service revenue from company-owned charging stations less cost of charging services- company-owned charging stations less host provider fees was \$495,587 or 43% compared to \$562,979 or 52% for the year ended December 31, 2015. The reduction in gross profit contribution from company-owned charging stations is attributed to the reduction in revenue from a program sponsored by Nissan North America (called No Charge to Charge and currently still active) that the Company has participated in since July 2014.

Gross Profit from product sales defined as product sales less cost of equipment sales was \$625,210 or 55% for the year ended December 31, 2016, compared to \$434,217 or 54% for the year ended December 31, 2015 an improvement of \$190,993. Management anticipates that product sales attributed to the launch of the Company's next generation charging stations targeted in the second half of 2017 will contribute to increased gross profit from product sales.

Operating Expenses

Operating expenses consist of selling, marketing, advertising, payroll, administrative, finance and professional expenses.

Compensation expense decreased by \$3,320,634, or 40%, from \$8,200,246 (consisting of approximately \$4.3 million of cash compensation and approximately \$3.9 million of non-cash compensation) for the year ended December 31, 2015 to \$4,879,612 (consisting of approximately \$4.1 million of cash compensation and approximately \$0.8 million of non-cash compensation) for the year ended December 31, 2016. The decrease was primarily attributable to share-based payments with a fair value of approximately \$1,750,000 made to our Chief Operating Officer during the year ended December 31, 2015 under the terms of an employment agreement, as well as reduced payroll expenses of approximately \$1,251,000 due to the departure of certain management and other personnel during the second half of 2015.

Other operating expenses consist primarily of rent, travel and IT expenses. Other operating expenses decreased by \$211,065, or 13%, from \$1,662,748 for the year ended December 31, 2015 to \$1,451,683 for the year ended December 31, 2016. The decrease was primarily attributable to decreased call center expenses as the Company inaugurated their own internal call center in Phoenix, Arizona during 2016 and reduced travel expenses as compared to the prior period.

General and administrative expenses decreased by \$1,158,903, or 45%, from \$2,552,857 for the year ended December 31, 2015 to \$1,393,954 for the year ended December 31, 2016. The decrease was primarily due to reduced legal and consulting fees as compared to the year ended December 31, 2015, which was primarily attributable to a greater demand for legal and consulting services during the year ended December 31, 2015.

Other (Expense) Income

Other (expense) income decreased by \$3,561,089, or 116%, from other income of \$3,074,870 for the year ended December 31, 2015 to other (expense) of \$(486,219) for the year ended December 31, 2016. The decrease was primarily attributable to a decrease in the gain of the fair value of warrant liabilities of \$2,535,398, or 78%, from \$3,262,637 for the years ended December 31, 2015 to \$727,239 for the year ended December 31, 2016, partially offset by an increase in a gain of settlements or forgiveness of accounts payable of \$780,028. In addition, there was \$1,833,896 of income during the year ended December 31, 2015 which related to a notification from the DOE that it had no further property interest in certain direct current fast chargers, which resulted in the release of our liability to the DOE, partially offset by a decrease in the provision for non-compliance penalty for delinquent regular SEC filings of \$1,150,674, or 67%, from \$1,722,217 for the year ended December 31, 2015 to \$571,543 for the years ended December 31, 2016.

Net Loss

Our net loss for the year ended December 31, 2016 decreased by \$545,797, or 7%, to \$7,699,127 as compared to \$8,244,924 for the year ended December 31, 2015. The decrease was primarily attributable to a decrease in operating expenses of \$4,690,602 and gross profit of \$583,716, partially offset by an increase in other expenses of \$3,561,089. Our net loss attributable to Common Stock holders for the year ended December 31, 2016 decreased by \$416,997, or 4%, from \$9,584,624 to \$9,167,627 for the aforementioned reasons and due to an increase in the dividend attributable to holders of Series C Preferred Shares of \$518,400 and a decrease in income attributable to our non-controlling interest of \$389,600.

Liquidity and Capital Resources

During the nine months ended September 30, 2017, we financed our activities from proceeds derived from debt and equity financing. A significant portion of the funds raised from the sale of capital stock have been used to cover working capital needs and personnel, office expenses and various consulting and professional fees.

For the nine months ended September 30, 2017 and 2016, we used cash of \$2,020,021 and \$1,913,463, respectively, in operations. Our cash use for the nine months ended September 30, 2017 was primarily attributable to our net loss of \$101,134,331, adjusted for net non-cash expenses in the aggregate amount of \$84,498,217, partially offset by \$14,616,093 of net cash provided by changes in the levels of operating assets and liabilities.

Our cash used in operating activities for the nine months ended September 30, 2016 was primarily attributable to our net loss of \$9,154,924, adjusted for non-cash expenses in the aggregate amount of \$5,383,069, partially offset by \$1,858,392 of net cash provided by changes in the levels of operating assets and liabilities.

During the nine months ended September 30, 2017, cash used in investing activities was \$12,681, which was used to purchase charger cables. Net cash used in investing activities was \$80,463 during the nine months ended September 30, 2016, which was used to purchase charging stations and other fixed assets.

Net cash provided by financing activities for the nine months ended September 30, 2017 was \$2,035,866, of which, \$2,067,745 was provided in connection with the issuance of various forms of notes payable and \$84,144 provided from bank overdrafts, partially offset by the payment of \$38,263 of associated with future offering costs and \$72,945 of debt issuance costs as well as the repayment of notes payable of \$4,815. Cash provided by financing activities for the nine months ended September 30, 2016 was \$1,813,827, of which, \$1,314,620 of net proceeds (gross proceeds of \$1,367,120 less issuance costs of \$52,500) were from the sale of Series C Convertible Preferred Stock and warrants, \$600,000 was provided in connection with proceeds from the issuance of convertible notes to a related party, partially offset by the repayment of notes payable of \$135,428.

We expect that through the next 12 months from the date of this filing, we will require external funding to sustain operations and to follow through on the execution of our business plan. There can be no assurance that our plans will materialize and/or that we will be successful in our efforts to obtain the funding to cover working capital shortfalls. Given these conditions, there is substantial doubt about our ability to continue as a going concern and our future is contingent upon our ability to secure the levels of debt or equity capital we need to meet our cash requirements. In addition, our ability to continue as a going concern must be considered in light of the problems, expenses and complications frequently encountered by entrants into established markets, the competitive environment in which we operate and the current capital raising environment.

Since inception, our operations have primarily been funded through proceeds from equity and debt financings. Although management believes that we have access to capital resources, there are currently no commitments in place for new financing at this time, except as described above under the heading Recent Developments, and there is no assurance that we will be able to obtain funds on commercially acceptable terms, if at all.

We intend to raise additional funds during the next twelve months. The additional capital raised would be used to fund our operations. The current level of cash and operating margins is insufficient to cover our existing fixed and variable obligations, so increased revenue performance and the addition of capital through issuances of securities are critical to our success. Should we not be able to raise additional debt or equity capital through a private placement or some other financing source, we would take one or more of the following actions to conserve cash: further reductions in employee headcount, reduction in base salaries to senior executives and employees, and other cost reduction measures. Assuming that we are successful in our growth plans and development efforts, we believe that we will be able to raise additional debt or equity capital. There is no guarantee that we will be able to raise such additional funds on acceptable terms, if at all.

Through September 30, 2017, we incurred an accumulated deficit since inception of \$182,206,113. As of September 30, 2017, we had a cash balance and working capital deficit of \$9,062 and \$67,198,792, respectively. During the nine months ended September 30, 2017, we incurred a net loss of \$101,134,331. These conditions raise substantial doubt about our ability to continue as a going concern within one year after the issuance date of this filing.

Our condensed consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classifications of liabilities that might be necessary should we be unable to continue as a going concern.

Recent Developments

Securities Purchase Agreement with JMJ Financial

On October 7, 2016, we executed a Promissory Note in favor of JMJ in the amount up to \$3,725,000 bearing interest on the unpaid balance at the rate of six percent. The initial amount borrowed under the Promissory Note was \$500,000, with the remaining amounts permitted to be borrowed under the Promissory Note being subject to us achieving certain milestones. The Promissory Note is convertible into shares of our Common Stock based on the lesser of a per share price of \$35.00 or 60% of the lowest trade price in the 25 trading days prior to the date of conversion. If JMJ elects to convert the principal balance of the Promissory Note into shares of our Common Stock under the terms of the Promissory Note, our current stockholders would be subject to dilution of their interests. Pursuant to the terms of the Promissory Note, JMJ has agreed that it will not convert the note into more than 9.99% of our outstanding shares. JMJ currently does not own any shares of our Common Stock.

If we do not repay the Promissory Note on the maturity date (currently February 15, 2018) and if we issue a variable security at any time the Promissory Note is outstanding, then in such event JMJ shall have the right to convert all or any portion of the outstanding balance of the Promissory Note into shares of Common Stock on the same terms as granted in any applicable variable security issued by us.

We initially issued one warrant to JMJ to purchase a total of 14,286 shares of our Common Stock at an exercise price equal to the lesser of: (i) 80% of the per share price of the Common Stock in this offering, (ii) \$35.00 per share, (iii) 80% of the unit price of this offering (if applicable), (iv) the exercise price of any warrants issued in this offering, or (v) the lowest conversion price, exercise price, or exchange price, of any security issued by us that is outstanding on October 13, 2016.

The initial amount borrowed under the Promissory Note was \$500,000, with the remaining amounts permitted to be borrowed under the Promissory Note being subject to us achieving certain milestones. With the achievement of certain milestones in November 2016 (the filing with the SEC of a Preliminary Information Statement on Schedule 14C regarding the Reverse Stock Split), an additional advance of \$500,000 under the Promissory Note occurred on November 28, 2016. Another warrant to purchase 14,286 shares of our Common Stock was issued as of November 28, 2016. With the achievement of certain milestones in February 2017 (the filing with the SEC of a revised Preliminary Information Statement and a Definitive Information Statement, each on Schedule 14C regarding the Reverse Stock Split), additional advances of \$225,100 and \$300,000 under the Promissory Note occurred on February 10 and February 27, respectively. Thus, two more warrants to purchase the Company's Common Stock were issued, one for 6,431 shares and the other for 8,571 shares, respectively. All advances after February 28, 2017 have been at the discretion of JMJ without regard to any specific milestones occurring. Additional advances of \$250,000 and \$30,000 under the Promissory Note occurred on March 14, 2017 and March 24, 2017, respectively, and two more warrants to purchase the Company's Common Stock were issued, one for 7,143 shares and the other for 857 shares. An additional advance of \$400,000 occurred on April 5, 2017 and another warrant to purchase 11,429 shares of our Common Stock was issued on the same date. An additional advance of \$295,000 occurred on May 9, 2017 and another warrant to purchase 8,429 shares of the Company's Common Stock was issued on the same date. On July 27, 2017, an additional advance of \$50,000 was made to the Company and another warrant to purchase 1,429 shares of the Company's Common Stock was issued to JMJ. The Company and JMJ entered into the Additional Agreement on October 23, 2017. In accordance with the terms of the Additional Agreement, on October 24, 2017, JMJ advanced to the Company \$949,900 available pursuant to previous agreements with JMJ. As of February 13, 2018, ten (10) warrants to purchase a total of 100,001 shares of the Company's Common Stock have been issued to JMJ. The aggregate exercise price is \$3,500,000.

The Additional Agreement extended the Maturity Date to December 15, 2017 (subsequently extended to February 15, 2018). In addition, JMJ has claimed that the Company would owe JMJ \$12 million as a mandatory default amount pursuant to previous agreements with the Company. JMJ agreed to allow the Company to have two options for settling a previously issued note (including settling the mandatory default amount for either \$1.1 million or \$2.1 million), securing a lockup agreement from JMJ, and exchanging previously issued warrants for shares of the Common Stock. Each of these options depends upon this offering closing by December 15, 2017 (subsequently extended to February 15, 2018). The option chosen is at the Company's sole discretion.

The first option is that the Company, upon the closing of this offering: (a) will pay \$2.0 million in cash to JMJ; and (b) will issue shares of Common Stock to JMJ with a value of \$9,005,000 (including the Origination Shares). The second option is that the Company, upon the closing of this offering, will not pay any cash to JMJ and will issue shares of Common Stock to JMJ with a value of \$12,005,000 (including the Origination Shares). In each case, the Company will issue such number of duly and validly issued, fully paid and non-assessable shares of Common Stock equal to the amount in question divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of the Common Stock during the ten days prior to delivery of shares (subject to adjustment for stock splits), or (iii) 80% of the Common Stock price of this offering, or (iv) 80% of the unit price of this offering (if applicable), or (v) the exercise price of any warrants issued in this offering. Prior to the Company choosing the option at the closing, JMJ could elect to receive some or all of the share consideration (to be issued pursuant to either option) discussed in this paragraph in the form of convertible preferred stock. JMJ made this election on January 29, 2018.

Unless otherwise stated, this prospectus assumes the Company will choose the second option and not pay any cash to JMJ.

On November 29, 2017, the Company and JMJ entered into the first amendment to the Additional Agreement, extending the Maturity Date to December 31, 2017. On January 4, 2018, the Company and JMJ entered into the second amendment to the Additional Agreement, extending the Maturity Date to January 31, 2018. On February 1, 2018, the Company and JMJ entered into the third amendment to the Additional Agreement, extending the Maturity Date to February 10, 2018. On February 7, 2018, the Company and JMJ entered into the fourth amendment to the Additional Agreement, extending the Maturity Date to February 15, 2018.

On the fifth (5th) trading day after the closing of this offering, but in no event later than February 15, 2018, we will deliver the Origination Shares to JMJ. If this offering does not occur prior to February 15, 2018 and JMJ owns Origination Shares at the time of a subsequent public offering where the pricing terms above would result in a lower Origination Share pricing, the Origination Shares pricing shall be subject to a reset based on the same pricing terms as described above. The Origination Shares will now be issued in the form of Series D Preferred Stock to be issued pursuant to the Additional Agreement.

Pursuant to an election by JMJ permitted by the Additional Agreement, the Company will issue to JMJ shares of Series D Preferred Stock convertible into 3,847,756 shares of Common Stock to reflect the full payment of all dollar amounts and share amounts owed in connection with the JMJ Financing. Because the Series D Preferred Stock is convertible into shares of our Common Stock, upon JMJ's conversion of the Series D Preferred Stock into shares of our Common Stock holders of our Common Stock will experience dilution.

Separately from and unrelated to the JMJ Financing, JMJ lent \$250,000 to the Company on January 22, 2018. We will be issuing units of unregistered shares of Common Stock and warrants as repayment of this \$250,000 advance at the closing of the offering.

350 Green

On May 18, 2017, each of 350 Green and Green 350 Trust Mortgage LLC filed to commence an assignment for the benefit of creditors, which results in their residual assets being controlled by an assignee in a judicial proceeding. As a result, as of May 18, 2017, 350 Green is no longer a VIE of the Company and, accordingly, as of June 30, 2017, 350 Green's approximately \$3.7 million of liabilities were deconsolidated from the Company's financial statements.

Non-Cash Expense

On August 29, 2017, following the effectiveness of the Reverse Stock Split, FGI exercised, on a cashless basis, its warrants to purchase 3.1 million shares, accounted for as derivative liabilities, not subject to the Reverse Stock Split. The Company issued 2,990,404 shares of Common Stock to FGI as a result of the cashless exercise. As a result, since the exercised warrants were previously classified as a derivative liability, the Company recorded a mark-to-market adjustment during the three months ended September 30, 2017 of approximately \$43.9 million which was included within change in fair value of warrant liabilities on the condensed consolidated statement of operations. On November 20, 2017, JMJ confirmed in writing that it would not pursue a price reset of its outstanding warrants as a result of the FGI warrant exercise. The Company expects that this will result in a substantial reduction of the fair market value of JMJ's derivative liabilities (\$25 million on the September 30, 2017 balance sheet) in the fourth quarter of 2017.

On December 6, 2017, the Company and Mr. Farkas signed a letter agreement, pursuant to which, Mr. Farkas, on behalf of FGI, agreed that upon the closing of this offering, FGI will cancel 2,930,596 of its shares of Common Stock (of the 2,990,404 received).

Critical Accounting Policies

There are no material changes from the critical accounting policies set forth in "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Form 10-K for the year ended December 31, 2016 filed with the SEC on April 14, 2017. Please refer to that document for disclosures regarding the critical accounting policies related to our business.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as “special purpose entities” (SPEs).

Recently Issued Accounting Standards

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers,” (“ASU 2014-09”). ASU 2014-09 supersedes the revenue recognition requirements in ASC 605 - Revenue Recognition (“ASC 605”) and most industry-specific guidance throughout ASC 605. The core principle of the standard requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, it is possible more judgment and estimates may be required within the revenue recognition process than required under existing U.S. GAAP including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The guidance in ASU 2014-09 was revised in July 2015 to be effective for interim periods beginning on or after December 15, 2017 and should be applied on a transitional basis either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. In 2016, FASB issued additional ASUs that clarify the implementation guidance on principal versus agent considerations (ASU 2016-08), on identifying performance obligations and licensing (ASU 2016-10), and on narrow-scope improvements and practical expedients (ASU 2016-12) as well as on the revenue recognition criteria and other technical corrections (ASU 2016-20). The Company has not yet selected a transition method and is currently evaluating the impact of the adoption of these ASUs on its consolidated financial position and results of operations, however, based on its preliminary analysis, the Company does not believe the adoption of these ASUs will have a material impact on its condensed consolidated financial position and results of operations.

In May 2017, the FASB issued ASU No. 2017-09, “Compensation—Stock Compensation (Topic 718)” (“ASU 2017-09”). ASU 2017-09 provides clarity on the accounting for modifications of stock-based awards. ASU 2017-09 requires adoption on a prospective basis in the annual and interim periods for our fiscal year ending December 31, 2019 for share-based payment awards modified on or after the adoption date. The Company is currently evaluating the effect that adopting this new accounting guidance will have on its condensed consolidated financial statements and related disclosures.

In July 2017, the FASB issued ASU 2017-11, Earnings Per Share (Topic 260) and Derivatives and Hedging (Topic 815) - Accounting for Certain Financial Instruments with Down Round Features. Equity-linked instruments, such as warrants and convertible instruments may contain down round features that result in the strike price being reduced on the basis of the pricing of future equity offerings. Under the ASU, a down round feature will no longer require a freestanding equity-linked instrument (or embedded conversion option) to be classified as a liability that is remeasured at fair value through the income statement (i.e. marked-to-market). However, other features of the equity-linked instrument (or embedded conversion option) must still be evaluated to determine whether liability or equity classification is appropriate. Equity classified instruments are not marked-to-market. For earnings per share (“EPS”) reporting, the ASU requires companies to recognize the effect of the down round feature only when it is triggered by treating it as a dividend and as a reduction of income available to common shareholders in basic EPS. The amendments in this ASU are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted, including adoption in any interim period. The Company has not yet selected a transition method and is currently evaluating the impact of the adoption of these ASUs on its consolidated financial position and results of operations.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), Targeted Improvements to Accounting for Hedging Activities (“ASU 2017-12”) which is intended to better align an entity’s risk management activities and its financial reporting for hedging relationships. ASU 2017-12 will change both the designation and measurement guidance for a qualifying hedging relationship and the presentation of the impact of the hedging relationship on the entity’s financial statements. In addition, ASU 2017-12 contains targeted improvements to ease the application of current guidance related to the assessment of hedge effectiveness and eliminates the requirement for an entity to separately measure and report hedge ineffectiveness. For public companies, these amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the effect that adopting this new accounting guidance will have on its condensed consolidated financial statements and related disclosures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer, evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2017. The term “disclosure controls and procedures,” as defined in Rule 13a-15 under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Based on our evaluation, our Chief Executive Officer concluded that, as of September 30, 2017, our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses described below.

1. We do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act which is applicable to us for the year ended December 31, 2016. Management evaluated the impact of our failure to have written documentation of our internal controls and procedures on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.
2. We do not have sufficient resources in our accounting function, which restricts the Company’s ability to gather, analyze and properly review information related to financial reporting in a timely manner. In addition, due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions should be performed by separate individuals. Management evaluated the impact of our failure to have segregation of duties on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.
3. We have inadequate controls to ensure that information necessary to properly record transactions is adequately communicated on a timely basis from non-financial personnel to those responsible for financial reporting. Management evaluated the impact of the lack of timely communication between non-financial personnel and financial personnel on our assessment of our reporting controls and procedures and has concluded that the control deficiency represented a material weakness.
4. We have determined that oversight over our external financial reporting and internal control over our financial reporting by our Board of Directors is ineffective. The Board of Directors has not provided adequate review of the Company’s SEC’s filings and condensed consolidated financial statements and has not provided adequate supervision and review of the Company’s accounting personnel or oversight of the independent registered accounting firm’s audit of the Company’s condensed consolidated financial statement.

During July 2017, we appointed Robert Schweitzer to our audit committee, who we have determined meets the requirements of a financial expert as defined under the applicable rules and regulations of the SEC and who has the requisite financial sophistication as defined under the applicable rules and regulations of NASDAQ. Our Board has considered the independence and other characteristics of each of the three members of our audit committee, and our Board believes that each member meets the independence and other requirements of NASDAQ and the SEC. As part of its duties, the audit committee will assist our management in the establishment and monitoring of our internal controls and procedures.

In November 2017, the audit committee, as currently comprised, conducted its first review of the interim financial statements for the period ended September 30, 2017. Our management believes that the controls implemented in relation to the audit committee are sufficient to address the above weakness on a go forward basis, however, they have concluded that as of September 30, 2017, our disclosure controls were not effective.

Notwithstanding the assessment that our disclosure controls and procedures and our internal controls over financial reporting were not effective and that there are material weaknesses as identified herein, we believe that our condensed consolidated financial statements for the period ended September 30, 2017 fairly present our financial position, results of operations and cash flows for the periods covered thereby in all material respects.

Our Blink Network is proprietary cloud-based software that operates, maintains, and tracks all of the Blink EV charging stations and the associated charging data. The Blink Network provides property owners, managers, and parking companies, who we refer to as our Property Partners, with cloud-based services that enable the remote monitoring and management of EV charging stations, payment processing, and provides EV drivers with vital station information including station location, availability, and applicable fees.

We offer our Property Partners with a flexible range of business models for EV charging equipment and services. In our comprehensive and turnkey business model, we own and operate the EV charging equipment, manage the installation, maintenance, and related services; and share a portion of the EV charging revenue with the property owner. Alternatively, Property Partners may share in the equipment and installation expenses, with us operating and managing the EV charging stations and providing connectivity to the Blink Network. For Property Partners interested in purchasing and owning EV charging stations, that they manage, we can also provide EV charging hardware, site recommendations, connectivity to the Blink Network, and service and maintenance services.

We have strategic partnerships across numerous transit/destination locations, including airports, auto dealers, healthcare/medical, hotels, mixed-use, municipal locations, multifamily residential and condos, parks and recreation areas, parking lots, religious institutions, restaurants, retailers, schools and universities, stadiums, supermarkets, transportation hubs, and workplace locations. As of February 13, 2018, we have approximately 14,102 charging stations deployed of which 4,733 are Level 2 commercial charging units, 114 DC Fast Charging EV chargers and 2,027 residential charging units in service on the Blink Network. Additionally, we currently have approximately 323 Level 2 commercial charging units on other networks and there are also approximately an additional 6,905 non-networked, residential Blink EV charging stations. The non-networked, residential Blink EV charging stations are all partner owned.

Industry Overview

We believe that the market for plug-in electric vehicles has experienced significant growth in recent years in response to consumer demand for vehicles with greater fuel efficiency, greater performance, and with lower environmental emissions. We believe that the demand for EVs has also been spurred in part by federal and state fuel economy standards and other state and local incentives and rebates for EVs. For example, the states of California, Oregon, New York, Maryland, Massachusetts and others have created mandates for EVs with the goal of 3.3 million EVs on the road by 2025. At the same time, oil and gas prices continue to experience spikes and fluctuations, while at the same time the cost of battery technology continues to fall as the battery industry achieves scale. In response, major automotive OEMs have accelerated the adoption of EV models, with more than 25 EV models currently available from Tesla, Nissan, Kia, GM, Ford, Fiat, BMW, Mercedes, Audi, Volkswagen, Toyota, Mitsubishi, Land Rover, Porsche, and many others. According to the Electric Drive Transportation Association, sales of plug-in vehicles since introduction to the market in 2010 is over 500,000 and according to a third-party researcher, sales are expected to grow by a factor of 12 to 2.5 million in 2025.

However, we believe that a major impediment to EV adoption has been the lack of EV charging infrastructure, and that a viable model for continued deployment of EV charging infrastructure continues to evolve. Examples of federal programs designed to stimulate development of EV charging infrastructure includes the recent White House announcement of, among other things, programs to release up to \$4.5 billion in loan guarantees and invite applications to support the deployment of commercial EV charging facilities, and the launching of the Fixing America's Surface Transportation (FAST) Act process to identify and develop corridors for zero emission and alternative fuel vehicles, which will include a network of EV fast charging stations.

According to Navigant Research, the global market for electric vehicle supply equipment (EVSE) is expected to grow from 505,000 units in 2016 to 2.5 million in 2025. Major utility companies are also working to upgrade their grid infrastructure in order to prepare for mass consumption of electricity by electric vehicles.

While many believe that the majority of EV charging occurs at home, we believe the need for a robust, pervasive public EV charging infrastructure is required to eliminate range anxiety (that is, a worried feeling while driving an electric car caused by the driver thinking they might run out of power before reaching their destination). In addition to providing strategic, public charging stations, we believe that it is necessary to provide EV charging solutions to those drivers that do not live in single-family homes, but share parking facilities, including multifamily residential apartment buildings and condominiums. While there are a few, leading competitors and various, smaller EV charging equipment or service providers that have emerged in the market, we believe their products and services are limited. Typically, these companies offer EV charging equipment, an EV charging network, or EV charging services with third party equipment.

Our EV Charging Solutions

We offer a broad range of EV charging products and services to Property Partners and EV drivers.

EV Charging Products

- *Level 2.* We offer Level 2 (AC) EV charging equipment, which is ideal for commercial and residential use, and has the standard J1772 connector, which is compatible with all major auto manufacturer electric vehicle models. Our commercial equipment is available in pedestal or wall mount configurations, with the ability to connect to our robust Blink Network. Our non-networked residential product, Blink HQ, is available in a wall-mount configuration and offers a delay start feature that allows users to optimize charging by utility rates. Level 2 charging stations typically provide a full charge in two to eight hours. Level 2 chargers are ideally suited for low-cost installations and frequently used parking locations, such as workplace, multifamily residential, retail and mixed-use, parking garages, municipalities, colleges/schools, hospitals, and airports.
- *DCFC.* Our DC Fast Charging equipment ("DCFC") currently has the CHAdeMo connector, which is compatible with Nissan, Kia, and Tesla electric vehicle models (additional models may be potentially available in the future), and typically provides an 80% charge in less than 30 minutes. Installation of DCFC stations and grid requirements are typically greater than Level 2 charging stations, and are ideally suited for transportation hubs and locations between travel destinations.

We intend to enhance our current equipment offerings by developing and offering new generations of EV charging equipment in the second half of 2018. Blink's next generation of EV charging equipment, which we anticipate will be manufactured by Liteon, offers a modern, stylish appearance, the versatility of both wall and pedestal configurations, and peer-to-peer architecture, which provides the ability to support a single primary charger and multiple secondary chargers. Additionally, the next generation of our EV charging hardware is intended to considerably reduce the current standard charging times within the industry and add new robust Blink Network features, including near-field communication (NFC) payment capabilities.

EV Charging Services

- *Blink Network.* Our proprietary, cloud-based Blink Network allows us to share convenient and advantageous station management features and pertinent data with Property Partners and EV drivers through user interfaces. These features include real-time station status, payment processing, detailed charging session information, monitoring and troubleshooting stations remotely, as well as standard and customized reporting capabilities on, among others, energy dispensed, greenhouse gases reduced, oil barrels saved, and gallons of fuel saved.
- *Blink Mobile application.* Our proprietary mobile application, available for iOS and Android, provides EV drivers with vital station information, including the ability to locate EV charging stations on the Blink Network, view real-time station status information, pay and initiate EV charging sessions, become a Blink member, and manage their Blink account (billing information, radio frequency identification cards, text messaging, and email notifications).

We believe that we are unique in our ability to offer various business models to Property Partners and leverage our technology to meet the needs of both Property Partners and EV drivers. Our property partner business model options include:

1. **Host Owned:** The Property Partner purchases our EV charging equipment for use by EV drivers and pays for connectivity to the Blink Network as well as payment transaction fees.
2. **Blink Owned:** We provide EV charging equipment, which we own and maintain, and operate the EV charging services through our Blink Network and share a portion of the revenues generated from the stations with our Property Partner.
3. **Hybrid:** We also offer customized business models that meet individual Property Partner needs and combines features from the aforementioned business models.

Competitive Advantages/Operational Strengths

Early Mover Advantage: We continue to leverage our large and defensible first mover advantage and the digital customer experience we have created for both drivers and Property Partners. We have more than 114,000 drivers currently registered with Blink that appreciate the value of EV charging sessions on a leading, established, and robust network. We have thousands of Blink chargers deployed across the United States and the goal is to keep our Property Partners on one consistent network when expanding on any given property.

Long-Term Contracts with Property Owners: We have strategic and often long term agreements with location exclusivity for Property Partners across numerous transit/destination locations, including airports, car dealers, healthcare/medical, hotels, mixed-use, municipal locations, multifamily residential and condo, parks and recreation areas, parking lots, religious institutions, restaurants, retailers, schools and universities, stadiums, supermarkets, transportation hubs, and workplace locations. We have hundreds of Property Partners that include well-recognized companies, large municipalities, and local businesses. Some examples are Caltrans, Carl's Jr., City of Azusa, City of Chula Vista, City of Springfield, City of Tucson, Cracker Barrel, Federal Realty, Fred Meyer Stores, Inc., Fry's Food & Drug, Inc., Garage Management Company, Icon Parking, IKEA, iPark, JBG Associates, Kohls, Kroger Company, LAZ Parking, Macy's, McDonald's, Ralphs Grocery Company, Sears, Simon Properties, and SP+ Parking. We continue to establish new contracts with Property Partners that previously secured our services independently, or had contracts with the EV service providers that we acquired, including ECOtality, the former owner of the Blink related assets.

Flexible Business Model: We are able to offer and sell both EV charging equipment as well as access to our robust, cloud-based EV charging software, which we refer to as the Blink Network. We believe that we have an advantage in our ability to offer various business models to Property Partners and leverage our technology to meet the needs of both Property Partners and EV drivers.

Ownership and Control of EV Charging Stations and Services: We own a large percentage of our stations, which is a significant differentiation between us and some of our primary competitors. This ownership model allows us to control the settings and pricing for our EV charging services, service the equipment as necessary, and have greater brand management and price uniformity.

Experience with Products and Services of Other EV Charging Service Providers. From our early days and through our acquisitions, we have had the experience of owning and operating EV charging equipment provided by other EV charging service providers, including General Electric, ChargePoint, and SemaConnect. This experience has provided us with the working knowledge of the benefits and drawbacks of other equipment manufacturers and their applicable EV charging networks.

Our Strategy

Our objective is to continue to be a leading provider of EV charging solutions by deploying mass scale EV charging infrastructure, and by doing so, enable the accelerated growth of EV adoption and the EV industry. Key elements of our strategy include:

- **Relentless Focus on Customer Satisfaction.** Increase overall customer satisfaction with new and existing Property Partners and EV drivers by upgrading and expanding the EV charging footprint throughout high demand, high density geographic areas. In addition, improve productivity and utilization of existing EV charging stations, as well as to continue to enhance the valuable features of our EV charging station hardware and the Blink Network.
- **Leverage Our Early Mover Advantage.** We continue to leverage our large and defensible first mover advantage and the digital customer experience we have created for both drivers and Property Partners. We believe that there are tens of thousands of Blink driver registrants that appreciate the value of transacting charging sessions on a leading, established, and robust network experience. We have thousands of Blink chargers deployed across the United States and the tendency, among users, is to stay within one consistent network for expansion on any given property.
- **Expand Sales and Marketing Resources.** Our intention is to invest in sales and marketing infrastructure to capitalize on the growth in the market as well as to expand our go-to-market strategy. Today, we use a direct sales force and intend to continue to expand our efforts as well as invest in a wholesale channel go-to-market strategy that may include wholesale electrical distributors, independent sales agents, utilities, solar distributors, contractors, automotive manufacturers, and auto dealers.

- *Continue to Invest in Technology Innovation.* We will continue to enhance the product offerings available in our EV charging hardware, cloud-based software, and networking capability. This includes the design and launch of our next generation of EV charging solutions, including accelerating the charge currents currently available in EV charging hardware and new, robust Blink Network features in order to distance ourselves from the competition. Our key service solutions allow us to remain technology agnostic, and if market conditions shift, we have the option to leverage pure play hardware providers to augment our products.
- *Properly Capitalize Our Business.* We continue to pursue and welcome new potential capital sources to deliver on key operational objectives and the necessary resources to execute our overall strategy. The EV charger industry as a whole is undercapitalized to deliver the full potential of the expected EV market growth in the near future. We expect to retain our leadership position with new capital.

Sales

We currently maintain an in-house field sales force that maintains business relationships with our Property Partners and develops new sales opportunities through lead generation and marketing. We also sell our EV charging hardware, software services (connectivity to Blink Network), and service plans through reseller partners, which then sell these products and services to property representatives and/or hosts.

Marketing is performed by our in-house staff. To promote and sell our services to property owners and managers, parking companies, and EV drivers, we also utilize marketing and communication channels including press releases, email marketing, website (www.blinkcharging.com), Google AdWords, and social media. The information on our websites is not, and will not be deemed, a part of this prospectus or incorporated into any other filings we make with the SEC.

We continue to invest in the improvement of the service and maintenance of our Company-owned stations, as well as those stations with a service and maintenance plans, and expanding our cloud-based network capabilities. We anticipate continuing to expand our revenues by selling our next generation of EV charging equipment to current as well as new Property Partners, which includes airports, auto dealers, healthcare/medical, hotels, mixed-use, municipal locations, multifamily residential and condos, parks and recreation areas, parking lots, religious institutions, restaurants, retailers, schools and universities, stadiums, supermarkets, transportation hubs, and workplace locations, expanding our sales channels to wholesale distributors, utilities, auto original equipment manufacturers (“OEMs”), solar integrators, and dealers, which will include implementing EV charging station occupancy fees (after charging is completed, fees for remaining connected to the charging station beyond an allotted grace period), and subscription plans for EV drivers on our Blink-owned public charging locations.

Our revenues are primarily derived from fees charged to EV drivers for EV charging in public locations, EV charging hardware sales, and government grants. EV charging fees to EV drivers are based either on an hourly rate, a per kilowatt-hour (“kWh”) rate, or by session, and are calculated based on a variety of factors, including associated station costs and local electricity tariffs. EV charging hardware is sold to our Property Partners such as Green Commuter, IKEA, Nashville Music Center, and Wendy’s. In addition, other sources of fees from EV charging services are network fees and payment processing fees paid by our Property Partners.

Our Customers and Partners

We have strategic partnerships across numerous transit/destination locations, including airports, auto dealers, healthcare/medical, hotels, mixed-use, municipal locations, multifamily residential and condos, parks and recreation areas, parking lots, religious institutions, restaurants, retailers, schools and universities, stadiums, supermarkets, transportation hubs, and workplace locations. We have hundreds of Property Partners that include well-recognized companies, large municipalities, and local businesses. Some examples are Caltrans, City of Azusa, City of Chula Vista, City of Springfield, City of Tucson, Cracker Barrel, Federal Realty, Fred Meyer Stores, Inc., Fry's Food & Drug, Inc., IKEA, JBG Associates, LLC, Kroger Company and Ralphs Grocery Company. We continue to establish new contracts with Property Partners that previously secured our services independently, or had contracts with the EV services providers that we acquired, including ECOTality, the former owner of the Blink related assets.

Our revenues are primarily derived from EV charging hardware sales to our Property Partners, fees from public EV charging services to EV drivers, government grants, and marketing incentives. EV charging fees to EV drivers are based either on an hourly rate, a per kWh rate, or by session, and are calculated based on a variety of factors, including associated station costs and local electricity tariffs. In addition, other sources of fees from EV charging services are network fees and payment processing fees paid by our Property Partners.

We continue to invest in the improvement of the service and maintenance of our Company-owned stations, as well as those stations with a service and maintenance plans, and expanding our cloud-based network capabilities. We anticipate continuing to expand our revenues by selling our next generation of EV charging equipment, expanding our sales channels, and implementing EV charging station occupancy fees (after charging is completed, fees for remaining connected to the charging station beyond an allotted grace period), subscription plans for our Blink-owned public charging locations, and advertising fees.

Competition

The EV charging equipment and service market is highly competitive and we expect the market to become increasingly competitive as new entrants enter this growing market. Our products and services compete on the basis of product performance and features, total cost of ownership, sales capabilities, financial stability, brand recognition, product reliability and size of installed base. Our existing competition currently includes ChargePoint, which manufactures EV charging equipment and operates the ChargePoint Network; and EVgo, which offers home and public charging with pay-as-you-go and subscription models. There are other entrants into the connected EV charging station equipment market, such as General Electric, SemaCharge, EVConnect, and Greenlots. We believe these additional competitors struggle with gaining the necessary network traction but could gain momentum in the future. While Tesla does offer EV charging services, the connector type utilized currently restricts the chargers to Tesla vehicles. There are many other large and small EV charger companies that offer non-networked or "basic" chargers that have limited customer leverage, but could provide a low-cost solution for basic charger needs in commercial and home locations.

We believe we have competitive advantages over our competitors, such as our long-term contracts with property owners and managers, and our flexible business model where we are able to sell both EV charging stations as well provide access to a leading EV charging network. However, many of our current and expected future competitors have considerably greater financial and other resources than we do, and may leverage those resources to compete effectively.

Government Regulation and Incentives

State, regional, and local regulations for installation of EV charging stations vary from jurisdiction to jurisdiction and may include permitting requirements, inspection requirements, licensing of contractors, and certifications as examples. Compliance with such regulation(s) may cause installation delays.

Currently, we apply charging fees by the kWh for our services in states that permit this policy and hourly and by session for our services in states that do not permit per kWh pricing. California, Colorado, District of Columbia, Florida, Hawaii, Illinois, Maryland, Massachusetts, Minnesota, New York, Oregon, Pennsylvania, Utah, Virginia, and Washington have determined that companies that sell EV charging services to the public will not be regulated as utilities, therefore, allowing us to charge fees based on kW usage. These individual state determinations are not binding on any other regulator or jurisdiction; however, they demonstrate a trend in the way states view the industry. Other jurisdictions are in the process of adopting such reforms.

We intend to continue to vigorously seek additional grants, loans, rebates, subsidies, and incentives as a cost effective means of reducing our capital investment in the promotion, purchase, and installation of charging stations where applicable. We expect that these incentives, rebates, and tax credits will be critical to our future growth. Additionally, there are incentives that are currently offered to support electric car adoption at the federal, state, and local levels, including a \$7,500 federal income tax credit, and rebates/credits in California, Colorado, Delaware, Louisiana, Massachusetts, New York, and Rhode Island.

CESQG

As a Conditionally Exempt Small Quantity Generator (“CESQG”), we generate a limited quantity of hazardous waste, mostly solvent contaminated wipes that are transported to the local solid waste facility. Scrapped electronic boards are transported to a local recycler. A CESQG of hazardous waste is a generator that:

- Produces no more than 100 kg (220lbs) of hazardous waste per month;
- Produces no more than 1 kg (2.2lbs) of acute hazardous waste per month;
- Does not accumulate more than 1000 kg(2204lbs) of hazardous waste on-site; and
- a CESQG has no time limit for accumulation.

The use of our machinery and equipment must comply with the following applicable laws and regulations, including safety and environmental regulations:

- General Safety for all employees- includes health hazard communication, emergency exit plans, electrical safety-related work practices, office safety, and hand and hand-powered tools.
- Technicians and Engineers- Only authorized persons (technicians and engineers) perform product testing and repair in the production and engineering areas of the facility. Also, including those engineers involved in field service work. Regulations include control of hazardous energy, and personal protective equipment.

- Logisticians- includes forklift operations, which are performed only by certified shipping/receiving personnel, and material handling and storage.

We are in full compliance with the environmental regulations in the General Industry category applicable to us as a CESQG.

OSHA

We are subject to the Occupational Safety and Health Act of 1970, as amended (“OSHA”). OSHA establishes certain employer responsibilities, including maintenance of a workplace free of recognized hazards likely to cause death or serious injury, compliance with standards promulgated by the Occupational Safety and Health Administration and various record keeping, disclosure and procedural requirements. Various standards, including standards for notices of hazards, safety in excavation and demolition work and the handling of asbestos, may apply to our operations. We are in full compliance with OSHA regulations.

NEMA

The National Electrical Manufacturers Association (“NEMA”) is the association of electrical equipment and medical imaging manufacturers. NEMA provides a forum for the development of technical standards that are in the best interests of the industry and users, advocacy of industry policies on legislative and regulatory matters, and collection, analysis, and dissemination of industry data. All three of the Company’s products comply with the NEMA standards that are applicable to such products.

CAFÉ Standards

The regulations mandated by the Corporate Average Fuel Economy (“CAFE”) standards set the average new vehicle fuel economy, as weighted by sales, that a manufacturer’s fleet must achieve. Although we are not a car manufacturer and are thus not directly subject to the CAFÉ standards, we believe such standards may have a material effect on our business. The Energy Independence and Security Act of 2007 raised the fuel economy standards of America’s cars, light trucks, and Sport Utility Vehicles (“SUVs”) to a combined average of at least 35 miles per gallon by 2020—a 10 mpg increase over 2007 levels—and required standards to be met at maximum feasible levels through 2030. Building on the success of the first phase of the National Program, the second phase of fuel economy and global warming pollution standards for light duty vehicles covers model years 2017–2025. These standards were finalized by the U.S. Environmental Protection Agency and U.S. Department of Transportation in August 2012. These new standards will reduce average global warming emissions of new passenger cars and light trucks to 163 grams per mile (g/mi) in model year 2025. This is equivalent to 54.5 miles per gallon (mpg), if the standards were met exclusively with fuel efficiency improvements. Manufacturers may choose to comply with these standards by manufacturing more EVs which will mean that more charging stations of the type we manufacture will be needed.

Intellectual Property

We rely on a combination of patent, trademark, copyright, unfair competition and trade secret laws, as well as confidentiality procedures and contractual restrictions, to establish, maintain and protect our proprietary rights. Our success depends in part upon our ability to obtain and maintain proprietary protection for our products, technology and know-how, to operate without infringing the proprietary rights of others, and to prevent others from infringing our proprietary rights.

As of February 13, 2018, we had 4 patents issued in the U.S. (in the name of Ecotality, Inc., whose assets we acquired in October 2013). These patents relate to various EV charging station designs. We intend to continue to regularly assess opportunities for seeking patent protection for those aspects of our technology, designs and methodologies that we believe provide a meaningful competitive advantage. However, our ability to do so may be limited until such time as we are able to generate cash flow from operations or otherwise raise sufficient capital to continue to invest in our intellectual property. For example, maintaining patents in the United States and other countries requires the payment of maintenance fees which, if we are unable to pay, may result in loss of our patent rights. If we are unable to do so, our ability to protect our intellectual property or prevent others from infringing our proprietary rights may be impaired.

Employees

As of February 13, 2018, we have 21 full-time and 8 part-time employees. Our full-time employees work in the following places: 10 are located at our headquarters in Hollywood, Florida, 7 full-time employees and 8 part-time employees are located in Phoenix, Arizona, 1 full-time employee is located in Los Gatos, California, 1 full-time employee located in the greater Los Angeles, California area, 1 full-time employee is located in New York, New York and 1 full-time employee is located in Portland, Oregon. None of our employees are represented by a union or covered by a collective bargaining agreement. We have not experienced any work stoppages and we consider our relationship with our employees to be good.

Other Corporate Information

Blink Charging Co., a Nevada corporation, is the parent company of Car Charging, Inc., a Delaware corporation, which serves as the main operating company and is, in turn, the parent company of several distinct wholly-owned subsidiary operating companies including, but not limited to, eCharging Stations LLC, Blink, Beam Charging LLC and EV Pass LLC. Car Charging Group, Inc. was formed in the State of Nevada on October 3, 2006, under our prior name, New Image Concepts, Inc. New Image Concepts, Inc. changed its name to Car Charging Group, Inc., on December 8, 2008. On August 17, 2017, Car Charging Group Inc. changed its name to Blink Charging Co. Car Charging, Inc. was incorporated in Delaware on September 8, 2009. We purchased the assets referred to as the Blink Network from ECotality, Inc. on October 16, 2013. From April 22, 2013 to April 16, 2014, 350 Green was a wholly-owned subsidiary of the Company in which the Company had full control and was consolidated. Beginning on April 17, 2014, when 350 Green's assets and liabilities were transferred to a trust mortgage, 350 Green became a VIE. We determined that we were the primary beneficiary of 350 Green, and as such, 350 Green's assets, liabilities and results of operations are included in our consolidated financial statements. On May 18, 2017, each of 350 Green and Green 350 Trust Mortgage LLC filed to commence an assignment for the benefit of creditors, which results in their residual assets being controlled by an assignee in a judicial proceeding. As a result, as of May 18, 2017, 350 Green is no longer a VIE of the Company and, accordingly, 350 Green's approximately \$3.7 million of liabilities will, as of June 30, 2017, be deconsolidated from the Company's financial statements.

On January 29, 2018, the Board revised the bylaws of the Company such that the quorum for a meeting of shareholders shall be the holders of thirty-three and 34/100 percent (33.34%) of the issued and outstanding shares of the Company entitled to vote at a meeting.

We maintain our principal offices at 3284 N 29th Court, Hollywood, Florida 33020. Our telephone number is (305) 521-0200. Our Silicon Valley office houses our CEO. Our website is www.blinkcharging.com; we can be contacted by email at info@BlinkCharging.com. The information on our websites is not, and will not be deemed, a part of this prospectus or incorporated into any other filings we make with the SEC.

Property

We maintain our principal offices at 3284 N 29th Court, Hollywood, Florida 33020. We also had a five-year sublease for office and warehouse space in Phoenix, Arizona beginning December 1, 2013 and ending November 30, 2018. On February 28, 2017, we vacated the Phoenix, Arizona space and we have no further obligations in connection with the sublease. On May 22, 2017, the Company entered into a lease for 11,457 square feet of office and warehouse space in Phoenix, Arizona beginning June 1, 2017 and ending July 31, 2019. Monthly lease payments range from approximately \$6,300 to \$6,600 (with the Company paying approximately \$6,300 in total during the first three months of the lease) for a total of approximately \$155,000 for the total term of the lease.

Legal Proceedings

From time to time, we are a defendant or plaintiff in various legal actions that arise in the normal course of business. We record legal costs associated with loss contingencies as incurred and has accrued for all probable and estimable settlements.

With the exception of the foregoing, we are not involved in any material disputes and do not have any material litigation matters pending except:

There have been five lawsuits filed against 350 Green by creditors of 350 Green regarding unpaid claims. These lawsuits relate solely to alleged pre-acquisition unpaid debts of 350 Green. Also, there are other unpaid creditors, aside from those noted above, that claim to be owed certain amounts for pre-acquisition work done on behalf of 350 Green solely, that potentially could file lawsuits at some point in the future.

On August 7, 2014, 350 Green received a copy of a complaint filed by Sheetz, a former vendor of 350 Green alleging breach of contract and unjust enrichment of \$112,500. The complaint names 350 Green, 350 Holdings LLC and the Company in separate breach of contract counts and names all three entities together in an unjust enrichment claim. The Company and 350 Holdings will seek to be dismissed from the litigation, because, as the complaint is currently plead, there is no legal basis to hold the Company or 350 Green liable for a contract to which they are not parties. The Company settled with Sheetz and the parties signed two agreements on February 23, 2017: a General Release and Settlement Agreement and a Exclusive Electronic Vehicle Charging Services Agreement. The settlement involved a combination of DC charging equipment, installation, charging services, shared driver charging revenue and maintenance for two systems in exchange for no further legal action between 350 Holdings or the Company. The Exclusive Electronic Vehicle Charging Services Agreement with Sheetz is for a five (5) year term. Pursuant to the agreement, Blink shall remit to Sheetz gross revenue generated by electric vehicle charging fees and advertising, minus (i) any and all taxes, (ii) 8% transaction fees, (iii) \$18.00 per charger per month; and (iv) any electricity costs incurred by Blink ((i), (ii), (iii), and (iv) being referred to as the "Service Fees"). In the event the aggregate gross revenues are insufficient to cover the Service Fees incurred in a given month by the charging stations, such unpaid Service Fees will accrue to the following month. The agreement is subject to an automatic five year renewal unless written notice for the contrary is provided.

Concurrent with the closing of the offering, the Company will pay the former principals of 350 Green LLC \$25,000 in installment debt and \$50,000 within 60 days thereafter in settlement of a \$360,000 debt (inclusive of imputed interest) in accordance with a Settlement Agreement between the parties dated August 21, 2015 resulting in a gain of \$285,000.

LITIGATION UPDATES

On July 28, 2015, a Notice of Arbitration was received stating ITT Cannon has a dispute with Blink for the manufacturing and purchase of 6,500 charging cables by Blink, which had not taken delivery or made payment on the contract price of \$737,425. ITT Cannon also seeks to be paid the cost of attorney's fees as well as punitive damages. The Company contends that the product was not in accordance with the specifications in the purchase order and, as such, believes the claim is without merit. On June 13, 2017, Blink and ITT Cannon agreed to a settlement agreement. The parties agreed as follows: (a) the Blink purchase order dated May 7, 2014 for 6,500 charging cables is terminated, cancelled and voided; (b) three (3) business days following the closing date of a public offering of the Company's securities and listing of such securities on the NASDAQ, the Company shall issue to ITT Cannon shares of the same class of the Company's securities with an aggregate value of \$200,000; and (c) within seven (7) calendar days of the valid issuance of the shares in item (b) above, ITT Cannon shall ship and provide the remaining 6,500 charging cables to Blink and dismiss the arbitration without prejudice

On April 8, 2016, Douglas Stein filed a Petition for Fee Arbitration with the State Bar of Georgia against the Company for breach of contract for failure to pay invoices in the amount of \$178,893 for legal work provided. The invoices have been accrued for in the periods in which the services were provided. The Company has responded to the claim and is simultaneously pursuing settlement options. The parties failed to settle after numerous attempts. On February 15, 2017, the case was brought to the Georgia Arbitration Committee. On February 26, 2017, The Stein Law firm was awarded a summary judgment for \$178,893, which has been confirmed and converted into a judgment by the Superior Court of Fulton County, Georgia on August 7, 2017 in the amount of \$179,168, inclusive of court costs, which continues to accrue both interest at the rate of 7.25% per annum on that amount (since February 28, 2014), and costs to-date of \$40,000 which are hereby added to the foregoing judgment amount (all of which was accrued at September 30, 2017). In connection with perfecting the Georgia judgment in the State of New York, Mr. Stein served an Information Subpoena with Restraining Notice dated September 12, 2017 on the Representative (the "Restraining Notice"). The Restraining Notice seeks to force the Representative to pay the judgment amount directly out of the proceeds of this offering. On January 8, 2018, the Company and Mr. Stein signed a Forbearance Agreement pursuant to which Mr. Stein released the Representative from any restraints as a result of the Restraining Notice. Concurrent with the closing of the offering, the Company will pay \$187,893 to Douglas Stein pursuant to the Forbearance Agreement out of a total of \$223,168 (the first \$35,275 was paid by the Company to Mr. Stein between January 10, 2018 and February 13, 2018).

On May 18, 2016, the Company was served with a complaint from Solomon Edwards Group, LLC for breach of written agreement and unjust enrichment for failure to pay invoices in the amount of \$172,645 for services provided, plus interest and costs. The invoices have been accrued for in the periods in which the services were provided. The Company has responded to the claim and is simultaneously pursuing settlement options. On May 9, 2017, the Company issued 7,281 shares of Common Stock to Solomon Edwards Group, LLC in satisfaction of \$121,800 of the Company's liability. The Company will pay \$63,445 to Solomon Edwards Group LLC over the course of eleven (11) months pursuant to a Settlement Agreement and Release between the Company and the counterparty, dated November 28, 2017.

On September 9, 2015, the United States Court of Appeals for the Seventh Circuit of Chicago, Illinois affirmed the ruling of the United States District Court for the Northern District of Illinois in the matter of JNS Power & Control Systems, Inc. v. 350 Green, LLC in favor of JNS, which affirmed the sale of certain assets by 350 Green to JNS and the assumption of certain 350 Green liabilities by JNS. On April 7, 2016, JNS amended the complaint to add the Company alleging an unspecified amount of lost revenues from the chargers, among other matters, caused by the defendants. Plaintiff also seeks indemnity for its unspecified costs in connection with enforcing the Asset Purchase Agreement in courts in New York and Chicago. On July 26, 2017, the District Court denied the Company's motion to dismiss the Company from the suit. The Company filed its answer and affirmative defenses to the second amended complaint on August 17, 2017. The deadline for the parties to complete discovery was December 8, 2017. The next status hearing on the matter is set for March 1, 2018. We believe our legal position is strong on any potential corporate veil-piercing arguments with regard to our former subsidiary, however, if this position is challenged and not upheld, it could have a material adverse effect on our business. As of September 30, 2017, the Company accrued a \$750,000 liability in connection with its settlement offer to JNS. On February 2, 2018, the parties entered into an asset purchase agreement whereby the parties have agreed to settle the litigation. The Company will purchase back the EV chargers it previously sold to JNS for: (a) shares of Common Stock worth \$600,000 with a price per share equal to the price per share of this offering; (b) \$50,000 cash payment within ten days of the closing of this offering; and (c) \$100,000 cash payment within six months following the closing of this offering. JNS will file a motion to dismiss the lawsuit without prejudice within three business days of the \$50,000 payment. JNS will file a motion to convert the dismissal without prejudice to dismissal with prejudice within three business days of the \$100,000 payment.

On March 20, 2017, in connection with the Company's Miami Beach, Florida lease, the Company's landlord filed a complaint for eviction

with the Miami-Dade County Court against the Company as a result of the Company's default under the lease for failing to pay rent, operating expenses and sales taxes of approximately \$175,000, which represents the Company's obligations under the lease through March 31, 2017, which was accrued for as of September 30, 2017. Concurrent with the closing of the offering, the Company will pay \$234,000 to the landlord pursuant to a Settlement Agreement and Release between the Company and the counterparty, dated January 19, 2018.

Family Relationships

There are no family relationships between any of our officers or directors.

Director Independence

Our Common Stock and warrants are listed on the NASDAQ. Under the rules of NASDAQ, “independent” directors must make up a majority of a listed company’s board of directors. In addition, applicable NASDAQ rules require that, subject to specified exceptions, each member of a listed company’s audit and compensation committees be independent within the meaning of the applicable NASDAQ rules. Audit committee members must also satisfy the independence criteria set forth in Rule 10A-3 under the Exchange Act.

Our Board has undertaken a review of the independence of each director and considered whether any director has a material relationship with us that could compromise his ability to exercise independent judgment in carryout his responsibilities. As a result of this review, our Board determined that Messrs. Shapiro, Schweitzer, and Engel qualify as “independent” directors within the meaning of the NASDAQ rules. As a result, a majority of our directors are independent, as required under applicable NASDAQ rules. As required under applicable NASDAQ rules, we anticipate that our independent directors will meet in regularly scheduled executive sessions at which only independent directors are present.

Board Composition

Our Board is currently composed of five members. Our articles of incorporation and our bylaws permit our stockholders to establish by resolution the authorized number of directors, and six are currently authorized. Our directors hold office until their successors have been elected and qualified, or the earlier of their death, resignation or removal.

In addition, the Series C Certificate of Designation entitles the holders of our Series C Preferred Shares, exclusively and as a separate class, to elect one of our directors, whom we will refer to as our Series C Director. The Series C Director may be removed without cause, and only by the affirmative vote of the holders of the shares of our Series C Preferred Shares. Since the resignation of Kevin Evans on December 8, 2016, the Board has not had a Series C Director. The holders of our Series C Preferred Shares have the right to appoint a new Board member. Since February 7, 2017, BLNK Holdings, for which Mr. Farkas has voting power and investment power with regard to this entity’s holdings, owns over 75% of the Series C Preferred Shares outstanding. Upon the conversion of the Series C Preferred Shares at the closing of this offering, this right to elect a Board member shall be terminated.

Employment Agreements

Mr. Farkas' Employment Agreement. We entered into an employment agreement with Michael D. Farkas, our CEO at the time, on October 15, 2010 (the "Original Farkas Employment Agreement"). The agreement was for three years and stipulated a base salary of \$120,000 in year one, \$240,000 in year two and \$360,000 in year three. The agreement also included a signing bonus of \$60,000. At a Board meeting on April 17, 2014, the Board resolved to enter into a three-year contract with Mr. Farkas, whereby Mr. Farkas was due to receive a monthly salary of \$40,000 with an increase to \$50,000 per month in the event we became listed on a national securities exchange. On December 23, 2014, in connection with the closing and as a condition to the closing of the securities purchase agreement executed simultaneously therewith, we entered into an amendment to the employment agreement with Mr. Farkas (who was still CEO at that time) (the "First Amendment"). The First Amendment provided that Mr. Farkas was to have a salary of Forty Thousand Dollars (\$40,000) per month. However, for such time as any of the aggregate subscription amount from the December 2014 securities purchase agreement was still held in escrow, Mr. Farkas was to receive Twenty Thousand Dollars (\$20,000) in cash and the remaining amount of his compensation: (i) was to be deferred; and (ii) was to be determined by the compensation committee of the Board to be fair and equitable. Additionally, beginning on the date that the aggregate subscription amount was released from escrow and continuing for so long as the Series C Preferred Shares remained issued and outstanding, Mr. Farkas' salary was only to be paid in cash if doing so would not have put us in a negative operating cash flow position. Effective July 24, 2015, we again amended our employment agreement with Mr. Farkas, such that Mr. Farkas was appointed our Chief Visionary Officer and was no longer our CEO (the "Second Amendment"). Mr. Farkas continued to serve as our Executive Chairman of the Board. The Second Amendment called for Mr. Farkas to serve as Chief Visionary Officer for only four months. The Second Amendment specified the following: (i) in the event of a sale of the Company within one year of July 24, 2015, Mr. Farkas was to be entitled to receive an incentive payment equal to 1% of the gross sale price; and (ii) in satisfaction of amounts previously owed to Mr. Farkas, we were to issue Series C Preferred Shares valued at \$400,000. The one year elapsed without a sale of our Company and the 4,444 Series C Preferred Shares were issued 4,000 on July 24, 2015 and 444 on March 31, 2016. All options and warrants that had been previously awarded to Mr. Farkas vested as of July 24, 2015. Effective June 15, 2017, we and Mr. Farkas entered into the Third Amendment. This Third Amendment was approved by the Compensation Committee and the Board as a whole (with Mr. Farkas recusing himself from the vote regarding the Third Amendment). The Third Amendment clarified that, on a going-forward basis, the Executive Chairman position held by Mr. Farkas is the principal executive officer of the Company. Mr. Farkas will hold this position for a term of three (3) years, with an automatic one (1) year renewal unless either party terminates Mr. Farkas' employment with the Company at least sixty (60) days prior to the expiration of the term. We agreed that Mr. Farkas was paid \$20,000 per month from July 24, 2015 to November 24, 2015 and we agreed to pay Mr. Farkas the equivalent of \$15,000 per month in cash compensation for the past eighteen (18) months (from December 1, 2015 through May 31, 2017), or \$270,000. Prior to entering into the Original Farkas Employment Agreement, the Company and an entity controlled by Mr. Farkas entered into: (i) that certain Consulting Agreement dated October 20, 2009 (the "Consulting Agreement"); and (ii) that certain Car Charging Group, Inc. Fee/Commission Agreement dated November 17, 2009 (the "Fee Agreement") and, after entering into the Original Farkas Employment Agreement, the parties entered into that certain Patent License Agreement dated March 29, 2012 among the Company, Mr. Farkas and Balance Holdings, LLC and the March 11, 2016 Agreement regarding the Patent License Agreement (collectively with the Fee Agreement and the Consulting Agreement, the "Affiliate Agreements").

Concurrent with the closing of this offering, the Company will pay Mr. Farkas: (i) \$80,000 to Mr. Farkas in repayment of accrued cash compensation for the period of July 2015 through November 2015; (ii) 223,456 units of unregistered shares of Common Stock and warrants issuable as payment of \$712,500 in shares of Common Stock owed to Mr. Farkas for the period of December 1, 2015 through May 31, 2017 pursuant to the Third Amendment and pursuant to a Conversion Agreement between the Company and Mr. Farkas, dated August 23, 2017 divided by the public offering price of \$4.25 multiplied by 80%; (iii) 153,039 units of unregistered shares of Common Stock and warrants issuable as payment of (a) \$375,000 in shares of Common Stock owed to Mr. Farkas for accrued commissions on hardware sales and revenue from charging stations for the period of November 2015 through March 2017 pursuant to the Third Amendment divided by the public offering price of \$4.25 multiplied by 80%; (b) \$145,334 in shares of Common Stock owed to Mr. Farkas for accrued commissions on hardware sales and revenue from charging stations for the period of April 2017 through February 13, 2018 pursuant to an oral agreement between the Company and Mr. Farkas divided by the public offering price of \$4.25 multiplied by 80%. This oral agreement was reached pursuant to Section 7(B) of the Third Amendment; (iv) 74,753 shares of Common Stock issuable as payment of \$221,009 owed to BLNK Holdings, in principal and interest pursuant to a Conversion Agreement between the Company and BLNK Holdings, dated August 23, 2017 based upon the Formula. Mr. Farkas is also due to receive 886,119 shares of Common Stock issuable pursuant to a letter agreement, dated December 6, 2017. Mr. Farkas will also receive options (regardless of the status of the offering) for 7,000 shares of our Common Stock at an exercise price of \$30.00 per share and options for 8,240 shares of our Common Stock at an exercise price of \$37.50 per share in connection with amounts owed pursuant to the Third Amendment. With the exception of the Farkas additional amounts for the period of April 2017 through February 13, 2018 pursuant to an oral agreement between the Company and Mr. Farkas (which oral agreement was reached pursuant to Section 7(B) of the Third Amendment), the Third Amendment resolves all claims Mr. Farkas had with regard to the Affiliate Agreements. Pursuant to the Third Amendment, Mr. Farkas will be entitled to salary and benefits for eighteen (18) months if he is terminated for a reason other than for cause (defined in the Original Farkas Employment Agreement as a conviction for committing or participating in an injurious act that constitutes fraud, gross negligence, misrepresentation, or embezzlement with regard to the Company). Pursuant to the December 6, 2017 letter agreement between the Company and Mr. Farkas, at the closing of this offering, Mr. Farkas' monthly salary will be \$40,000 of cash compensation.

Omnibus Incentive Plans

We have adopted four omnibus incentive plans. On November 30, 2012, the Board, as well as a majority of our stockholders, approved our 2012 Omnibus Incentive Plan (the "2012 Plan"). On January 11, 2013, the Board approved our 2013 Omnibus Incentive Plan (the "2013 Plan") and a majority of our stockholders approved the 2013 Plan on February 13, 2013. On March 31, 2014, the Board approved our 2014 Omnibus Incentive Plan (the "2014 Plan") and a majority of our stockholders approved the 2014 Plan on April 17, 2014. On February 10, 2015, the Board approved our 2015 Omnibus Incentive Plan (the "2015 Plan," and together with the 2012 Plan, the 2013 Plan and the 2014 Plan, the "Plans," and each a "Plan") and a majority of our stockholders approved the 2015 Plan on April 21, 2015. The Plans are substantially similar. The Plans enable us to grant options, stock appreciation rights (SARs), restricted stock, restricted stock units, phantom stock and dividend equivalent rights to our employees, directors, consultants, and advisors or any affiliate (as defined in applicable Plan), and to improve our ability or an affiliate to attract, retain, and motivate individuals upon whom our sustained growth and financial success depend, by providing such persons with an opportunity to acquire or increase their proprietary interest in us. Any of these awards may be made as performance incentives to reward attainment of annual or long-term performance goals, which awards are anticipated to result in "performance-based" compensation (as that term is used for purpose of Section 162(m) of the Internal Revenue Code). The material terms of the Plans are summarized below.

Administration. The Plans are administered by the Board, or, in the discretion of the Board, by a committee composed of two (2) or more members of the Board (the “committee”). To the extent possible, and to the extent the Board deems it necessary or appropriate, each member of the committee will be a non-employee director and an outside director; however, the Board may designate two or more committees to operate and administer the Plans. The committee will authority to (i) determine the optionees and grantees to whom and the times at which options and awards will be granted, (ii) determine the price at which options will be granted, (iii) determine the type of option to be granted and the number of shares of Common Stock subject to the option, (iv) determine the number of shares of Common Stock to be granted pursuant to each award, and (v) approve the form and terms and conditions of the documents for each option and award; all subject, however, to the express provisions of the Plans. The interpretation and construction by the committee of any provisions of the Plans or of any option or award granted under it will be final, binding and conclusive.

Authorized Shares. The aggregate maximum number of shares of Common Stock for which options or awards may be granted pursuant to each Plan is 100,000, as adjusted under the terms of the applicable Plan. If an option terminates or expires without having been fully exercised for any reason, or if any award or option is canceled or forfeited for any reason, the shares of the Common Stock for which the option was not exercised or that were canceled or forfeited pursuant to the award or option may again be the subject of any option or award granted under the Plans. Shares of Common Stock covered by an award option will be counted as used as of the award date or grant date, as applicable. Any shares of Common Stock that are subject to awards or options will be counted against the plan limit one (1) share of Common Stock for every one (1) share of Common Stock subject to an award or option. With respect to SARs, the number of shares of Common Stock subject to an award of SARs or phantom stock will be counted against the aggregate number of shares of Common Stock available for issuance under the Plans regardless of the number of shares of Common Stock actually issued to settle the SAR upon exercise. If any shares of Common Stock covered by an award or option granted under the Plans are not purchased or are forfeited or expire, or if an award or option otherwise terminates without delivery of any share of Common Stock subject thereto or is settled in cash in lieu of shares of Common Stock, then the number of shares of Common Stock counted against the aggregate number of shares of Common Stock available under the Plans with respect to such award or option will, to the extent of any such forfeiture, termination or expiration, again be available for granting awards or options under the Plans.

Stock Options. The terms and conditions of the options will be specified in an option document. Options granted under the Plans may be Non-Qualified Stock Options or Incentive Stock Options (“ISOs”), within the meaning of Section 422(b) of the Internal Revenue Code of 1986 (the “Code”), except that options granted to outside directors and any consultants or advisers providing services to our Company or an affiliate will in all cases be Non-Qualified Stock Options. The maximum number of shares of Common Stock for which options may be granted to any single optionee in any fiscal year under each Plan is 30,000, as adjusted under the terms of the applicable Plan. Options are granted pursuant to option documents approved by the committee. The exercise price of an option will be at least 100% of the fair market value of a share of Common Stock on the date of grant as determined by the committee. With respect to an ISO granted to an optionee that owns more than 10% of the total combined voting power of all classes of our stock or an affiliate, then the exercise price per share may not be less than 110% of the fair market value of a share of Common Stock on the date the option is granted. In no event will the aggregate fair market value of the shares of Common Stock with respect to an ISO is exercisable for the first time by the optionee during any calendar year exceed \$100,000. Options granted under the Plans will have an option term specified in the option documents, which will not exceed (i) three years from the date of grant, or (ii) three years from the date of grant of an ISO if the optionee on the date of grant owns, directly or by attribution under Section 424(d) of the Code, shares of capital stock possessing more than ten percent (10%) of the total combined voting power of all classes of capital stock of our Company or of an affiliate. No option may be exercised unless six months, or such greater period of time as specified in the option documents have elapsed from the date of grant. No repricings are permitted under the Plans without the approval of our stockholders.

SARs. The terms and conditions of SARs will be specified in an award document. The grant price of the SAR will be at least the fair market value of a share of Common Stock on the date of grant. SARs may be granted in conjunction with all or part of an option or award. Each SAR will terminate upon the expiration of not more than 10 years from the date of grant.

Restricted Stock and Restricted Stock Unit Awards. The terms and conditions of restricted stock and restricted stock units will be specified in an award document. No cash or other compensation will be required to be paid by a grantee for a restricted stock unit award. Unless otherwise provided in an award document, holders of restricted stock will have the right to vote such shares of Common Stock and the right to receive any dividends declared or paid with respect to such shares of Common Stock. Holders of restricted stock units will have no rights as stockholders of our Company. Restricted stock units are settled in stock and the award documents may provide that the grantee may be entitled to cash dividends. The committee may grant an unrestricted stock award to any grantee pursuant to which such grantee may receive shares of Common Stock free of any restrictions.

Phantom Stock. The terms and conditions of phantom stock will be specified in an award document. No cash or other compensation will be required to be paid by a grantee for phantom stock. Phantom stock will be settled in cash equal to the fair market value of a share of Common Stock for each phantom stock and the aggregate amount of cash dividends paid with respect to a share of Common Stock during the period commencing on the date on which the share of phantom stock was granted and terminating on the date the phantom stock vests. Holders of phantom stock will have no rights as stockholders of our Company.

Dividend Equivalent Rights. The terms and conditions of dividend equivalent rights will be specified in the award document. A dividend equivalent right is an award entitling the grantee to receive credits based on cash distributions that would have been paid on the shares of Common Stock specified in the dividend equivalent right (or other award to which it relates) if such shares of Common Stock had been issued to and held by the grantee.

Performance-Based Awards. The committee may grant awards of restricted stock, restricted stock units, SARs, phantom stock or dividend equivalent rights which will include vesting requirements based specifically on the attainment of one or more performance targets (as defined in the applicable Plan) applicable to any such award. No grantee will receive a performance-based award for shares of Common Stock in excess of 5,000,000 shares of Common Stock under the applicable Plan. The committee will establish one or more performance targets for each performance period (as defined in the applicable Plan). In establishing any performance target under the Plans, the committee will establish an objective target based upon one or more of the following business criteria (which may be determined for these purposes by reference to (i) our Company as a whole, (ii) any of our subsidiaries, operating divisions, business segments or other operating units, or (iii) any combination thereof): earnings before interest, taxes, depreciation, and amortization; profit before taxes; stock price; market share; gross revenue; net revenue; pretax income; net operating income; cash flow; earnings per share; return on equity; return on invested capital or assets; cost reductions and savings; return on revenues or productivity; loss ratio; expense ratio; combined ratio; product spread; or any variations or combinations of the preceding business criteria, which may also be modified at the discretion of the committee, to take into account extraordinary items or which may be adjusted to reflect such costs or expense as the committee deems appropriate. The committee may grant performance shares which are contingent rights to receive shares of Common Stock, where the right to receive all or a portion of such shares is subject to the same rules regarding performance-based awards.

Transferability. No option or SAR may be transferred except by will or the laws of descent and distribution; provided that (i) a Non-Qualified Stock Option may be transferred pursuant to the terms of a qualified domestic relations order (as defined in the applicable Plan), or (ii) if authorized in the award document a grantee may transfer, not for value, all or part of a SAR to any family member. No restricted stock, restricted stock unit or phantom stock may be transferred, provided that if authorized in the grant agreement a grantee may transfer, not for value, all or part of a phantom stock to any family member.

Change of Control. In the event of a change of control (as defined by the applicable Plan), the committee may take whatever action with respect to options and awards outstanding as it deems necessary or desirable, including, without limitation, accelerating the expiration or termination date or the date of exercisability, or removing any restrictions from or imposing any additional restrictions on any outstanding awards or options.

Adjustments on Changes in Capitalization. The aggregate number of shares of Common Stock and class of shares of Common Stock as to which options and awards may be granted hereunder, the limitation as to grants to individuals, the number of shares of Common Stock covered by each outstanding option or award, and the option price for each related outstanding option, will be appropriately adjusted in the event of a stock dividend, stock split, recapitalization or other change in the number or class of issued and outstanding equity securities resulting from a subdivision or consolidation of the Common Stock and/or, if appropriate, other outstanding equity securities or a recapitalization or other capital adjustment affecting the Common Stock which is effected without receipt of consideration by us. The committee will have authority to determine the adjustments to be made; provided, however, that no adjustment will be made that will cause an ISO to lose its status as such without the consent of the optionee, except for adjustments made in the event of a change of control.

Parachute Limitations. Notwithstanding any other provision of the applicable Plan or any other agreement (as defined in the applicable Plan), and notwithstanding any benefit arrangement (as defined in the applicable Plan), if the grantee is a “disqualified individual,” as defined in Section 280G(c) of the Code, any award held by that grantee and any right to receive any payment or other benefit under the applicable Plan will not become exercisable or vested to the extent that such payment or other benefit, taking into account all other payments or other benefits to or for the grantee under the applicable Plan, all other agreements, and all benefit arrangements, would cause any payment or benefit to the grantee under this Plan to be considered a “parachute payment” within the meaning of Section 280G(b)(2) of the Code as then in effect; provided that it is beneficial to the grantee (on an after-tax basis).

Plan Amendment or Termination. The Board may amend the Plan from time to time in such manner as it may deem advisable; provided, however that the Board may not: (i) change the class of individuals eligible to receive an ISO, (ii) increase the maximum number of shares of Common Stock as to which options or awards may be granted, or (iii) make any other change or amendment as to which stockholder approval is required under Rule 16b-3 promulgated under the Exchange Act (as defined in the applicable Plan), in each case without obtaining approval, within twelve months before or after such action, by (A) vote of a majority of the votes cast at a duly called meeting of the stockholders at which a quorum representing a majority of all of our outstanding voting stock is, either in person or by proxy, present and voting on the matter, or (B) a method and in a degree that would be treated as adequate under applicable state law for actions requiring stockholder approval, including, without limitation, by written consent of stockholders constituting a majority of the voting power of all shares of outstanding voting stock of our Company entitled to vote. No amendment to the Plans will adversely affect any outstanding option or award, however, without the consent of the optionee or grantee.

At this time, pursuant to the Additional Agreement, JMJ has the most favorable conversion formula. The Company will be using JMJ's conversion price of \$3.12 for its Series D Preferred Stock for the conversion of the 250,180 Series C Preferred Shares.

Private Placement Financings

Series C Preferred Shares Financing

In a series of transactions occurring between December 23, 2014 and June 30, 2016, we entered into securities purchase agreements (the “Series C Securities Purchase Agreements”) with certain investors (the “Purchasers”) for total gross proceeds to us of \$8,297,120. Pursuant to the Series C Securities Purchase Agreements, we issued the following to the Purchasers: (i) 110,342 shares of our Series C Preferred Shares and (ii) warrants, exercisable for a period of five years from the original issue date, to purchase an aggregate of 315,264 shares of Common Stock for an exercise price of \$52.50 per share.

In connection with the sale of our Series C Preferred Shares in December 2014, July 2015 and March 2016, we entered into registration rights agreements (the “Series C Registration Rights Agreements”) with certain investors, pursuant to which we agreed to register all of the shares of Common Stock underlying the Series C Preferred Shares and warrants to purchase our Common Stock purchased pursuant to such transactions, on registration statements to be filed with the SEC, and to use best efforts to cause the such registration statements to be declared effective under the Securities Act within certain time periods after the date of such sales of Series C Preferred Shares (the “Effectiveness Deadlines”). The Company did not meet the Effectiveness Deadlines, and as a result has incurred an obligation under the Series C Registration Rights Agreements to pay certain investors penalties. On May 8, 2017, the Company issued a total of 61,740 Series C Preferred Shares to forty-eight (48) stockholders as payment in full, among other items, of registration rights penalties accrued through March 31, 2017. We accrued registration rights penalties, inclusive of accrued interest, in an amount equal to \$11,677 for the period April 1, 2017 through June 30, 2017. On August 25, 2017, the Company issued 8,265 Series C Preferred Shares to forty-three (43) stockholders as payment in full, among other items, of registration rights penalties accrued for the period of April 1, 2017 through June 30, 2017. On November 29, 2017, the Company issued 9,119 Series C Preferred Shares to forty-five (45) stockholders as payment in full, among other items, of registration rights penalties accrued for the period of July 1, 2017 through September 30, 2017. The penalties and dividends have continued to accrue from October 1, 2017, and will continue to accrue through the time of the offering. With the conversion of all outstanding Series C Preferred Shares into shares of Common Stock at the time of the offering, the Company will no longer be accruing registration rights penalties.

In connection with the sale of our Series C Preferred Shares in March 2016, we also agreed that if we failed to achieve certain milestones and if the holders of the Series C Preferred Shares request a redemption of their shares pursuant to the Series C Certificate of Designation and we choose not to honor such request, then, following our receipt of notice from at least 60% of the holders of the Series C Preferred Shares, we will use reasonable efforts to sell substantially all of our assets. In the event we do not complete the sale of substantially all of our assets within the required time period, Michael D. Farkas has agreed to vote all shares of our voting capital stock registered in his name or beneficially owned by him in accordance with the instructions of at least 60% of the holders of the Series C Preferred Shares.

The following table summarizes the Series C Preferred Shares purchased by related parties in connection with the transaction described in this section. The terms of these purchases were the same as those made available to unaffiliated purchasers. As described under “Security Ownership of Certain Beneficial Owners and Management,” since February 7, 2017, BLNK Holdings owns all of the Company’s securities previously held by Eventide.

The loan is secured by a first priority lien on and continuing security interest in all of our assets. The entire principal amount and accrued interest on the note is past due and payable.

Concurrent with the closing of this offering, pursuant to a conversion agreement dated August 23, 2017 by and between the Company and BLNK Holdings, of the five promissory notes discussed above, BLNK Holdings agreed to receive \$213,102 in shares of Common Stock in accordance with the Formula.

On September 16, 2016, we issued a sixty-day convertible note in the principal amount of \$50,000 to FGI. Interest on the note accrues at a rate of 18% annually and is payable at maturity. The unpaid principal and accrued interest are convertible at the election of the holder into shares of Common Stock at \$35.00 per share. On August 7, 2017, we issued a sixty-day convertible note in the principal amount of \$50,000 to FGI. Interest on the note accrues at a rate of 15% annually and is payable at maturity. The unpaid principal and accrued interest are convertible at the election of the holder into shares of Common Stock at \$35.00 per share. On August 29, 2017, following the effectiveness of the Reverse Stock Split, FGI exercised, on a cashless basis, warrants for 3.1 million shares, accounted for as derivative liabilities, not subject to the Reverse Stock Split. The Company issued 2,990,404 shares of Common Stock to FGI as a result of the cashless exercise. As a result, since the exercised warrants were previously classified as a derivative liability, the Company recorded a mark-to-market adjustment during the three months ended September 30, 2017 of approximately \$43.9 million which was included within change in fair value of warrant liabilities on the condensed consolidated statement of operations. On November 20, 2017, JMJ confirmed in writing that it would not pursue a price reset of its outstanding warrants as a result of the FGI warrant exercise. The Company expects that this will result in a substantial reduction of the fair market value of JMJ's derivative liabilities (\$25 million on the September 30, 2017 balance sheet) in the fourth quarter of 2017.

On December 6, 2017, the Company and Mr. Farkas signed a letter agreement, pursuant to which, Mr. Farkas, on behalf of FGI, agreed that upon the closing of this offering, FGI will cancel 2,930,596 of its shares of Common Stock (of the 2,990,404 received).

If our Company enters into bankruptcy proceedings, all of the above convertible notes will not be subject to an automatic stay. In addition, these notes feature piggyback registration rights and give Mr. Farkas a first priority lien on and continuing security interest in all of our assets. With the exception of a June 24, 2016 convertible note for \$105,000 which has been repaid, the convertible notes in favor of FGI discussed above have matured and are past due. Mr. Farkas could seek to enforce the notes against us, which could have an adverse effect on our business and reduce the market price of our Common Stock.

License Agreements

On March 29, 2012, we, as Licensee, entered into an exclusive patent license agreement with Mr. Farkas, and Balance Holdings, LLC (an entity controlled by Mr. Farkas) as Licensor, whereby we agreed to pay a royalty of 10% of the gross profits received by us from commercial sales and/or use of two provisional patent applications, one relating to an inductive charging parking bumper and one relating to a process which allows multiple EVs to plug into an EV charging station simultaneously and charge as the current becomes available.

On March 11, 2016, we and Balance Holdings, LLC entered into an agreement related to the March 29, 2012 patent license agreement. The parties acknowledged that we have paid a total of \$8,525 in registration and legal fees for the U.S. Provisional Patent Application No. 61529016 (the "Patent Application") (related to the inductive charging parking bumper) to date. Effective March 11, 2016, the patent license agreement, solely with respect to the Patent Application and the parties' rights and obligations thereto, was terminated. Mr. Farkas agreed to be solely responsible for all future costs and fees associated with the prosecution of the patent application. In the event the Patent Application is successful, Mr. Farkas shall grant a credit to us in the amount of \$8,525 to be applied against any outstanding amount(s) owed to him. If we do not have any outstanding payment obligations to Mr. Farkas at the time the Patent Application is approved, Mr. Farkas shall remit the \$8,525 to us within twenty (20) days of the approval. The parties agreed to a mutual release of any claims associated with the patent license agreement. We have not paid nor incurred any royalties to date under the patent license agreement.

Other Transactions with Michael Farkas and Affiliates

On February 7, 2017, Eventide and BLNK Holdings completed a sales transaction. Eventide Fund sold all of the Company's securities that it owned (142,857 shares of Common Stock, 114,491 Series C Preferred Shares, warrants to purchase 524,604 shares of the Company's Common Stock, and all rights, claims, title, and interests in any securities of whatever kind or nature issued or issuable as a result of Eventide's ownership of the Company's securities) to BLNK Holdings for \$1 million. The result of this transaction is that it is now possible for Mr. Farkas to arrange for a change in control of the Company via (1) his veto power over changes to the Company's charter (Mr. Farkas, via his control of BLNK Holdings, now controls over 60% of the Series C Preferred Shares outstanding. This 60% control allows Mr. Farkas, pursuant to the Series C Certificate of Designation, to veto any changes to the Company's charter); and (2) the ability to control, via the conversion of Preferred Shares into shares of Common Stock, and the exercise of warrants, over 50% of the Company's voting shares.

We paid commissions to FGI totaling \$0, \$47,750 and \$40,250 during the years ended December 31, 2016, 2015 and 2014 for business development related to installations of EV charging stations by us in accordance with the support services contract. These amounts are recorded as compensation on the consolidated statement of operations. These amounts were paid pursuant to the Fee Agreement. The Fee Agreement calls for us to pay FGI \$500 for the first charging station installed at a client introduced by FGI and \$250 for each additional station. FGI also receives a quarterly commission payment equal to 5% of gross revenue generated by each car charging station installed as a result of FGI's efforts. At FGI's election, FGI may receive stock in lieu of a cash payment. FGI will also receive stock options/warrants upon achievement of certain installation targets: (i) stock options/warrants to purchase 2,000 shares at \$30.00 per share for 25 units; (ii) stock options/warrants to purchase 5,000 shares at \$30.00 per share for 100 units; (iii) stock options/warrants to purchase 10,000 shares at \$37.50 per share for 500 units; (iv) stock options/warrants to purchase 20,000 shares at \$37.50 per share for 1,000 units; and (v) for each additional 250 units, stock options/warrants to purchase 5,000 shares at \$50.00 per share for 1,001 units and above.

In addition, we paid \$52,500 in fees to FGI from January 1 to June 30, 2016 as a result of financings entered into by the Company.

Effective June 15, 2017 we entered into the Third Amendment to Mr. Farkas' employment agreement. Prior to entering into the Original Farkas Employment Agreement, the Company and an entity controlled by Mr. Farkas entered into the Affiliate Agreements.

Pursuant to the Third Amendment and the Conversion Agreement, upon the closing of this offering, Mr. Farkas will be paid or issued: (i) \$80,000 to Mr. Farkas in repayment of accrued cash compensation for the period of July 2015 through November 2015; (ii) 223,456 units of unregistered shares of Common Stock and warrants issuable as payment of \$712,500 in shares of Common Stock owed to Mr. Farkas for the period of December 1, 2015 through May 31, 2017 pursuant to the Third Amendment and pursuant to a Conversion Agreement between the Company and Mr. Farkas, dated August 23, 2017 divided by the public offering price of \$4.25 multiplied by 80%; (iii) 153,039 units of unregistered shares of Common Stock and warrants issuable as payment of (a) \$375,000 in shares of Common Stock owed to Mr. Farkas for accrued commissions on hardware sales and revenue from charging stations for the period of November 2015 through March 2017 pursuant to the Third Amendment divided by the public offering price of \$4.25 multiplied by 80%; (b) \$145,334 in shares of Common Stock owed to Mr. Farkas for accrued commissions on hardware sales and revenue from charging stations for the period of April 2017 through February 13, 2018 pursuant to an oral agreement between the Company and Mr. Farkas divided by the public offering price of \$4.25 multiplied by 80%. This oral agreement was reached pursuant to Section 7(B) of the Third Amendment; (iv) 74,753 shares of Common Stock issuable as payment of \$221,009 owed to BLNK Holdings, in principal and interest pursuant to a Conversion Agreement between the Company and BLNK Holdings, dated August 23, 2017 based upon the Formula. Mr. Farkas is also due to receive 886,119 shares of Common Stock issuable pursuant to a letter agreement, dated December 6, 2017. Mr. Farkas will also receive options (regardless of the status of the offering) for 7,000 shares of our Common Stock at an exercise price of \$30.00 per share and options for 8,240 shares of our Common Stock at an exercise price of \$37.50 per share in connection with amounts owed pursuant to the Third Amendment.

With the exception of the Farkas additional amounts for the period of April 2017 through February 13, 2018 pursuant to an oral agreement between the Company and Mr. Farkas (which oral agreement was reached pursuant to Section 7(B) of the Third Amendment), the Third Amendment resolves all claims Mr. Farkas had with regard to the Affiliate Agreements.

On July 28, 2016, the Company ("Sublandlord") entered into a sublease agreement with Balance Labs, Inc. ("Subtenant") (an entity controlled by Mr. Farkas) pursuant to which the Company agreed to sublease a portion of its Miami, Florida corporate headquarters to Subtenant. The term of the sublease agreement is from August 1, 2016 to September 29, 2018, subject to earlier termination upon written notice of termination by the landlord or Sublandlord. Throughout the term of the agreement, Subtenant will pay to Sublandlord fixed base rent and operating expenses equal to 50% of Sublandlord's obligation under its primary lease agreement, resulting in monthly base rent payments ranging from approximately \$7,500 to \$8,000 per month, for a total of approximately \$200,000 for the total term of the sublease agreement.

On August 3, 2016, we executed a consulting agreement with Ardour to serve as our financial advisor with respect to any private equity offerings, derivative equity offerings or debt offerings. As of February 13, 2018, Mr. Farkas owns less than 5% of Ardour. For acting as our placement agent, Ardour will receive a sales commission of 5% of the gross proceeds from any private equity offering and a five-year warrant to purchase 5% of the Common Stock from such private equity transaction with an exercise price struck at the valuation of the private equity transaction. Ardour will receive a sales commission of three percent of gross proceeds from a non-convertible debt related transaction whereby there is no equity component other than customary warrant coverage not in excess of 10% of the associated debt. Additionally, Joseph Gunnar & Co., LLC ("Gunnar") will receive a sales commission of 5% of the gross proceeds from any private equity offering and a five-year warrant to purchase 5% of the Common Stock from such private equity transaction with an exercise price struck at the valuation of the private equity transaction. As of February 13, 2018, JMJ had advanced \$3,500,000 to the Company. In connection with these advances, we have paid \$67,500 (and owe \$120,000) to Ardour as sales commissions and we have paid \$109,000 (and owe \$77,245) to Gunnar as sales commissions. Concurrent with the closing of the offering, the Company will issue 360,441 shares of Common Stock to Ardour in placement agent fees related to the JMJ Financing and the \$250,000 lent by JMJ to the Company on January 22, 2018 unrelated to the JMJ Financing.

In September 2016, we executed a consulting agreement with Balance Labs, Inc. (“Balance Labs”), an entity controlled by Mr. Farkas. Balance Labs will, among other services, work to establish strategic partnerships, identify customers, and identify hardware manufacturers. The consulting agreement calls for us pay a fee of 7% of any gross revenues realized by the Company as a result of Balance Labs’ introductions. Balance Labs will receive a fee, to the extent permitted by applicable federal or state law, of 5% with regard to any mergers (payable in-kind) of the aggregate consideration of the merger, sales of the Company, or our assets. There is also compensation tied to hardware sales (\$500 per unit) and any celebrity endorsements (18% of the compensation we pay) arranged by Balance Labs. Finally, if we execute an EV services agreement with a party introduced by Balance Labs and we retain ownership of the hardware, Balance Labs is entitled to 5% of the net revenues generated by the deployed hardware. We have not yet paid any commissions to Balance Labs pursuant to this contract.

Other Transactions

We entered into a Fee/Commission Agreement with our Chief Operating Officer, Ira Feintuch, on November 17, 2009 that is substantially similar to the Fee/Commission Agreement we entered into with FGI discussed above. The Fee/Commission Agreement calls for us to pay Mr. Feintuch \$500 for the first charging station installed at a client introduced by Mr. Feintuch and \$250 for each additional station. Mr. Feintuch also receives a quarterly commission payment equal to 5% of gross revenue generated by each car charging station installed as a result of Mr. Feintuch’s efforts. Mr. Feintuch has made certain claims for historical unpaid unquantifiable compensation pursuant to his Fee/Commission Agreement with the Company. The Company’s reasonable estimate of the aggregate liability for FGI and our Chief Operating Officer is \$445,000 (estimated as \$277,000 payable in cash and \$168,000 payable in stock options) which was accrued and is included within accrued expenses on the consolidated balance sheet as of December 31, 2016.

On June 16, 2017, the Company entered into a Compensation Agreement with Mr. Feintuch. The Compensation Agreement clarifies the accrued compensation owed to Mr. Feintuch under the Fee/Commission Agreement. Upon signing the Compensation Agreement, Mr. Feintuch received (i) options for 7,000 shares of the Company’s Common Stock at an exercise price of \$30.00 per share; and (ii) options for 9,600 shares of the Company’s Common Stock at an exercise price of \$37.50 per share.

In accordance with the Compensation Agreement with Mr. Feintuch, the Company will pay or issue to Mr. Feintuch (i) \$130,664 in cash which represents 75% of the accrued commissions on hardware sales and revenue from charging stations for the period of November 2015 through March 2017 owed to Mr. Feintuch pursuant to the Compensation Agreement; (ii) \$47,668 in cash which represents 75% of the accrued commissions on hardware sales and revenue from charging stations for the period of April 2017 through February 13, 2018 owed to Mr. Feintuch pursuant to an oral agreement between the Company and Mr. Feintuch. This oral agreement was reached pursuant to Section 3(B) of the Compensation Agreement; (iii) 17,487 units of unregistered shares of Common Stock and warrants issuable as payment of (a) \$43,555 in shares of Common Stock owed to Mr. Feintuch which represents 25% of the accrued commissions on hardware sales and revenue from charging stations for the period of November 2015 through March 2017 owed to Mr. Feintuch pursuant to the Compensation Agreement divided by the public offering price of \$4.25 multiplied by 80% and (b) \$15,902 in shares of Common Stock owed to Mr. Feintuch which represents 25% of the accrued commissions on hardware sales and revenue from charging stations for the period of April 2017 through February 13, 2018 owed to Mr. Feintuch pursuant to an oral agreement between the Company and Mr. Feintuch divided by the public offering price of \$4.25 multiplied by 80%. This oral agreement was reached pursuant to Section 3(B) of the Compensation Agreement. Mr. Feintuch will also receive options (regardless of the status of the offering) for 7,000 shares of our Common Stock at an exercise price of \$30.00 per share and options for 9,600 shares of our Common Stock at an exercise price of \$37.50 per share pursuant to his Compensation Agreement.

Mr. Feintuch agreed that his fee agreement is suspended and no payments are due thereunder (other than the payments specified in the Compensation Agreement) for as long as he is a full-time employee of the Company and is due to be paid a monthly salary of at least \$20,000.

Mr. Feintuch is also due to receive 26,500 shares of Common Stock issuable pursuant to a letter agreement, dated December 7, 2017.

With the exception of the Feintuch additional amounts for the period of April 2017 through February 13, 2018 pursuant to an oral agreement between the Company and Mr. Feintuch (which oral agreement was reached pursuant to Section 3(B) of the Compensation Agreement), the Compensation Agreement resolves all claims Mr. Feintuch had with regard to the Fee/Commission Agreement.

Director Independence

Our Common Stock and warrants are listed on the NASDAQ. NASDAQ Listing Rule 5605(a)(2) provides that an “independent director” is a person other than an officer or employee of the Company or any other individual having a relationship which, in the opinion of the Company’s board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The NASDAQ listing rules provide that a director cannot be considered independent if:

- the director is, or at any time during the past three years was, an employee of the company;
- the director or a family member of the director accepted any compensation from the company in excess of \$120,000 during any period of 12 consecutive months within the three years preceding the independence determination (subject to certain exclusions, including, among other things, compensation for board or board committee service);
- a family member of the director is, or at any time during the past three years was, an executive officer of the company;
- the director or a family member of the director is a partner in, controlling stockholder of, or an executive officer of an entity to which the company made, or from which the company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient’s consolidated gross revenue for that year or \$200,000, whichever is greater (subject to certain exclusions);
- the director or a family member of the director is employed as an executive officer of an entity where, at any time during the past three years, any of the executive officers of the company served on the compensation committee of such other entity; or the director or a family member of the director is a current partner of the company’s outside auditor, or at any time during the past three years was a partner or employee of the company’s outside auditor, and who worked on the company’s audit.

We have determined that Andrew Shapiro, Donald Engel and Robert Schweitzer are currently independent directors.

Disclosure of Commission Position on Indemnification of Securities Act Liabilities

Our directors and officers are indemnified as provided by the Nevada corporate law and our bylaws. We have agreed to indemnify each of our directors and certain officers against certain liabilities, including liabilities under the Securities Act. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the provisions described above, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than our payment of expenses incurred or paid by our director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

We have been advised that in the opinion of the SEC indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to a court of appropriate jurisdiction. We will then be governed by the court's decision.

All of the Series A, B and certain Series C Preferred Shares will convert into shares of Common Stock as described below.

Units

Each unit consists of one share of Common Stock and two warrants each to purchase one share of our Common Stock, each as described further below. The units will not be issued or certificated. Purchasers will receive only shares of Common Stock and warrants. The Common Stock and warrants may be transferred separately immediately upon issuance.

Common Stock

Dividend Rights

Subject to preferences that may apply to any shares of preferred stock outstanding at the time, the holders of our Common Stock may, pursuant to Article VI of our bylaws, receive dividends out of funds legally available if our Board, in its discretion, determines to issue dividends and then only at the times and in the amounts that our Board may determine. We have not paid any dividends on our Common Stock and do not contemplate doing so in the foreseeable future.

Voting Rights

In accordance with Nevada Revised Statute (“NRS”) Section 78.350, holders of our Common Stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders. We have not provided for cumulative voting for the election of directors in our Articles of Incorporation.

No Preemptive or Similar Rights

In accordance with NRS Section 78.267, our Common Stock is not entitled to preemptive rights and is not subject to conversion, redemption or sinking fund provisions.

Right to Receive Liquidation Distribution

In accordance with NRS Sections 78.565 to 78.620, if we become subject to a liquidation, dissolution or winding-up, the assets legally available for distribution to our stockholders would be distributable among the holders of our Common Stock and our participating preferred stock outstanding at that time, subject to prior satisfaction of all outstanding debt and liabilities and the preferential rights and payment of liquidation preferences on any outstanding shares of preferred stock.

Fully Paid and Non-Assessable

In accordance with NRS Sections 78.195 and 78.211 and the assessment of our Board, all of the outstanding shares of our Common Stock are, and the shares of our Common Stock to be issued pursuant to this offering will be, fully paid and non-assessable.

Preferred Stock

We are authorized to issue 40,000,000 shares of preferred stock, \$0.001 par value per share. Pursuant to our articles of incorporation, the Board is authorized to authorize and issue preferred stock and to fix the designations, preferences and rights of the preferred stock pursuant to a board resolution. Our Board may designate the rights, preferences, privileges and restrictions of the preferred stock, including dividend rights, conversion rights, voting rights, redemption rights, liquidation preference, sinking fund terms, and the number of shares constituting any series or the designation of any series. The issuance of preferred stock could have the effect of restricting dividends on our Common Stock, diluting the voting power of our Common Stock, impairing the liquidation rights of our Common Stock, or delaying, deterring, or preventing a change in control. Such issuance could have the effect of decreasing the market price of our Common Stock.

Series A Preferred Shares

The rights and preferences of the Series A Preferred Shares are as contained in the Series A Certificate of Designations, as amended (the "Series A Certificate of Designation"). The holders of Series A Preferred Shares shall not be entitled to receive dividends paid on the Common Stock. At any time on or after the date of issuance, the holder of any such Series A Preferred Shares may, at such holder's option, elect to convert all or any portion of the Series A Preferred Shares held by such person into a number of fully paid and non-assessable shares of Common Stock on a 2.5:1 basis. In the event of a liquidation, dissolution or winding up of the Company, the conversion rights shall terminate at the close of business on the last full day preceding the date fixed for the payment of any such amounts distributable on such event to the holders of Series A Preferred Shares. In the event of such a redemption or liquidation, dissolution or winding up, the Company shall provide to each holder of Series A Preferred Shares notice of such redemption or liquidation, dissolution or winding up, which notice shall (i) be sent at least fifteen (15) days prior to the termination of the conversion rights (or, if the Company obtains lesser notice thereof, then as promptly as possible after the date that it has obtained notice thereof) and (ii) state the amount per share of Series A Preferred Shares that will be paid or distributed on such redemption or liquidation, dissolution or winding up, as the case may be. No holder of Series A Preferred Shares shall be entitled to conduct a conversion which would result in such shareholder beneficial owning more than 4.99% of the outstanding shares of Common Stock of the Company after such conversion. For the purposes of the immediately preceding sentence, beneficial ownership shall be determined in accordance with Section 13(d) of the Exchange Act and Rule 13d-3 thereunder. As long as shares of the Series C Preferred Shares are outstanding, each share of Series A Preferred Shares has one vote per share based on the number of shares of Common Stock into which such Series A Preferred Shares are convertible and does not have any liquidation preference rights. The holders of the Series A Preferred Shares are not entitled to receive dividends. The Series A Preferred Shares are convertible into Common Stock at a ratio of 2.5 to 1 per share. Under the terms of the Series A Certificate of Designation, the Reverse Stock Split will not result in a proportionate adjustment to the conversion ratio of the Series A Preferred Shares. On June 23, 2017, the Company and Messrs. Farkas and Feintuch (the only holders of the Series A Preferred Shares) entered into letter agreements with the Company whereby they agreed that, upon the Company's implementation of the Reverse Stock Split, a total of 2,200,000 shares of Common Stock issuable upon conversion of the Series A Preferred Shares to Mr. Farkas (2,000,000 shares) and Mr. Feintuch (200,000 shares) would be issued. The Reverse Stock Split was implemented on August 29, 2017. On December 6, 2017 Mr. Farkas signed a letter agreement pursuant to which, upon the closing of this offering, his Series A Preferred Shares will automatically convert into 500,000 shares of Common Stock. On December 7, 2017 Mr. Feintuch signed a letter agreement pursuant to which, upon the closing of this offering, his Series A Preferred Shares will automatically convert into 50,000 shares of Common Stock.

Series B Preferred Shares

The rights and preferences of the Series B Preferred Shares are as contained in the Series B Certificate of Designation (together with the Series A Certificate of Designation and the Series C Certificate of Designation, the "Certificates of Designation"). The Series B Preferred Shares do not have voting rights with regard to our Company unless and until such shares are converted into Common Stock, in accordance with the Nevada Revised Statutes Section 78.350. The Series B Preferred Shares have liquidation preference rights on a pari passu basis with the Series C Preferred Shares. The holders of Series B Preferred Shares are not entitled to receive dividends. Under the Series B Certificate of Designation, for so long as any Series B Preferred Shares remain outstanding, we are restricted from paying cash dividends on any shares of our capital stock. The Series B Preferred Shares are convertible at the option of the holder into Common Stock at a ratio based on the average closing price per share of Common Stock over the 30-day period prior to each conversion date. In addition, the Series B Preferred Shares are convertible at the option of the holder upon certain events of default, including the failure to make payments under a tax sharing agreement entered into by and between us and certain parties, the enforcement of any rights granted in connection with an operating line of credit entered into with certain parties and a change of control transaction. The Series B Preferred Shares are redeemable at the option of the holder in three equal annual installments starting December 31, 2016, subject to certain earlier acceleration rights upon certain defaults by us, for \$100 per share. The Series B Preferred Shares are also redeemable, in full or in part, at our option for \$100 per share at any time and from time to time. On May 19, 2017, the holder of the Series B Preferred Shares signed a conversion agreement pursuant to which, at the closing of this offering, 8,250 Series B Preferred Shares will convert into 223,235 shares of Common Stock, which will result in an inducement charge of approximately \$124,000, by dividing the \$825,000 payable by the public offering price of \$4.25 and multiplying by a factor of 1.15.

Series C Preferred Shares

The rights and preferences of the Series C Preferred Shares are as contained in the Series C Certificate of Designation. Each share of Series C Preferred Shares is entitled to one vote per share based on the number of shares of Common Stock into which such Series C Preferred Shares are convertible, provided that if a holder of Series C Preferred Shares would be deemed an affiliate of our Company based on the number of shares a holder of Series C Preferred Shares would be entitled to vote, then the number of shares such holder will be entitled to vote will remain less than 9.99% of the number of shares of our Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock issuable upon the conversion of preferred stock held by the applicable holder. In addition, the affirmative vote of the holders of 60% of our Series C Preferred Shares will be required to amend the rights of the Series C Preferred Shares or amend the Series C Certificate of Designation or our articles of incorporation. The holders of the Series C Preferred Shares, exclusively and as a separate class, are entitled to elect one director.

Subject to the restriction on our ability to pay cash dividends contained in the Series B Certificate of Designation as described above, the holders of our Series C Preferred Shares are entitled to receive dividends at our sole discretion either in cash at a rate of 2% on the stated value of the shares of \$100, compounded quarterly, or in the form of additional Series C Preferred Shares at a rate of 2.5% on the stated value of the shares of \$100, compounded quarterly. Upon a liquidation, the Series C Preferred Shares are entitled to receive cash and any accrued or unpaid dividends. The Series C Preferred Shares has senior liquidation preference rights compared to the other classes of preferred shares and Common Stock, provided that the Series B Preferred Shares are entitled to receive distributions on a pari passu basis with the Series C Preferred Shares. The holders of the Series C Preferred Shares are entitled to convert their shares into shares of Common Stock at a conversion price of \$35.00, which is subject to adjustment for stock dividends and stock splits, sales of equity securities for a price per share lower than the applicable conversion price, subsequent rights offerings, pro rata distributions and certain fundamental transactions, such as a change of control. If we are unable to convert such shares into our Common Stock, we are subject to partial liquidated damages penalties.

The holders of our Series C Preferred Shares are entitled to redeem their shares at the request of holders representing at least 60% of the outstanding Series C Preferred Shares. In addition, we are permitted to redeem the Series C Preferred Shares at a price per share equal to 120% of the stated value of \$100, plus accrued but unpaid dividends.

At the closing of this offering, the 250,180 Series C Preferred Shares will convert into an aggregate of 9,124,264 shares of Common Stock. The majority (outside of those issued to Horton Capital) will be issued based upon the following formula: the number of outstanding Series C Preferred Shares (i) multiplied by a factor of 115, (ii) divided by \$3.12 (the conversion price of the Series D Preferred Stock to be issued to MJM). Horton Capital will be issued shares of Common Stock based on receiving shares worth \$2,700,000 (based on the number of outstanding Series C Preferred Shares owned by Horton, multiplied by a factor of 115 and then reduced for any amount in excess of \$2,700,000) (i) divided by the public offering price of \$4.25, (ii) multiplied by 80%. Of the 250,180 Series C Preferred Shares that will be outstanding as of the anticipated closing date of February 16, 2018 that are convertible into 9,124,264 shares of Common Stock in accordance with the formula, Mr. Farkas controls 5,732 Series C Preferred Shares in his own name and 185,222 Series C Preferred Shares held by BLNK Holdings, LLC in which Mr. Farkas has a controlling interest. Upon the closing of this offering, these 190,954 Series C Preferred Shares will convert into an aggregate of 7,038,369 shares of Common Stock. The majority of the shares are being converted pursuant to conversion agreements signed by holders of the Series C Preferred Shares and the remainder are being issued pursuant to the Series C Amendments. The conversion of the Series C Preferred Shares resulted in a deemed dividend of approximately \$9.7 million which was recognized by recording an offsetting debit and credit to additional paid-in capital because the Company has an accumulated deficit. The Series C Certificate of Designation (as amended) contains a provision that allows the Series C Preferred Shares holders to have the most favorable conversion formula agreed to by the Company with any investor. At this time, pursuant to the Additional Agreement, MJM has the most favorable conversion formula. The Company will be using MJM's conversion price of \$3.12 for its Series D Preferred Stock for the conversion of the 250,180 Series C Preferred Shares.

Liquidation Preference. In the event of our liquidation, dissolution or winding-up, holders of Series D Preferred Stock will be entitled to receive the same amount that a holder of our Common Stock would receive if the Series D Preferred Stock were fully converted into shares of our Common Stock at the conversion price (disregarding for such purposes any conversion limitations) which amounts shall be paid pari passu with all holders of Common Stock.

Voting Rights. Shares of Series D Preferred Stock will generally have no voting rights, except as required by law and except that the affirmative vote of the holders of a majority of the then outstanding shares of Series D Preferred Stock is required to, (a) alter or change adversely the powers, preferences or rights given to the Series D Preferred Stock, (b) amend our articles of incorporation or other charter documents in any manner that materially adversely affects any rights of the holders, (c) increase the number of authorized shares of Series D Preferred Stock, or (d) enter into any agreement with respect to any of the foregoing.

Piggyback Registration Rights

The holders of certain shares of our Common Stock including, but not limited to, those issuable upon the conversion of our preferred stock are entitled to certain “piggyback” registration rights. If we propose to register the offer and sale of shares of our Common Stock under the Securities Act, all holders of these shares then outstanding can request that we include their shares in such registration, subject to certain limitations. As a result, whenever we propose to file a registration statement under the Securities Act, other than with respect to (i) a registration on Form S-8 relating solely to employee stock option, stock purchase or other benefit plans, or (ii) a registration on Form S-4 relating solely to a transaction covered by Rule 145 promulgated under the Securities Act, the holders of these shares are entitled to notice of the registration and have the right, subject to certain limitations, to include their shares in the registration.

Company Sale Right and Voting Covenant

Pursuant to our Series C Registration Rights Agreement dated March 11, 2016, we agreed that if we fail to achieve certain milestones, and the holders of the Series C Preferred Shares request redemption of their shares pursuant to the Series C Certificate of Designation and we choose not to honor such request, then following our receipt of notice from at least 60% of the holders of the Series C Preferred Shares, we will use reasonable efforts to sell substantially all of our Company's assets. In the event we do not complete the sale of substantially all of our Company's assets within the required time period, Michael D. Farkas has agreed to vote all shares of voting capital stock of our Company registered in his name or beneficially owned by him in accordance with the instructions of at least 60% of the holders of the Series C Preferred Shares.

Warrants

As of February 13, 2018, we have issued warrants to purchase 105,136 shares of Common Stock issuable with a weighted average exercise price of \$44.93. Certain of the warrants granted by us contain various adjustment mechanisms, including anti-dilution protection for issuances of securities at a price below \$79.00, weighted average anti-dilution, restrictions on effectuating issuances of Common Stock or Common Stock equivalents containing variable settlement provisions, vesting provisions of varying duration.

JMJ Warrants

Pursuant to the terms of MJJ's warrants, the exercise price per share of Common Stock shall be the lesser of (i) 80% of the per share price of Common Stock in the offering, (ii) \$0.70 per share (or \$35 after giving effect to the Reverse Stock Split), (iii) 80% of the unit price of this offering (if applicable), (iv) the exercise price of any warrants issued in the offering, or (v) the lowest conversion price, exercise price, or exchange price of any security issued by us that is outstanding on the issue date. MJJ may also exercise the warrant, in whole or in part, by means of a "cashless exercise." If on the termination date, any portion of the warrant amount remains unexercised, the termination date will be extended for two years. Until such time up to and including the date on which the Company closes on the offering, if the Company shall dispose of or issue any Common Stock at an effective price per share less than the exercise price, then in effect the exercise price shall be adjusted. As of February 13, 2018, ten (10) warrants to purchase a total of 100,001 shares of the Company's Common Stock have been issued to MJJ. The aggregate exercise price is \$3,500,000.

Series C Holder Warrants

Pursuant to the terms of the Series C Shareholder's warrants, the exercise per share of Common Stock is \$50.00. The warrants may be exercised in full or in part (but not for a fractional share). The holder may also exercise this Warrant, in whole or in part, by means of a "cashless exercise." The holder will not have the right to exercise any portion of the warrant if the holder (together with its affiliates) would beneficially own in excess of 9.99% of the number of shares of our Common Stock outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of the warrants. If at any time following the effective date of the warrant, (a) the closing price of the Common Stock is equal to or greater than \$131.25 for a period of ten (10) consecutive trading days, the Company shall have the right to require the Holder to exercise all or any portion of the warrant. If the Company elects to cause a forced exercise as described above, then it must simultaneously take the same action with respect to the other warrants.

Warrants to Be Issued in the Offering

The following summary of certain terms and provisions of the warrants offered hereby is not complete and is subject to, and qualified in its entirety by the provisions of the form of warrant, which is filed as an exhibit to the registration statement of which this prospectus is a part. Prospective investors should carefully review the terms and provisions set forth in the form of warrant.

Exercisability. The warrants are exercisable at any time after their original issuance and at any time up to the date that is five years after their original issuance. The warrants will be exercisable, at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice and, at any time a registration statement registering the issuance of the shares of Common Stock underlying the warrants under the Securities Act is effective and available for the issuance of such shares, or an exemption from registration under the Securities Act is available for the issuance of such shares, by payment in full in immediately available funds for the number of shares of Common Stock purchased upon such exercise. If a registration statement registering the issuance of the shares of Common Stock underlying the warrants under the Securities Act is not effective or available and an exemption from registration under the Securities Act is not available for the issuance of such shares, the holder may, in its sole discretion, elect to exercise the warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of shares of Common Stock determined according to the formula set forth in the warrant. No fractional shares of Common Stock will be issued in connection with the exercise of a warrant. In lieu of fractional shares, we will pay the holder an amount in cash equal to the fractional amount multiplied by the exercise price.

Exercise Limitation. A holder will not have the right to exercise any portion of the warrant if the holder (together with its affiliates) would beneficially own in excess of 4.99% of the number of shares of our Common Stock outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of the warrants. However, any holder may increase or decrease such percentage to any other percentage not in excess of 9.99%, provided that any increase in such percentage shall not be effective until 61 days following notice from the holder to us.

Exercise Price. The exercise price per whole share of Common Stock purchasable upon exercise of the warrants is \$4.25 per share or 100% of public offering price of the unit. The exercise price is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our Common Stock and also upon any distributions of assets, including cash, stock or other property to our stockholders.

Transferability. Subject to applicable laws, the warrants may be offered for sale, sold, transferred or assigned without our consent.

Exchange Listing. Our warrants have been approved for listing on NASDAQ under the symbol "BLNKW". No assurance can be given that a trading market will develop.

Warrant Agent. The warrants will be issued in registered form under a warrant agency agreement between Worldwide Stock Transfer, LLC, as warrant agent, and us. The warrants shall initially be represented only by one or more global warrants deposited with the warrant agent, as custodian on behalf of The Depository Trust Company (DTC) and registered in the name of Cede & Co., a nominee of DTC, or as otherwise directed by DTC.

Fundamental Transactions. In the event of a fundamental transaction, as described in the warrants and generally including any reorganization, recapitalization or reclassification of our Common Stock, the sale, transfer or other disposition of all or substantially all of our properties or assets, our consolidation or merger with or into another person, the acquisition of more than 50% of our outstanding Common Stock, or any person or group becoming the beneficial owner of 50% of the voting power represented by our outstanding Common Stock, the holders of the warrants will be entitled to receive upon exercise of the warrants the kind and amount of securities, cash or other property that the holders would have received had they exercised the warrants immediately prior to such fundamental transaction.

Rights as a Stockholder. Except as otherwise provided in the warrants or by virtue of such holder's ownership of shares of our Common Stock, the holder of a warrant does not have the rights or privileges of a holder of our Common Stock, including any voting rights, until the holder exercises the warrant.

Governing Law. The warrants and the warrant agency agreement are governed by New York law.

Anti-Takeover Effects of Various Provisions of Nevada Law and Our Articles of Incorporation and Bylaws

Provisions of the Nevada Corporation Law and our articles of incorporation, as amended and bylaws could make it more difficult to acquire us by means of a tender offer, a proxy contest or otherwise, or to remove incumbent officers and directors. These provisions, summarized below, would be expected to discourage certain types of takeover practices and takeover bids our Board may consider inadequate and to encourage persons seeking to acquire control of us to first negotiate with us. We believe that the benefits of increased protection of our ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us will outweigh the disadvantages of discouraging takeover or acquisition proposals because, among other things, negotiation of these proposals could result in an improvement of their terms.

Blank Check Preferred

Our articles of incorporation permit our Board to issue preferred stock with voting, conversion and exchange rights that could negatively affect the voting power or other rights of our Common Stockholders. The issuance of our preferred stock could delay or prevent a change of control of our Company.

Board Vacancies to be Filled by Remaining Directors

Our bylaws provide that casual vacancies on the Board may be filled by the remaining directors then in office.

Removal of Directors by Stockholders

Our bylaws and the Nevada Corporation Law provide that directors may be removed with or without cause at any time by a vote of two-thirds of the stockholders entitled to vote thereon, at a special meeting of the stockholders called for that purpose.

Stockholder Action

Our bylaws provide that special meetings of the stockholders may be called by the Board or such person or persons authorized by the Board.

Amendments to our Articles of Incorporation and Bylaws

Under the Nevada Corporation Law, our articles of incorporation may not be amended by stockholder action alone. Amendments to our articles of incorporation require a board resolution approved by the majority of the outstanding capital stock entitled to vote. Our bylaws may only be amended by a majority vote of the stockholders at any annual meeting or special meeting called for that purpose. Subject to the right of stockholders as described in the immediately preceding sentence, the Board has the power to make, adopt, alter, amend and repeal, from time to time, our bylaws.

Nevada Anti-Takeover Statute

We may be subject to Nevada's Combination with Interested Stockholders Statute (Nevada Corporation Law Sections 78.411-78.444) which prohibits an "interested stockholder" from entering into a "combination" with the corporation, unless certain conditions are met. An "interested stockholder" is a person who, together with affiliates and associates, beneficially owns (or within the prior two years, did beneficially own) 10% or more of the corporation's capital stock entitled to vote.

Limitations on Liability and Indemnification of Officers and Directors

Nevada Corporation Law limits or eliminates the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties as directors. Our bylaws include provisions that require the company to indemnify our directors or officers against monetary damages for actions taken as a director or officer of our company. We are also expressly authorized to carry directors' and officers' insurance to protect our directors, officers, employees and agents for certain liabilities. Our articles of incorporation do not contain any limiting language regarding director immunity from liability.

The limitation of liability and indemnification provisions under the Nevada Corporation Law and in our articles of incorporation and bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. However, these provisions do not limit or eliminate our rights, or those of any stockholder, to seek non-monetary relief such as injunction or rescission in the event of a breach of a director's fiduciary duties. Moreover, the provisions do not alter the liability of directors under the federal securities laws. In addition, your investment may be adversely affected to the extent that, in a class action or direct suit, we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

Authorized but Unissued Shares

Our authorized but unissued shares of Common Stock and preferred stock will be available for future issuance without stockholder approval, except as may be required under the listing rules of any stock exchange on which our Common Stock is then listed. We may use additional shares for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of Common Stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

SHARES ELIGIBLE FOR FUTURE SALE

We cannot predict the effect, if any, future sales of shares of Common Stock, or the availability for future sale of shares of Common Stock, will have on the market price of shares of our Common Stock prevailing from time to time. Future sales of substantial amounts of our Common Stock in the public market or the perception that such sales might occur may adversely affect market prices prevailing from time to time. Furthermore, there may be sales of substantial amounts of our Common Stock in the public market after the existing legal and contractual restrictions lapse. This may adversely affect the prevailing market price and our ability to raise equity capital in the future. See "Risk Factors—Risks Associated with our Common Stock— Substantial Future Sales of Shares of Our Common Stock In The Public Market Could Cause Our Stock Price To Fall."

Based on the number of shares of Common Stock outstanding as of February 13, 2018, after giving pro forma effect to the closing of this offering we will have 19,228,892 shares of Common Stock outstanding, assuming (1) no exercise of the underwriters' option to purchase additional shares of Common Stock and/or warrants and (2) no exercise of outstanding options or warrants. Of those shares, all of the shares sold in this offering will be freely tradable, except that any shares held by our "affiliates," as that term is defined in Rule 144, may only be sold in compliance with the limitations described below.

Lock-up Agreements

After the lock-up agreements with certain stockholders pertaining to this offering expire: (i) 270 days from the date of this offering unless waived earlier by the representative, up to 8,367,879 of the shares that had been locked up; and (ii) 90 days from the date of this offering unless waived earlier by the representative, up to 338,969 of the shares that had been locked up, will be eligible for future sale in the public market. After the lock-up agreements with our directors and officers, Horton Capital, and JMJ pertaining to this offering expire 180 days from the date of this offering unless waived earlier by the representative, up to 7,707,819 of the shares (including shares of Common Stock issuable upon conversion of our Series D Preferred Stock) (net of any shares also restricted by lock-up agreements with certain stockholders) that had been locked up will be eligible for future sale in the public market. Sales of a significant number of these shares of Common Stock in the public market could reduce the market price of the Common Stock.

These lock-up agreements state that our directors and executive officers and certain stockholders have agreed with the underwriters that for a period of 180 days after the date of this prospectus in the case of directors and executive officers, and 270 days or 90 days after the date of this prospectus in the case of certain stockholders, except with the prior written consent of the representatives and subject to specified exceptions, we or they will not offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for shares of Common Stock, or enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Common Stock. Following the expiration of the lock-up agreements, shares will become eligible for sale subject to Rule 144.

Rule 144

The Company is a former shell company. As a result, to enable investors to sell shares of our Common Stock pursuant to Rule 144 of the Securities Act, we need to be: (A) subject to the reporting requirements of section 13 or 15(d) of the Exchange Act; and (B) current in filing such reports. Although we are current in our filings, because we were not previously subject to the Exchange Act prior to the effectiveness of the registration statement of which this prospectus forms a part and made such filings voluntarily, investors were not able to utilize Rule 144.

Investors are now able to use Rule 144 to sell shares of our Common Stock.

In general, under Rule 144, as currently in effect, an affiliate who beneficially owns shares that were purchased from us, or any affiliate, at least six months previously, is entitled to sell, upon the expiration of the lock-up agreement described above, within any three-month period beginning 90 or 270 days (for certain stockholders) and 180 days (for our directors and officers) from the date of this offering, a number of shares that does not exceed the greater of 1% of our then-outstanding shares of Common Stock, which equals approximately shares immediately after this offering, or the average reported weekly trading volume of our Common Stock on NASDAQ during the four calendar weeks preceding the filing of a notice of the sale on Form 144.

Sales under Rule 144 by our affiliates or persons selling shares on behalf of our affiliates are also subject to certain manner of sale provisions, notice requirements and the availability of current public information about us. The sale of these shares, or the perception that sales will be made, may adversely affect the price of our Common Stock after this offering because a great supply of shares would be, or would be perceived to be, available for sale in the public market.

Following this offering, a person who is not deemed to be or have been an affiliate of ours at the time of, or at any time during the three months preceding, a sale and who has beneficially owned restricted securities within the meaning of Rule 144 for at least six months, may sell such shares subject only to the availability of current public information about us.

Options and Warrants

As of February 13, 2018, we had outstanding stock options and warrants to purchase a total of 198,037 shares of our Common Stock consisting of: (i) 105,136 shares of Common Stock issuable upon exercise of outstanding warrants with a weighted average exercise price of \$44.93; and (ii) 92,901 shares issuable upon exercise of outstanding options with a weighted average exercise price of \$52.77, under our equity compensation plans.

As of February 13, 2018, we currently owe (i) 15,240 shares issuable to Mr. Farkas upon exercise of options to be issued pursuant to the Third Amendment with the options having a weighted average exercise price of \$34.06; (ii) 15,000 shares of Common Stock issuable to Mr. Farkas upon exercise of options to be issued as replacements of expired options with the options having a weighted average exercise price of \$5.30; (iii) 16,600 shares issuable to Mr. Feintuch upon exercise of outstanding options issued pursuant to the Compensation Agreement with the options having a weighted average exercise price of \$34.34; (iv) 90,993 shares of Common Stock issuable to Mr. Shapiro upon exercise of warrants to be issued upon the closing of the offering pursuant to an agreement with the Company with the warrants having a weighted average exercise price of \$4.25; and (v) 68,150 shares of Common Stock issuable to Mr. Engel upon exercise of warrants to be issued upon the closing of the offering pursuant to an agreement with the Company with the warrants having a weighted average exercise price of \$4.25.

Of the total number of shares of our Common Stock issuable under the options, all are subject to contractual lock-up agreements, and will become eligible for sale subject to Rule 144 at the expiration of those agreements. Upon the exercise of outstanding warrants, such warrant shares will become eligible for sale subject to Rule 144.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the material U.S. federal income tax considerations relating to the purchase, ownership and disposition of our Common Stock and warrants purchased in this offering but is for general information purposes only and does not purport to be a complete analysis of all the potential tax considerations relating thereto. This summary is based upon the provisions of the Internal Revenue Code of 1986, as amended (the "Code"), existing and proposed Treasury regulations promulgated thereunder, administrative rulings and judicial decisions, all as of the date hereof. These authorities may be changed, possibly retroactively, so as to result in U.S. federal income and estate tax consequences different from those set forth below. There can be no assurance that the Internal Revenue Service (the "IRS") will not challenge one or more of the tax consequences described herein, and we have not obtained, and do not intend to obtain, an opinion of counsel or ruling from the IRS with respect to the U.S. federal income tax considerations relating to the purchase, ownership or disposition of our Common Stock or warrants.

This summary does not address any alternative minimum tax considerations, any considerations regarding the tax on net investment income, or the tax considerations arising under the laws of any state, local or non-U.S. jurisdiction, or under any non-income tax laws, including U.S. federal gift and estate tax laws, except to the limited extent set forth below. In addition, this summary does not address tax considerations applicable to an investor's particular circumstances or to investors that may be subject to special tax rules, including, without limitation:

- banks, insurance companies or other financial institutions;
- tax-exempt organizations or governmental organizations;
- regulated investment companies and real estate investment trusts;
- controlled foreign corporations, passive foreign investment companies and corporations that accumulate earnings to avoid U.S. federal income tax;
- brokers or dealers in securities or currencies;
- traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;
- persons that own, or are deemed to own, more than five percent of our capital stock (except to the extent specifically set forth below);
- tax-qualified retirement plans;
- certain former citizens or long-term residents of the United States;
- partnerships or entities or arrangements classified as partnerships for U.S. federal income tax purposes and other pass-through entities (and investors therein);
- persons who hold our Common Stock or warrants as a position in a hedging transaction, "straddle," "conversion transaction" or other risk reduction transaction or integrated investment;

- persons who hold or receive our Common Stock or warrants pursuant to the exercise of any employee stock option or otherwise as compensation;
- persons who do not hold our Common Stock or warrants as a capital asset within the meaning of Section 1221 of the Code; or
- persons deemed to sell our Common Stock or warrants under the constructive sale provisions of the Code.

In addition, if a partnership (or entity or arrangement classified as a partnership for U.S. federal income tax purposes) holds our Common Stock or warrants, the tax treatment of a partner generally will depend on the status of the partner and upon the activities of the partnership. Accordingly, partnerships that hold our Common Stock or warrants, and partners in such partnerships, should consult their tax advisors.

You are urged to consult your own tax advisors with respect to the application of the U.S. federal income tax laws to your particular situation, as well as any tax consequences of the purchase, ownership and disposition of our Common Stock and warrants arising under the U.S. federal estate or gift tax laws or under the laws of any state, local, non-U.S., or other taxing jurisdiction or under any applicable tax treaty.

Consequences to U.S. Holders

The following is a summary of the U.S. federal income tax consequences that will apply to a U.S. holder of our Common Stock or warrants. For purposes of this discussion, you are a U.S. holder if, for U.S. federal income tax purposes, you are a beneficial owner of our Common Stock or warrants, other than a partnership, that is:

- an individual citizen or resident of the United States;
- a corporation or other entity taxable as a corporation created or organized in the United States or under the laws of the United States, any State thereof or the District of Columbia;
- an estate whose income is subject to U.S. federal income tax regardless of its source; or
- a trust (x) whose administration is subject to the primary supervision of a U.S. court and which has one or more “United States persons” (within the meaning of Section 7701(a)(30) of the Code) who have the authority to control all substantial decisions of the trust or (y) which has made a valid election to be treated as a “United States person.”

Distributions

As described in the section titled “Dividend Policy,” we have never declared or paid cash dividends on our Common Stock and do not anticipate paying any dividends on our Common Stock in the foreseeable future. However, if we do make distributions on our Common Stock, those payments will constitute dividends for U.S. tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions exceed both our current and our accumulated earnings and profits, the excess will constitute a return of capital and will first reduce your basis in our Common Stock, but not below zero, and then will be treated as gain from the sale of stock as described below under “—Sale, Exchange or Other Taxable Disposition of Common Stock.”

Dividend income may be taxed to an individual U.S. holder at rates applicable to long-term capital gains, provided that a minimum holding period and other limitations and requirements are satisfied. Any dividends that we pay to a U.S. holder that is a corporation will qualify for a deduction allowed to U.S. corporations in respect of dividends received from other U.S. corporations equal to a portion of any dividends received, subject to generally applicable limitations on that deduction. U.S. holders should consult their own tax advisors regarding the holding period and other requirements that must be satisfied in order to qualify for the reduced tax rate on dividends or the dividends-received deduction.

Constructive Distributions

The terms of the warrants allow for changes in the exercise price of the warrants under certain circumstances. A change in exercise price of a warrant that allows holders to receive more shares of Common Stock on exercise may increase a holder's proportionate interest in our earnings and profits or assets. In that case, such holder may be treated as though it received a taxable distribution in the form of our Common Stock. A taxable constructive stock distribution would generally result, for example, if the exercise price is adjusted to compensate holders for distributions of cash or property to our stockholders.

Not all changes in the exercise price that result in a holder's receiving more Common Stock on exercise, however, would be considered as increasing a holder's proportionate interest in our earnings and profits or assets. For instance, a change in exercise price could simply prevent the dilution of a holder's interest upon a stock split or other change in capital structure. Changes of this type, if made pursuant to bona fide reasonable adjustment formula, are not treated as constructive stock distributions for these purposes. Conversely, if an event occurs that dilutes a holder's interest and the exercise price is not adjusted, the resulting increase in the proportionate interests of our stockholders could be treated as a taxable stock distribution to our stockholders.

Any taxable constructive stock distributions resulting from a change to, or a failure to change, the exercise price of the warrants that is treated as a distribution of Common Stock would be treated for U.S. federal income tax purposes in the same manner as distributions on our Common Stock paid in cash or other property, resulting in a taxable dividend to the recipient to the extent of our current or accumulated earnings and profits (with the recipient's tax basis in its Common Stock or warrants, as applicable, being increased by the amount of such dividend), and with any excess treated as a return of capital or as capital gain. U.S. holders should consult their own tax advisors regarding whether any taxable constructive stock dividend would be eligible for tax rates applicable to long-term capital gains or the dividends-received deduction described under "—Distributions," as the requisite applicable holding period requirements might not be considered to be satisfied.

Sale, Exchange or Other Taxable Disposition of Common Stock

A U.S. holder will generally recognize capital gain or loss on the sale, exchange or other taxable disposition of our Common Stock. The amount of gain or loss will equal the difference between the amount realized on the sale and such U.S. holder's tax basis in such Common Stock. The amount realized will include the amount of any cash and the fair market value of any other property received in exchange for such Common Stock. Gain or loss will be long-term capital gain or loss if the U.S. holder has held the Common Stock for more than one year. Long-term capital gains of non-corporate U.S. holders are generally taxed at preferential rates. The deductibility of capital losses is subject to certain limitations.

Sale, Exchange, Redemption, Lapse or Other Taxable Disposition of a Warrant

Upon a sale, exchange, redemption, lapse or other taxable disposition of a warrant, a U.S. holder generally will recognize capital gain or loss in an amount equal to the difference between the amount realized (if any) on the disposition and such U.S. holder's tax basis in the warrant. The amount realized will include the amount of any cash and the fair market value of any other property received in exchange for the warrant. The U.S. holder's tax basis in the warrant generally will equal the amount the holder paid for the warrant. Gain or loss will be long-term capital gain or loss if the U.S. holder has held the warrant for more than one year. Long-term capital gains of non-corporate U.S. holders are generally taxed at preferential rates. The deductibility of capital losses is subject to certain limitations.

Exercise of a Warrant

The exercise of a warrant for shares of Common Stock generally will not be a taxable event for the exercising U.S. holder, except with respect to cash, if any, received in lieu of a fractional share. A U.S. holder will have a tax basis in the shares of Common Stock received on exercise of a warrant equal to the sum of the U.S. holder's tax basis in the warrant surrendered, reduced by any portion of the basis allocable to a fractional share, plus the exercise price of the warrant. A U.S. holder generally will have a holding period in shares of Common Stock acquired on exercise of a warrant that commences on the date of exercise of the warrant.

Consequences to Non-U.S. Holders

The following is a summary of the U.S. federal income tax consequences that will apply to a non-U.S. holder of our Common Stock or warrants. A "non-U.S. holder" is a beneficial owner of our Common Stock or warrants (other than a partnership or an entity or arrangement treated as a partnership for U.S. federal income tax purposes) that, for U.S. federal income tax purposes, is not a U.S. holder.

Distributions

Subject to the discussion below regarding effectively connected income, any dividend, including any taxable constructive stock dividend resulting from certain adjustments, or failure to make adjustments, to the exercise price of a warrant (as described above under "Consequences to U.S. Holders—Constructive Distributions"), paid to a non-U.S. holder generally will be subject to U.S. withholding tax either at a rate of 30% of the gross amount of the dividend or such lower rate as may be specified by an applicable income tax treaty. In order to receive a reduced treaty rate, a non-U.S. holder must provide us with an IRS Form W-8BEN, IRS Form W-8BEN-E or other applicable IRS Form W-8 properly certifying qualification for the reduced rate. These forms must be updated periodically. A non-U.S. holder eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. If a non-U.S. holder holds our Common Stock or warrants through a financial institution or other agent acting on the non-U.S. holder's behalf, the non-U.S. holder will be required to provide appropriate documentation to the agent, which then may be required to provide certification to us or our paying agent, either directly or through other intermediaries.

Dividends received by a non-U.S. holder that are effectively connected with its conduct of a U.S. trade or business (and, if required by an applicable income tax treaty, attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States) are generally exempt from such withholding tax if the non-U.S. holder satisfies certain certification and disclosure requirements. In order to obtain this exemption, the non-U.S. holder must provide us with an IRS Form W-8ECI or other applicable IRS Form W-8 properly certifying such exemption. Such effectively connected dividends, although not subject to withholding tax, are taxed at the same graduated U.S. federal income tax rates applicable to U.S. holders, net of certain deductions and credits. In addition, dividends received by a corporate non-U.S. holder that are effectively connected with its conduct of a U.S. trade or business may also be subject to a branch profits tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty. Non-U.S. holders should consult their own tax advisors regarding any applicable tax treaties that may provide for different rules.

Gain on Sale, Exchange or Other Taxable Disposition of Common Stock or Warrants

Subject to the discussion below regarding backup withholding and foreign accounts, a non-U.S. holder generally will not be required to pay U.S. federal income tax on any gain realized upon the sale, exchange or other taxable disposition of our Common Stock or a warrant unless:

- the gain is effectively connected with the non-U.S. holder's conduct of a U.S. trade or business (and, if required by an applicable income tax treaty, the gain is attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States);
- the non-U.S. holder is a non-resident alien individual who is present in the United States for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met; or
- shares of our Common Stock or our warrants, as applicable, constitute U.S. real property interests by reason of our status as a "United States real property holding corporation" (a USRPHC) for U.S. federal income tax purposes at any time within the shorter of the five-year period preceding the non-U.S. holder's disposition of, or the non-U.S. holder's holding period for, our Common Stock or warrants, as applicable.

We believe that we are not currently and will not become a USRPHC for U.S. federal income tax purposes, and the remainder of this discussion so assumes. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property relative to the fair market value of our other business assets, there can be no assurance that we will not become a USRPHC in the future. Even if we become a USRPHC, however, if our Common Stock becomes regularly traded on an established securities market (as defined by applicable Treasury regulations), such Common Stock will be treated as U.S. real property interests only if the non-U.S. holder actually or constructively held more than five percent of such regularly traded Common Stock at any time during the shorter of the five-year period preceding the non-U.S. holder's disposition of, or the non-U.S. holder's holding period for, our Common Stock. In addition, provided that our Common Stock is regularly traded on an established securities market (as defined by applicable Treasury regulations), a warrant will not be treated as a U.S. real property interest with respect to a non-U.S. holder if such holder did not own, actually or constructively, warrants whose total fair market value on the date they were acquired (and on the date or dates any additional warrants were acquired) exceeded the fair market value on that date (and on the date or dates any additional warrants were acquired) of five percent of all our Common Stock.

If the non-U.S. holder is described in the first bullet above, it will be required to pay tax on the net gain derived from the sale, exchange or other taxable disposition under regular graduated U.S. federal income tax rates, and a corporate non-U.S. holder described in the first bullet above also may be subject to the branch profits tax at a rate of 30%, or such lower rate as may be specified by an applicable income tax treaty. An individual non-U.S. holder described in the second bullet above will be required to pay a flat 30% tax (or such lower rate specified by an applicable income tax treaty) on the gain derived from the sale, exchange or other taxable disposition, which gain may be offset by U.S. source capital losses for the year (provided the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses). Non-U.S. holders should consult their own tax advisors regarding any applicable income tax or other treaties that may provide for different rules.

Federal Estate Tax

Common Stock or warrants beneficially owned by an individual who is not a citizen or resident of the United States (as defined for U.S. federal estate tax purposes) at the time of their death will generally be includable in the decedent's gross estate for U.S. federal estate tax purposes. Such shares, therefore, may be subject to U.S. federal estate tax, unless an applicable estate tax treaty provides otherwise.

Backup Withholding and Information Reporting

Generally, we must report annually to the IRS the amount of dividends paid to you, your name and address and the amount of tax withheld, if any. A similar report will be sent to you. Pursuant to applicable income tax treaties or other agreements, the IRS may make these reports available to tax authorities in your country of residence if you reside outside of the United States.

Payments of dividends on or of proceeds from the disposition of our Common Stock or warrants made to you may be subject to information reporting and backup withholding. Backup withholding may apply at a current rate of 28% unless you (i) provide the payor with a correct taxpayer identification number and comply with applicable certification requirements, or (ii) establish an exemption, for example, by properly certifying your non-U.S. status on an IRS Form W-8BEN or IRS Form W-8BEN-E or other applicable IRS Form W-8. Notwithstanding the foregoing, backup withholding and information reporting may apply if either we or our paying agent has actual knowledge, or reason to know, that you are a U.S. person that is not an exempt recipient.

Backup withholding is not an additional tax; rather, the U.S. federal income tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund or credit may generally be obtained from the IRS, provided that the required information is furnished to the IRS in a timely manner.

Foreign Account Tax Compliance

The Foreign Account Tax Compliance Act ("FATCA") generally imposes withholding tax at a rate of 30% on dividends on and gross proceeds from the sale or other disposition of our Common Stock or warrants paid to a "foreign financial institution" (as specially defined under these rules), unless such institution enters into an agreement with the U.S. government to, among other things, withhold on certain payments and to collect and provide to the U.S. tax authorities substantial information regarding the U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners) or otherwise establishes an exemption. FATCA also generally imposes a U.S. federal withholding tax of 30% on dividends on and gross proceeds from the sale or other disposition of our Common Stock or warrants paid to a "non-financial foreign entity" (as specially defined for purposes of these rules) unless such entity provides the withholding agent with a certification identifying certain substantial direct and indirect U.S. owners of the entity, certifies that there are none or otherwise establishes an exemption. The withholding provisions under FATCA generally apply to dividends paid by us, and under current transitional rules are expected to apply with respect to the gross proceeds from a sale or other disposition of our Common Stock or warrants on or after January 1, 2019. Under certain circumstances, a non-U.S. holder might be eligible for refunds or credits of such taxes. An intergovernmental agreement between the United States and an applicable foreign country may modify the requirements described in this paragraph. Non-U.S. holders should consult their own tax advisors regarding the possible implications of this legislation on their investment in our Common Stock or warrants.

Each prospective investor should consult its own tax advisor regarding the particular U.S. federal, state and local and non-U.S. tax consequences of purchasing, owning and disposing of our Common Stock or warrants, including the consequences of any proposed changes in applicable laws.

UNDERWRITING

Joseph Gunnar & Co., LLC is acting as sole bookrunner and as representative of the underwriters (the “Representative”). Subject to the terms and conditions of an underwriting agreement between us and the Representative, we have agreed to sell to each underwriter named below, and each underwriter named below has severally agreed to purchase, at the public offering price less the underwriting discounts set forth on the cover page of this prospectus, the number of units listed next to its name in the following table:

Name of Underwriter	Number of Units
Joseph Gunnar & Co., LLC	3,060,000
The Benchmark Company, LLC	1,293,000
Total	4,353,000

The underwriters are committed to purchase all the units offered by this prospectus if they purchase any units. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated. The underwriters are not obligated to purchase the shares of Common Stock and/or warrants covered by the underwriters’ over-allotment option to purchase shares and/or warrants described below. The underwriters are offering the units, shares of Common Stock and warrants, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer’s certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Over-Allotment Option

We have granted to the underwriters a 45-day option to purchase up to an aggregate of 652,950 additional shares of Common Stock and/or warrants to purchase 1,305,900 shares of Common Stock (equal to 15% of the number of shares and warrants underlying the units sold in the offering), in any combination thereof, at the public offering price per share and per warrant, respectively, less underwriting discounts and commissions. The underwriters may exercise this option for 45 days from the date of this prospectus solely to cover sales of shares of Common Stock and/or warrants by the underwriters in excess of the total number of shares of Common Stock and/or warrants underlying the units set forth in the table above. If any of these additional shares and/or warrants are purchased, the underwriters will offer the additional shares and/or warrants on the same terms as those on which the units are being offered.

Discounts and Commissions

The underwriters propose initially to offer the units to the public at the public offering price set forth on the cover page of this prospectus and to dealers at those prices less a concession not in excess of \$0.17 per unit. If all of the units offered by us are not sold at the public offering price, the underwriters may change the offering price and other selling terms by means of a supplement to this prospectus.

The following table shows the public offering price, underwriting discounts, non-accountable expense allowance and commissions and proceeds before expenses to us. The information assumes either no exercise or full exercise of the over-allotment option to purchase shares and/or warrants we granted to the representatives of the underwriters.

	Per Unit	Total Without Over-Allotment Option	Total With Full Over-Allotment Option
Public offering price	\$ 4.25	\$ 18,500,250	\$ 21,275,287.50
Underwriting discount	\$ 0.2975	\$ 1,295,017.50	\$ 1,489,270.13
Non-accountable expense allowance ⁽¹⁾	\$ 0.0425	\$ 185,002.50	\$ 185,002.50
Proceeds, before expenses, to us	\$ 3.91	\$ 17,020,230	\$ 19,601,014.87

⁽¹⁾ We have agreed to pay a non-accountable expense allowance to the representative of the underwriters equal to 1% of the gross proceeds received at the closing of this offering (excluding any proceeds received upon any subsequent exercise of the over-allotment option to purchase shares and/or warrants).

We have also agreed to pay the representative's expenses relating to the offering, including expenses and disbursements relating to background checks of our officers and directors, commemorative mementos and lucite tombstones, fees and expenses of the representative's legal counsel, \$25,000 of which has been paid in advance and will be returned to us to the extent that offering expenses are not actually incurred in compliance with FINRA Rule 5110(f)(2)(C), book-building, prospectus tracking and compliance software for this offering, and up to \$20,000 of the representative's actual accountable road show expenses for the offering, provided, however, that the accountable expenses to be reimbursed shall not exceed \$217,500 in the aggregate.

The total estimated expenses of the offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, but excluding underwriting discounts, commissions and expenses, are approximately \$681,000 and are payable by us.

Discretionary Accounts

The underwriters do not intend to confirm sales of the securities offered hereby to any accounts over which they have discretionary authority.

No Directed Share Program

On or about January 12, 2018, the Email was sent by the Company to members of the Blink network. The Email stated in part that the underwriters of this offering had agreed to consider to reserve units for purchase by members of the Blink network. The underwriters had not obligated themselves to reserve such units and have determined not to reserve any units in this offering specifically for such members. The term "Email" is defined above in the Risk Factor "We may have a Contingent Liability Arising out of an Electronic Communication Sent by the Company to a Number of Prospective Investors in this Offering, which may Constitute a Potential Violation of Section 5 of the Securities Act."

Lock-Up Agreements

Pursuant to "lock-up" agreements, we, our executive officers and directors, and certain of our stockholders, have agreed, without the prior written consent of the Representative not to directly or indirectly, offer to sell, sell, pledge or otherwise transfer or dispose of any of shares of (or enter into any transaction or device that is designed to, or could be expected to, result in the transfer or disposition by any person at any time in the future of) our Common Stock, enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of shares of our Common Stock, make any demand for or exercise any right or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of Common Stock or securities convertible into or exercisable or exchangeable for Common Stock or any other securities of the Company or publicly disclose the intention to do any of the foregoing, subject to customary exceptions, for a period of 180 days from the date of this prospectus, in the case of our directors and officers, and 90 or 270 days from the date of this prospectus, in the case of certain stockholders.

Right of First Refusal

We have granted the Representative a right of first refusal, for a period of twelve months from the commencement of sales, to act as sole and exclusive investment banker, book-runner, financial advisor, underwriter and/or placement agent, at the Representative's sole and exclusive discretion, for each and every future public and private equity and debt offering, including all equity linked financings (each, a "Subject Transaction"), during such twelve (12) month period, of the Company, or any successor to or subsidiary of the Company, on terms and conditions customary to the Representative for such Subject Transactions.

Indemnification

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

OTC Pink Current Information Marketplace and NASDAQ Capital Market

Our Common Stock was previously quoted on the OTC Pink Current Information Marketplace under the symbol "CCGI". Our Common Stock and warrants have been approved for listing on NASDAQ under the symbols "BLNK" and "BLNKW", respectively. Prior to this offering, there was no established public trading market for the warrants. No assurance can be given that a trading market will develop for the warrants.

Price Stabilization, Short Positions and Penalty Bids

In order to facilitate the offering of our securities, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of our securities. In connection with the offering, the underwriters may purchase and sell our securities in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares of securities than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares of securities in the offering. The underwriters may close out any covered short position by either exercising the over-allotment option to purchase shares and/or warrants or purchasing shares of securities in the open market. In determining the source of shares of securities to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option to purchase shares and/or warrants. "Naked" short sales are sales in excess of the over-allotment option to purchase shares and/or warrants. The underwriters must close out any naked short position by purchasing securities in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our securities in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of securities made by the underwriters in the open market before the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our securities or preventing or retarding a decline in the market price of our securities. As result, the price of our securities may be higher than the price that might otherwise exist in the open market.

The underwriters have advised us that, pursuant to Regulation M under the Exchange Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of our securities, including the imposition of penalty bids. This means that if the representative of the underwriters purchases securities in the open market in stabilizing transactions or to cover short sales, the representative can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

The underwriters make no representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our securities. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Offer, Sale and Distribution of Shares

A prospectus in electronic format may be made available on the websites maintained by one or more underwriters or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares of securities to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the representative to underwriters and selling group members that may make internet distributions on the same basis as other allocations. Other than the prospectus in electronic format, the information on the underwriters' websites and any information contained in any other website maintained by the underwriters is not part of this prospectus or the registration statement of which this prospectus forms a part.

Other Relationships

From time to time, certain of the underwriters and their affiliates have provided, and may provide in the future, various advisory, investment and commercial banking and other services to us in the ordinary course of business, for which they have received and may continue to receive customary fees and commissions. However, except as disclosed in this prospectus, we have no present arrangements with any of the underwriters for any further services.

In connection with the JMJ transaction in October 2016, we entered into a placement agency agreement with the Representative pursuant to which we have paid the Representative a cash fee of \$109,000 (and owe \$77,245) based on the \$3,500,000 advanced by JMJ through February 13, 2018 as well as, separately from and unrelated to the JMJ Financing, JMJ's loan of \$250,000 to the Company on January 22, 2018. We will be issuing units of unregistered shares of Common Stock and warrants as repayment of this \$250,000 advance at the closing of the offering. The cash fee is not included in the aggregate compensation attributed to the Representative for the offering.

Pricing of the Offering

The public offering price was determined by negotiations between us and the Representative. Among the factors considered in determining the public offering price were our future prospects and those of our industry in general, our sales, earnings and certain other financial and operating information in recent periods, and the price-earnings ratios, price-sales ratios, market prices of securities, and certain financial and operating information of companies engaged in activities similar to ours. The estimated public offering price range set forth on the cover page of this prospectus is subject to change as a result of market conditions and other factors. Neither we nor the underwriters can assure investors that an active trading market for the shares will develop, or that after the offering the shares will trade in the public market at or above the public offering price.

Offer Restrictions Outside the United States

Other than in the United States, no action has been taken by us or the underwriters that would permit a public offering of the securities offered by this prospectus in any jurisdiction where action for that purpose is required. The securities offered by this prospectus may not be offered or sold, directly or indirectly, nor may this prospectus or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders
Blink Charging Co. (f/k/a Car Charging Group, Inc.) and Subsidiaries

We have audited the accompanying consolidated balance sheets of Blink Charging Co. (f/k/a Car Charging Group, Inc.) and Subsidiaries (the "Company") as of December 31, 2016 and 2015, and the related consolidated statements of operations, changes in stockholders' deficiency, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Blink Charging Co. (f/k/a Car Charging Group, Inc.) and Subsidiaries as of December 31, 2016 and 2015, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As more fully discussed in Note 2, the Company has incurred net losses since inception and needs to raise additional funds to meet its obligations and sustain its operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are described in Note 2. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

1. BUSINESS ORGANIZATION AND NATURE OF OPERATIONS

Blink Charging Co. (f/k/a Car Charging Group, Inc.) (“CCGI”) was incorporated on October 3, 2006 under the laws of the State of Nevada as New Image Concepts, Inc. On December 7, 2009, New Image Concepts, Inc. changed its name to Car Charging Group, Inc.

CCGI, through its wholly-owned subsidiaries (collectively, the “Company” or “Car Charging”), acquires and installs electric vehicle (“EV”) charging stations and shares servicing fees received from customers that use the charging stations with the property owner(s), on a property by property basis. In addition, the Company sells hardware and enters into individual arrangements for this purpose with various property owners, which may include municipalities, garage operators, hospitals, multi-family properties, shopping malls and facility owner/operators.

2. GOING CONCERN AND MANAGEMENT’S PLANS

As of December 31, 2016, the Company had a cash balance, a working capital deficiency and an accumulated deficit of \$5,898, \$21,184,871 and \$81,071,782, respectively. During the years ended December 31, 2016 and 2015, the Company incurred net losses of \$7,699,127 and \$8,244,924, respectively. These conditions raise substantial doubt about the Company’s ability to continue as a going concern within a year after the issuance date of this filing.

Since inception, the Company’s operations have primarily been funded through proceeds received in equity and debt financings. Although management believes that the Company has access to capital resources, there are currently no commitments in place for new financing at this time, except as described below, and there is no assurance that the Company will be able to obtain funds on commercially acceptable terms, if at all. There is also no assurance that the amount of funds the Company might raise will enable the Company to complete its development initiatives or attain profitable operations. If the Company is unable to obtain additional financing on a timely basis, it may have to curtail its development, marketing and promotional activities, which would have a material adverse effect on the Company’s business, financial condition and results of operations, and ultimately the Company could be forced to discontinue its operations and liquidate.

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”), which contemplate continuation of the Company as a going concern and the realization of assets and satisfaction of liabilities in the normal course of business. The consolidated financial statements do not include any adjustment that might become necessary should the Company be unable to continue as a going concern.

Subsequent to December 31, 2016, the Company received an aggregate of \$1,252,667 associated with the issuances of convertible and non-convertible notes payable. In addition, pursuant to a convertible note, an additional \$1,294,900 of funding could be released to the Company upon the completion of certain contractually defined milestones. See Note 11 – Notes Payable – Convertible Notes and Other, Note 18 – Subsequent Events – Convertible Note and Note 18 – Subsequent Events - Non-Convertible Notes – Related Party for additional details. There can be no assurance that the Company will be successful in attaining the defined milestones. The Company is currently funding its operations on a month-to-month basis. While there can be no assurance that it will be successful, the Company is in active negotiations to raise additional capital.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of CCGI and its wholly-owned subsidiaries, including Car Charging, Inc., Beam Charging LLC (“Beam”), EV Pass LLC (“EV Pass”), Blink Network LLC (“Blink”) and Car Charging China Corp. (“Car Charging China”). All intercompany transactions and balances have been eliminated in consolidation.

Through April 16, 2014, 350 Green LLC (“350 Green”) was a wholly-owned subsidiary of the Company in which the Company had full voting control and was therefore consolidated. Beginning on April 17, 2014, when 350 Green’s assets and liabilities were transferred to a trust mortgage, 350 Green became a Variable Interest Entity (“VIE”). The consolidation guidance relating to accounting for VIEs requires an enterprise to perform an analysis to determine whether the enterprise’s variable interest or interests give it a controlling financial interest in a variable interest entity and perform ongoing reassessments of whether an enterprise is the primary beneficiary of a VIE. The Company determined that it is the primary beneficiary of 350 Green, and as such, 350 Green’s assets, liabilities and results of operations are included in the Company’s consolidated financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

USE OF ESTIMATES

Preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, together with amounts disclosed in the related notes to the financial statements. The Company's significant estimates used in these financial statements include, but are not limited to, stock-based compensation, accounts receivable reserves, warranty reserves, inventory valuations, the valuation allowance related to the Company's deferred tax assets, the carrying amount of intangible assets, estimates of future EV sales and the effects thereon, fair value of derivative liabilities and the recoverability and useful lives of long-lived assets. Certain of the Company's estimates could be affected by external conditions, including those unique to the Company and general economic conditions. It is reasonably possible that these external factors could have an effect on the Company's estimates and could cause actual results to differ from those estimates.

CASH

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents in the consolidated financial statements. The Company has cash on deposits in several financial institutions which, at times, may be in excess of FDIC insurance limits. The Company has not experienced losses in such accounts.

ACCOUNTS RECEIVABLE

Accounts receivable are carried at their contractual amounts, less an estimate for uncollectible amounts. As of December 31, 2016 and 2015, there was an allowance for uncollectible amounts of \$42,349 and \$140,998, respectively. Management estimates the allowance for bad debts based on existing economic conditions, the financial conditions of the customers, and the amount and age of past due accounts. Receivables are considered past due if full payment is not received by the contractual due date. Past due accounts are generally written off against the allowance for bad debts only after all collection attempts have been exhausted.

INVENTORIES

Inventory is comprised of electric charging stations and related parts, which are available for sale or for warranty requirements. Inventories are stated at the lower of cost or market. Cost is determined by the first-in, first-out method. Inventory that is sold to third parties is included within cost of sales and inventory that is installed on the premises of participating owner/operator properties, where the Company retains ownership, is transferred to fixed assets at the carrying value of the inventory. The Company periodically reviews for slow-moving, excess or obsolete inventories. Products that are determined to be obsolete, if any, are written down to net realizable value. Based on the aforementioned periodic reviews, the Company recorded an inventory reserve for slow-moving, excess or obsolete inventories of \$154,000 and \$290,000 as of December 31, 2016 and 2015, respectively.

As of December 31, 2016 and 2015, the Company's inventory was comprised solely of finished goods and parts that are available for sale.

FIXED ASSETS

Fixed assets are stated at cost, net of accumulated depreciation and amortization which is recorded commencing at the in-service date using the straight-line method over the estimated useful lives of the assets, as set forth in the following table:

<u>Asset</u>	<u>Useful Lives (In Years)</u>
Computer software and office and computer equipment	3 - 5
Machinery and equipment, automobiles, furniture and fixtures	3 - 10
Installed Level 2 electric vehicle charging stations	3
Installed Level 3 (DC Fast Chargers ("DCFC")) electric vehicle charging stations	5

BLINK CHARGING CO. & SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

FIXED ASSETS - CONTINUED

When fixed assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the statements of operations for the respective period. Minor additions and repairs are expensed in the period incurred. Major additions and repairs which extend the useful life of existing assets are capitalized and depreciated using the straight-line method over their remaining estimated useful lives.

EV charging stations represents the cost, net of accumulated depreciation, of charging devices that have been installed on the premises of participating owner/operator properties or are earmarked to be installed. The Company held approximately \$48,000 and \$29,000 in EV charging stations that were not placed in service as of December 31, 2016 and 2015, respectively.

The Company's long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. The Company assesses the recoverability of its long-lived assets by monitoring current selling prices of car charging units in the open market, the adoption rate of various auto manufacturers in the EV market and projected car charging utilization at various public car charging stations throughout its network in determining fair value. An impairment loss would be recognized when estimated future cash flows expected to result from the use of the asset and its eventual disposition are less than its carrying amount. See Note 6 – Fixed Assets for additional details.

CAPITALIZED SOFTWARE DEVELOPMENT COSTS

The Company capitalizes software development costs in accordance with Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC") Topic 985 "Software". Capitalization of software development costs begins upon the determination of technological feasibility. The determination of technological feasibility and the ongoing assessment of the recoverability of these costs requires considerable judgment by management with respect to certain external factors, including anticipated future gross product revenues, estimated economic life and changes in hardware and software technology. Historically, software development costs incurred subsequent to the establishment of technological feasibility have not been material.

INTANGIBLE ASSETS

Intangible assets were acquired in conjunction with the acquisitions of Beam, EV Pass, and Blink during 2013 and were recorded at their fair value at such time. Trademarks are amortized on a straight-line basis over their useful life of ten years. Patents are amortized on a straight-line basis over the lives of the patent (twenty years or less), commencing when the patent is approved and placed in service on a straight-line basis.

SEGMENTS

The Company operates a single segment business as disclosed in the notes to the consolidated financial statements. The Company's chief operating decision maker views the Company's operating performance on a consolidated basis as its only business is the sale and distribution of electric vehicle charging machines and revenues that it earns from customers who use machines connected to its network, whether owned by the Company or third party hosts.

DERIVATIVE FINANCIAL INSTRUMENTS

The Company evaluates its convertible instruments to determine if those contracts or embedded components of those contracts qualify as derivative financial instruments to be separately accounted for in accordance with Topic 815 of the FASB ASC. The accounting treatment of derivative financial instruments requires that the Company record the conversion options and warrants at their fair values as of the inception date of the agreement and at fair value as of each subsequent balance sheet date. Any change in fair value is recorded as non-operating, non-cash income or expense for each reporting period at each balance sheet date. Conversion options are recorded as a discount to the host instrument and are amortized as interest expense over the life of the underlying instrument. The Company reassesses the classification of its derivative instruments at each balance sheet date. If the classification changes as a result of events during the period, the contract is reclassified as of the date of the event that caused the reclassification.

The Binomial Lattice Model was used to estimate the fair value of the warrants that are classified as derivative liabilities on the consolidated balance sheets. The model includes subjective input assumptions that can materially affect the fair value estimates. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the warrants.

SEQUENCING POLICY

Under ASC 815-40-35, the Company has adopted a sequencing policy whereby, in the event that reclassification of contracts from equity to assets or liabilities is necessary pursuant to ASC 815 due to the Company's inability to demonstrate it has sufficient authorized shares, shares will be allocated on the basis of the earliest issuance date of potentially dilutive instruments, with the earliest grants receiving the first allocation of shares.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company measures the fair value of financial assets and liabilities based on the guidance of ASC 820 "Fair Value Measurements and Disclosures" ("ASC 820") which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 — quoted prices in active markets for identical assets or liabilities

Level 2 — quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 — inputs that are unobservable (for example, cash flow modeling inputs based on assumptions)

The carrying amounts of the Company's financial instruments, such as cash and cash equivalents, accounts receivable and accounts payable approximate fair values due to the short-term nature of these instruments. The carrying amount of the Company's notes payable approximates fair value because the effective yields on these obligations, which include contractual interest rates, taken together with other features such as concurrent issuance of warrants, are comparable to rates of returns for instruments of similar credit risk.

REVENUE RECOGNITION

The Company recognizes revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured. Accordingly, when a customer completes use of a charging station, the service can be deemed rendered and revenue may be recognized based on the time duration of the session or kilowatt hours drawn during the session. Sales of EV stations are recognized upon shipment to the customer, free on board shipping point, or the point of customer acceptance.

Governmental grants and rebates pertaining to revenues and periodic expenses are recognized as income when the related revenue and/or periodic expense are recorded. Government grants and rebates related to EV charging stations and their installation are deferred and amortized in a manner consistent with the related depreciation expense of the related asset over their useful lives.

For arrangements with multiple elements, which is comprised of (1) a charging unit, (2) installation of the charging unit, (3) maintenance and (4) network fees, revenue is recognized dependent upon whether vendor specific objective evidence (“VSOE”) of fair value exists for separating each of the elements. The Company determined that VSOE exists for both the delivered and undelivered elements of the company’s multiple-element arrangements. The Company limited their assessment of fair value to either (a) the price charged when the same element is sold separately or (b) the price established by management having the relevant authority.

CONCENTRATIONS

During the year ended December 31, 2016, revenues generated from Entity C represented approximately 13% of the Company’s total revenue. During the year ended December 31, 2015, revenues generated from Entity A and Entity C represented approximately 18% and 16% of the Company’s total revenue, respectively. The Company generated grant revenues from a governmental agency (Entity A) and charging service revenues from a customer (Entity C). As of December 31, 2016, accounts receivable from Entity C were 18% of total accounts receivable.

RECLASSIFICATIONS

Certain prior year balances have been reclassified in order to conform to current year presentation. These reclassifications have no effect on previously reported results of operations or loss per share.

STOCK-BASED COMPENSATION

The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is measured on the measurement date and re-measured on vesting dates and interim financial reporting dates until the service period is complete. The fair value amount is then recognized over the period during which services are required to be provided in exchange for the award, usually the vesting period. Awards granted to non-employee directors for their service as a director are treated on the same basis as awards granted to employees. The Company computes the fair value of equity-classified warrants and options granted using the Black-Scholes option pricing model.

INCOME TAXES

The Company recognizes deferred tax assets and liabilities for the expected future tax consequences of items that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Operations in the period that includes the enactment date. As of December 31, 2016 and 2015, the Company maintained a full valuation allowance against its deferred tax assets since it is more likely than not that the future tax benefit on such temporary differences will not be realized.

The Company recognizes the tax benefit from an uncertain income tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement by examining taxing authorities. The Company has open tax years going back to 2013 which may be subject to audit by federal and state authorities. The Company's policy is to recognize interest and penalties accrued on uncertain income tax positions in interest expense in the Company's consolidated statements of operations. As of December 31, 2016 and 2015, we had no liability for unrecognized tax benefits. The Company does not expect the unrecognized tax benefits to change significantly over the next 12 months.

NET LOSS PER COMMON SHARE

Basic net loss per common share is computed by dividing net loss by the weighted average number of vested shares of Common Stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number vested of shares of Common Stock, plus the net impact of shares of Common Stock (computed using the treasury stock method), if dilutive, resulting from the exercise of outstanding stock options and warrants, plus the conversion of preferred stock and convertible notes.

The following Common Stock equivalents are excluded from the calculation of weighted average dilutive shares of Common Stock because their inclusion would have been anti-dilutive:

	<u>December 31,</u>	
	<u>2016</u>	<u>2015</u>
Preferred stock	1,053,004	967,563
Warrants	1,035,115	1,220,872
Options	149,233	155,633
Convertible notes	16,332	977
Total potentially dilutive shares	<u>2,253,684</u>	<u>2,345,045</u>

In August 2017, the Farkas Group Inc., a company controlled by our Executive Chairman, exercised 3.1 million warrants, of which 3 million warrants were issued and outstanding as of December 31, 2016, exercisable at \$0.70 per share, into 2,990,404 common shares on a cashless basis in accordance with warrant terms. These warrants were not subject to the reverse split of 1:50. The 3 million shares were deemed to be nominal shares and are shown as outstanding on a weighted average basis based on date of issuance for purposes of computing net loss per share for the year ended December 31, 2016.

COMMITMENTS AND CONTINGENCIES

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

LITIGATION AND DISPUTES

The Company records legal costs associated with loss contingencies as incurred and accrues for all probable and estimable settlements.

RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2014, the FASB issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers,” (“ASU 2014-09”). ASU 2014-09 supersedes the revenue recognition requirements in ASC 605 - Revenue Recognition (“ASC 605”) and most industry-specific guidance throughout ASC 605. The standard requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The guidance in ASU 2014-09 was revised in July 2015 to be effective for interim periods beginning on or after December 15, 2017 and should be applied on a transitional basis either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. In 2016, FASB issued additional ASUs that clarify the implementation guidance on principal versus agent considerations (ASU 2016-08), on identifying performance obligations and licensing (ASU 2016-10), and on narrow-scope improvements and practical expedients (ASU 2016-12) as well as on the revenue recognition criteria and other technical corrections (ASU 2016-20). The Company has not yet selected a transition method and is currently evaluating the impact of the adoption of these ASUs on its consolidated financial position and results of operations.

In July 2015, the FASB issued ASU No. 2015-11, “Inventory (Topic 330): Simplifying the Measurement of Inventory,” (“ASU 2015-11”). ASU 2015-11 amends the existing guidance to require that inventory should be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using last-in, first-out or the retail inventory method. ASU 2015-11 is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The adoption of ASU 2015-011 is not expected to have a material impact on our consolidated financial statement or disclosures.

In February 2016, the FASB issued ASU No. 2016-02, “Leases (Topic 842)” (“ASU 2016-02”). ASU 2016-02 requires an entity to recognize assets and liabilities arising from a lease for both financing and operating leases. The ASU will also require new qualitative and quantitative disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating ASU 2016-02 and its impact on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, “Compensation – Stock Compensation (Topic 718)” (“ASU 2016-09”). ASU 2016-09 requires an entity to simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. ASU 2016-09 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The adoption of ASU 2016-009 is not expected to have a material impact on our consolidated financial statement or disclosures.

In August 2016, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2016-15, “Statement of Cash Flows (Topic 230) Classification of Certain Cash Receipts and Cash Payments” (“ASU 2016-15”). ASU 2016-15 will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for fiscal years beginning after December 15, 2017. ASU 2016-15 requires adoption on a retrospective basis unless it is impracticable to apply, in which case the Company would be required to apply the amendments prospectively as of the earliest date practicable. The Company is currently evaluating ASU 2016-15 and its impact on its consolidated financial statements or disclosures.

4. ECOTALITY ESTATE ACQUISITION

On December 31, 2014, the United States Bankruptcy Court, District Arizona (“Bankruptcy Court”) issued a Confirmation Order Pursuant to Bankruptcy Rule 9024 in the Bankruptcy case, in regards to: Electric Transportation Engineering Corporation (Case No. 13-626), confirming a Plan of Reorganization of Electric Transport Engineering Corporation, whereby the Official Committee of Unsecured Creditors of the estate (“Creditors”) would own 50% of the Reorganized Electric Transport Engineering Corporation (“Reorganized ETEC”) in consideration, of foregoing the amounts formerly owed by the estate and the Company would own the remaining 50% of the Reorganized ETEC. The initial consideration as of December 31, 2014 was \$1,000,000, consisting of an initial payment of \$275,000 (including \$70,000 to be paid on behalf of the estate directly to their professional service providers and \$94,035 representing forbearance of a Blink receivable from the estate) and a subsequent cash payment of \$725,000. On April 10, 2015, the consideration was amended to \$1,200,000 consisting of an initial payment of \$375,000 (including \$280,965 to be paid on behalf of the estate directly to their professional service providers and \$94,035 representing forbearance of a Blink network receivable from the estate) and a subsequent cash payment of \$825,000 to the Creditors secured by 8,250 shares of Series B Convertible Preferred Stock issued in 2015 under the amendment. See Note 14 – Stockholders’ Deficiency – Preferred Stock - Series B Convertible Preferred Stock for additional details.

As of December 31, 2016 and 2015, the ECotality estate consisted of no material assets, liabilities or business other than deferred tax assets associated with carryforward net operating losses (“NOLs”). Given that, as of December 31, 2016 and 2015, there was no implemented plan to realize the benefit of those NOLs, the Company recorded a full valuation allowance against such deferred tax assets.

5. ASSETS AND LIABILITIES TRANSFERRED TO TRUST MORTGAGE – 350 GREEN

SUMMARY

On April 17, 2014, the Company’s Board of Directors executed a resolution to form a trust mortgage relating to 350 Green. On May 29, 2014, the Company and EVSE Management LLC (“EVSE”) entered into a Management Services Agreement and on June 27, 2014, EVSE purchased certain assets from 350 Green for total consideration of \$860,836 which included a note receivable from Car Charging in the amount of \$314,598. On September 8, 2014, the Company entered into an agreement among the trustee of 350 Green, an attorney, 350 Green and the Company whereby the Company would pay the legal fees incurred in connection with an action brought by 350 Green against JNS Power and Control Systems, Inc. (“JNS”). On September 30, 2014, the Company (“Assignor”) entered into an Assignment Agreement with Green 350 Trust Mortgage LLC (“Assignee”), an entity formed by the trustee for the sole purpose of entering into this transaction, under which Assignor, the sole member of 350 Green, irrevocably assigned, sold and transferred 100% of the limited liability company membership interests in 350 Green to Assignee and Assignee accepted such transfer for nominal consideration of \$100.

Through April 16, 2014, 350 Green was a wholly-owned subsidiary of the Company in which the Company had full control and was consolidated. Beginning on April 17, 2014, 350 Green was deemed to be a VIE and, therefore, we continued to consolidate 350 Green. On July 8, 2015, the Company and the trustee of 350 Green agreed to settle the note receivable in the amount of \$314,598 for \$25,000 in full satisfaction of the note. On September 9, 2015, the United States Court of Appeals for the Seventh Circuit of Chicago, Illinois affirmed the ruling of the United States District Court for the Northern District of Illinois in the matter of JNS Power & Control Systems, Inc. v. 350 Green, LLC in favor of JNS. REGISTRATION RIGHTS PENALTY

In connection with the sale of the Company's Common Stock and warrants during the year ended December 31, 2013, the Company granted the purchasers and the placement agents registration rights on the Common Stock and warrants within 60 days of the date of the sale of the stock, as amended. The Stock Purchase Agreement ("SPA") provided for a penalty provision of 1% of the gross proceeds for each month that the shares are not registered, not to exceed 10%. The Securities and Exchange Commission ("SEC") notified the Company that it could not review its registration statement until such time as the Company furnished two years of audited financial statements of 350 Green and ECotality as the acquisitions were deemed significant. The Company sought a waiver of the audit requirement but the SEC denied the granting of a waiver. On February 5, 2015, the holders of a majority of the shares affected by the registration rights penalty granted the Company the option to satisfy the accrued registration rights penalty and related interest as of December 23, 2014 totaling \$1,724,823 in Series C Convertible Preferred Stock with a stated value of \$100 per share, in lieu of cash. The Company elected this option which required the Company to pay a 20% premium causing the liability to increase to \$1,850,188, exclusive of interest of \$219,600. On February 10, 2015, the Company issued 20,414 shares of Series C Convertible Preferred Stock and on March 31, 2015, the Company issued the remaining 283 shares of Series C Convertible Preferred Stock, such that there was no liability related to the 2013 SPA as of December 31, 2015.

In connection with the sale of the Company's Series C Convertible Preferred Stock, the Company granted the purchasers certain registration rights. As of December 31, 2015, the Company had not yet filed a registration statement under the Securities Act of 1933. On November 7, 2016, the Company filed a registration statement under the Securities Act of 1933 but, as of December 31, 2016, the registration statement has not been declared effective by the SEC. The registration rights agreements entered into with the Series C Convertible Preferred Stock purchasers provide that the Company has to pay liquidated damages equal to 1% of all Series C subscription amounts received on the date the Series C resale registration statement was due to be filed pursuant to such registration rights agreements. The Company is required to pay such penalty each month thereafter until the resale registration statement is filed and once filed the Company has 30 days for the registration statement to be deemed effective otherwise the penalty resumes each month until the terms are met. The maximum liquidated damages amount is 10% of all Series C subscription amounts received. Failure to pay such liquidated damages results in interest on such damages at a rate of 18% per annum becoming due. As a result, the Company accrued \$967,928 and \$728,750 of Series C Convertible Preferred Stock registration rights damages at December 31, 2016 and 2015, respectively.

OBLIGATION TO U.S. DEPARTMENT OF ENERGY

Additionally, during 2014, the U.S. Department of Energy ("DOE") notified the Company that it continues to have a property interest in the 107 installed DCFCs if the fair market value of each DCFC had a market value in excess of \$5,000 on October 16, 2013, the date of the Blink purchase agreement approved by the bankruptcy court. The DOE requested documentation describing the data, assumption and methodologies that the Company used to determine the value as of the closing date. The Company provided the DOE with additional documentation and calculations supporting its belief that each DCFC acquired as of the closing date of the Blink purchase agreement approved by the bankruptcy court had a fair market value of less than \$5,000. On May 5, 2015, the DOE notified the Company that it agreed with the Company's analysis and had determined that the DOE's interest in the DCFCs was extinguished. As a result, the Company reversed the \$1,833,896 accrued liability in the second quarter of 2015 commensurate with the date of the DOE notification which resulted in a gain during 2015 of \$1,833,896 which was included in other income in the consolidated statement of operations.

SERIES B CONVERTIBLE PREFERRED STOCK

On April 21, 2015, the Company designated 10,000 shares of Series B Convertible Preferred Stock with a par value of \$0.001 and a stated value of \$100 per share. The Series B Convertible Preferred Stock has no voting rights except under limited conditions. The holders of Series B Convertible Preferred Stock and the holders of Series C Convertible Preferred Stock, shall proportionately be entitled to receive out of the assets, whether capital or surplus, of the Company an amount in cash equal to the stated value for each respective share of Series B Convertible Preferred Stock or Series C Convertible Preferred Stock before any payments or distributions are made to holders of Series A Convertible Preferred Stock or holders of Common Stock. As of December 31, 2015, the liquidation preference for the 8,250 issued and outstanding shares of Series B Convertible Preferred Stock was equal to \$825,000. The holder of the Series B Convertible Preferred Stock is entitled to redeem: (i) 2,750 shares on December 31, 2016; (ii) 2,750 shares on December 31, 2017; and (iii) 2,750 shares on December 31, 2018. However, the Company may choose not to honor the redemption request, in which case the holder becomes entitled to immediately, or anytime thereafter, convert the Series B Convertible Preferred Stock into Common Stock by dividing the aggregate stated value by the conversion price. The conversion price is equal to the average closing price of the prior 30 trading days as of the date of the request to convert. The Company may, at any time, elect to redeem all or part of the Series B Convertible Preferred Stock at the stated value.

During the year ended December 31, 2015, the Company issued 8,250 shares of Series B Convertible Preferred Stock to the Creditors of ECotality as partial consideration for the strategic transaction to acquire a 50% interest in ECotality. In addition, the parties entered into a tax sharing agreement which stipulates that any benefit that CCGI realizes from the use of the ECotality net operating loss carryforwards ("NOLs"), up to \$925,000, must be paid to the ECotality estate and such payments would result in the cancellation of a commensurate stated value amount of Series B Convertible Preferred Stock. After reviewing the terms of the Series B Convertible Preferred Stock and the embedded conversion option ("ECO"), the Company determined that the Series B Convertible Preferred Stock is classified as temporary equity and the ECO is not bifurcated, is not accounted for as a derivative and is not a beneficial conversion feature. The temporary equity classification of the Series B Convertible Preferred Stock is in accordance with ASC 480-10-s99 - Distinguishing Liabilities from Equity – Overall – SEC Materials and Accounting Series Release ("ASR") 268 – Presentation in Financial Statements of "Redeemable Preferred Stock", as the Company does not control settlement by delivery of its own shares of Common Stock because there is no cap on the number of shares of Common Stock that could potentially be issuable upon redemption and therefore cash settlement is presumed.

On December 31, 2016, the Company received a notice of redemption from the creditors committee of the ECotality estate to redeem 2,750 shares of Series B Convertible Preferred Stock for \$275,000. As of December 31, 2016, the redemption amount remained outstanding. The Company has the option to settle the redemption request either by the repayment in cash or by the issuance of shares of Common Stock. As of December 31, 2016, the liquidation preference for the Series B Convertible Preferred Stock amounted to \$825,000.

On December 23, 2014, a total of 250,000 shares of Series C Convertible Preferred Stock have been designated for issuance under the Certificate of Designations, Preferences and Rights of Series C Convertible Preferred Stock (the "Series C Certificate of Designation"). The shares of Series C Convertible Preferred Stock have a stated value of \$100 per share with an initial conversion price of \$35.00 per common share (subject to adjustment as provided in the Series C Certificate of Designation). The Series C Convertible Preferred Stock may, at the option of the purchaser, be converted at any time or from time to time into fully paid and nonassessable shares of Common Stock at the conversion price in effect at the time of conversion ("Holder Redemption Request"); provided, that a holder of Series C Convertible Preferred Stock may at any given time convert only up to that number of shares of Series C Convertible Preferred Stock so that, upon conversion, the aggregate beneficial ownership of the Company's Common Stock as calculated, (pursuant to Rule 13d-3 of the Securities Exchange Act) of such purchaser and all persons affiliated with such purchaser, is not more than 9.99% of the Company's Common Stock then outstanding. The number of shares into which one share of Series C Convertible Preferred Stock shall be convertible is determined by dividing the stated value of \$100 per share by the initial Conversion Price of \$35.00 per common share (subject to appropriate adjustment for certain events, as defined). Shares of the Series C Convertible Preferred Stock shall receive dividends at a quarterly rate payable in either cash or additional shares of Series C Convertible Preferred Stock. If the dividend is paid in cash, the quarterly dividend payment shall be equal to 2% of the stated value per share for each of the then outstanding shares of Series C Convertible Preferred Stock (the "Cash Dividend Rate"). If, however, the quarterly dividend is paid in shares of Series C Convertible Preferred Stock, the quarterly dividend payment shall be equal to 2.5% of the stated value per share for each of the then outstanding shares of Series C Convertible Preferred Stock (the "Stock Dividend Rate"). In the event that the Company chooses to not honor the Holder Redemption Request, the Cash Dividend Rate and the Stock Dividend Rate shall thereafter be increase by a multiple of two, commencing in the first quarter following the Holder Redemption Request. In the event of a liquidation, the Series C Convertible Preferred Stock is also entitled to a liquidation preference equal to the stated value plus any accrued and unpaid dividends. Except as otherwise required by law, the holders of shares of Series C Convertible Preferred Stock shall vote on an as-if-converted-to-common-stock basis with the Common Stock. However, as long as any shares of Series C Convertible Preferred Stock are outstanding, the Company shall not take certain actions, as defined, without the prior written consent of at least 60% of the then outstanding Series C Convertible Preferred Stock. At any time following the second anniversary following the issuance of the Series C Convertible Preferred Stock, at the option of the holder, each share of Series C Convertible Preferred Stock shall be redeemable at the option of the holder for an amount equal to the stated value plus all accrued but unpaid dividends plus 1% per month, compounded monthly from the closing date.

The Series C Convertible Preferred Stock holders shall be entitled to receive out of the assets, whether capital or surplus, of the Company an amount in cash equal to the stated value, plus any accrued and unpaid dividends thereon at the Cash Dividend Rate and any other fees or liquidated damages then due and owing thereon under the Series C Certificate of Designation, for each share of Series C Convertible Preferred Stock before any distribution or payment shall be made to the holders of Series A Convertible Preferred Stock or any junior securities, and if the assets of the Company shall be insufficient to pay in full such amounts, then the entire assets to be distributed to the holders shall be ratably distributed among the holders in accordance with the respective amounts that would be payable on such shares if all amounts payable thereon were paid in full. After payment of the stated value, plus any accrued and unpaid dividends thereon, to each holder, the remaining balance of any proceeds from the Liquidation shall be allocated to the holders, holders of Series A Convertible Preferred Stock and holders of any Common Stock on an as-if-converted-to-common-stock basis.

The Series C Convertible Preferred Stock is not mandatorily redeemable, because the instrument does not embody an unconditional obligation requiring the issuer to redeem the instrument at a specified or determinable date or upon an event that is certain to occur. The Series C Convertible Preferred Stock is contingently redeemable anytime following the second anniversary of its issuance. Accordingly, the Series C Convertible Preferred Stock is be classified as permanent equity. Because the embedded conversion option is clearly and closely related to the equity host, even though it has adjustment provisions that causes it not to be indexed to the Company's own stock, it is not bifurcated and is not accounted for as a derivative liability.

On February 25, 2015, the Company entered into an agreement with certain investors in the October 2013 financing whereby the investors were issued warrants to purchase 66,735 shares of the Company's Common Stock at an exercise price of \$35.00 per share which vested immediately, expire five years from the date of issuance and contain weighted average anti-dilution and fundamental transaction provisions, as defined. These additional warrants represent the warrants the investors would have received as a result of the December 23, 2014 financing had they not previously surrendered their anti-dilution protection during 2014. The warrants, which were classified as derivative liabilities, had an aggregate fair value of \$275,908, which was recognized immediately. Additionally, as a result of the December 23, 2014 financing, the exercise price of warrants to purchase an aggregate of 392,000 shares of Common Stock issued to the October 2013 and December 2013 investors was reduced to \$35.00 per share. As the warrants are classified as derivative liabilities, the impact of the modification was included within change in fair value of warrant liabilities on the consolidated statement of operations during the year ended December 31, 2015.

During the year ended December 31, 2016, the Company agreed to extend the maturity date of warrants to purchase an aggregate of 51,800 shares of Common Stock with an exercise price of \$112.50 per share by eighteen (18) months in exchange for the warrant holders' consent to rescind a fundamental transactions provision. As a result, the Company recorded warrant modification expense of \$6,838 during the year ended December 31, 2016.

During the year ended December 31, 2016, the Company recorded warrant modification expense of \$457 related to the extension of the expiration date of warrants to purchase 500 shares of Common Stock.

15. INCOME TAXES

The Company is subject to U.S. federal and various state income taxes.

The income tax provision (benefit) for the years ended December 31, 2016 and 2015 consists of the following:

	For The Years Ended December 31,	
	2016	2015
Federal:		
Current	\$ -	\$ -
Deferred	(2,562,884)	(3,704,115)
State and local:		
Current	-	-
Deferred	(301,516)	1,496,815
	(2,864,400)	(2,207,300)
Change in valuation allowance	2,864,400	2,207,300
Income tax provision (benefit)	<u>\$ -</u>	<u>\$ -</u>

No current tax provision has been recorded for the years ended December 31, 2016 and 2015 because the Company had net operating losses for federal and state tax purposes. The net operating loss carryovers may be subject to annual limitations under Internal Revenue Code Section 382, and similar state provisions, should there be a greater than 50% ownership change as determined under the applicable income tax regulations. The amount of the limitation would be determined based on the value of the company immediately prior to the ownership change and subsequent ownership changes could further impact the amount of the annual limitation. An ownership change pursuant to Section 382 may have occurred in the past or could happen in the future, such that the NOLs available for utilization could be significantly limited. The Company will perform a Section 382 analysis in the future. The related increase in the deferred tax asset was offset by the valuation allowance.

A reconciliation of the statutory federal income tax rate to the Company's effective tax rate is as follows:

	For The Years Ended December 31,	
	2016	2015
Tax benefit at federal statutory rate	(34.0)%	(34.0)%
State income taxes, net of federal benefit	(4.0)%	(4.0)%
Permanent differences	1.2%	(11.1)%
Prior period adjustments	0.0%	(1.1)%
Other	(0.4)%	23.4%
Change in valuation allowance	37.2%	26.8%
Effective income tax rate	<u>0.0%</u>	<u>0.0%</u>

The Company has determined that a valuation allowance for the entire net deferred tax asset is required. A valuation allowance is required if, based on the weight of evidence, it is more likely than not that some or the entire portion of the deferred tax asset will not be realized. After consideration of all the evidence, both positive and negative, management has determined that a full valuation allowance is necessary to reduce the deferred tax asset to zero, the amount that will more likely not be realized.

LITIGATION AND DISPUTES

On July 28, 2015, a Notice of Arbitration was received stating ITT Cannon has a dispute with Blink for the manufacturing and purchase of 6,500 charging cables by Blink, who has not taken delivery or made payment on the contract price of \$737,425. ITT Cannon also seeks to be paid the cost of attorney's fees as well as punitive damages. The parties have agreed on a single arbitrator and are working to schedule the arbitration. The Company contends that the product was not in accordance with the specifications in the purchase order and, as such, believes the claim is without merit. The parties have agreed on a single arbitrator. The arbitration hearing is currently scheduled for February 6, 2017 through February 8, 2017. The parties delayed the arbitration hearing until May 10. The parties began initial depositions in February and will continue into the first week of March. In parallel however, the parties had settlement discussions on February 28, 2017. As of March 27, 2016, a term-sheet with settlement features was offered by Car Charging to ITT in stock valued at \$175,000. The amount of shares will be determined and priced on the day of closing of our contemplated public offering. For this, ITT would relinquish to Car Charging all of the remaining inventory of the EV charging cable assemblies originally valued at \$737,425. Typical stock restrictions and/or stock bleed out agreements may be imposed affecting the final settlement figure.

On April 8, 2016, Douglas Stein filed a Petition for Fee Arbitration with the State Bar of Georgia against the Company for breach of contract for failure to pay invoices in the amount of \$178,893 for legal work provided. The invoices have been accrued for in the periods in which the services were provided. The Company has responded to the claim and is simultaneously pursuing settlement options. The Company may appeal the decision and/or offer stock and/or cash in exchange for the awarded judgment at a later date.

On May 18, 2016, the Company was served with a complaint from Solomon Edwards Group, LLC for breach of written agreement and unjust enrichment for failure to pay invoices in the amount of \$172,645 for services provided, plus interest and costs. From time to time, the Company is a defendant or plaintiff in various legal actions that arise in the normal course of business.

350 GREEN, LLC

350 Green lawsuits relate solely to alleged pre-acquisition unpaid debts of 350 Green. Also, there are other unpaid creditors, aside from those noted above, that claim to be owed certain amounts for pre-acquisition work done on behalf of 350 Green solely, that potentially could file lawsuits at some point in the future.

On August 7, 2014, 350 Green received a copy of a complaint filed by Sheetz, a former vendor of 350 Green alleging breach of contract and unjust enrichment of \$112,500. The complaint names 350 Green, 350 Holdings LLC and CCGI in separate breach of contract counts and names all three entities together in an unjust enrichment claim. CCGI and 350 Holdings will seek to be dismissed from the litigation, because, as the complaint is currently plead, there is no legal basis to hold CCGI or 350 Green liable for a contract to which they are not parties. As of December 31, 2016 and 2015, an amount of \$112,500 is included in accounts payable of 350 Green. The parties held a mediation conference on May 15, 2015, but no settlement was reached. The Company settled with Sheetz in principal on February 10, 2017 with the formal documentation being signed on March 1, 2017. The settlement involved a combination of DC charging equipment, installation, charging services, shared driver charging revenue and maintenance for two systems in exchange for no further legal action amongst 350 Green, 350 Holdings or the Company.

On September 9, 2015, the United States Court of Appeals for the Seventh Circuit of Chicago, Illinois affirmed the ruling of the United States District Court for the Northern District of Illinois in the matter of JNS Power & Control Systems, Inc. v. 350 Green, LLC in favor of JNS, which affirmed the sale of certain assets by 350 Green to JNS and the assumption of certain 350 Green liabilities by JNS. On April 7, 2016, JNS amended the complaint to add the Company alleging an unspecified amount of lost revenues from the chargers, among other matters, caused by the defendants. Plaintiff also seeks indemnity for its unspecified costs in connection with enforcing the Asset Purchase Agreement in courts in New York and Chicago. The parties concluded their efforts to mediate a settlement before Magistrate Judge Kim without achieving a settlement. Settlement discussions are ongoing between the parties. The next status hearing on the matter is set for May 31, 2017.

On February 23, 2017, Blink entered into an Exclusive Electronic Vehicle Charging Services Agreement with Sheetz for a five (5) year term. Pursuant to the agreement, Blink shall remit to Sheetz gross revenue generated by electric vehicle charging fees and advertising, minus (i) any and all taxes, (ii) 8% transaction fees, (iii) \$18.00 per charger per month; and (iv) any electricity costs incurred by Blink ((i), (ii), (iii), and (iv) being referred to as the "Service Fees"). In the event the aggregate gross revenues are insufficient to cover the Service Fees incurred in a given month by the charging stations, such unpaid Service Fees will accrue to the following month. The agreement is subject to an automatic five year renewal unless written notice for the contrary is provided.

OTHER MATTER

On May 12, 2016, the SEC filed a complaint with the United States District Court in the Central District of California wherein the SEC alleges that an attorney who previously served as securities counsel to the Company was involved in a fraudulent scheme to create and sell seven (7) public “shell” companies. The SEC’s complaint indicates that one of the shell companies, New Image Concepts, Inc. (“NIC”) was the subject of the Company’s December 7, 2009 reverse merger, wherein following the merger, NIC was renamed Car Charging Group, Inc. The Company is not named as a defendant in the SEC’s complaint and, based on internal review and discussions, there were and are no continuing affiliations between any employees, directors, or investors of the pre-merger shell company and the Company. The Company has determined that no current or past employees of the Company were involved with the former shell company and it does not expect any additional actions to be necessary with respect to this matter.

With respect to the securities and purchase agreement dated October 7, 2016, on March 23, 2017, the parties agreed to amend the terms of the securities and purchase agreement and promissory note as follows:

The maturity date of the note is the earlier of May 15, 2017 or third business day after the closing of the Public Offering.

With respect to the Origination Shares, on the fifth (5th) trading day after the pricing of the Public Offering, but in no event later than May 15, 2017, or, if the Listing Approval End Date is February 28, 2017, in no event later than March 31, 2017, the Company shall deliver to the purchaser such number of duly and validly issued, fully paid and non-assessable Origination Shares equal to 48% of the consideration paid by the purchaser, divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of the Common Stock during the ten days prior to delivery of the Origination Shares (subject to adjustment for stock splits), or (iii) 80% of the Common Stock offering price of the Public Offering, or (iv) 80% of the unit price offering price of the Public Offering (if applicable), or (v) the exercise price of any warrants issued in the Public Offering. In the event that the Public Offering is not completed before May 15, 2017, so long as purchaser owns any of the Origination Shares at the time of a subsequent

public offering where the pricing terms above would result in a lower Origination Share pricing, the Origination Shares pricing shall be subject to a reset based on the same above pricing terms (such that the Origination Shares issuance price would be reduced and the number of Origination Shares issued would be increased to equal the Origination Dollar Amount). Unless otherwise agreed by both parties, at no time will the Company issue to the purchaser such number of Origination Shares that would result in the purchaser owning more than 9.99% of the number of shares of Common Stock outstanding of the Issuer immediately after giving effect to the issuance of the Origination Shares.

The purchaser conditionally waives the defaults for the Company's failure to meet the original maturity date of the note and delivery date for the Origination Shares, but the purchaser does not waive any damages, fees, penalties, liquidated damages, or other amounts or remedies otherwise resulting from such defaults (which damages, fees, penalties, liquidated damages, or other amounts or remedies the Investor may choose in the future to assess, apply or pursue in its sole discretion) and the purchaser's conditional waiver is conditioned on the Company's not being in default of and not breaching any term of the note or the securities purchase agreement or any other Transaction Documents (as defined in the securities purchase agreement) at any time subsequent to the date of the amendment. If the Company triggers an event of default or breaches any term of the note, the securities purchase agreement, or the Transaction Documents at any time subsequent to the date of the amendment, the purchaser may issue a notice of default for the Company's failure to meet the original maturity date of the note and delivery date of the Origination Shares.

1. BUSINESS ORGANIZATION, NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Blink Charging Co. was incorporated on October 3, 2006 under the laws of the State of Nevada as New Image Concepts, Inc. On December 7, 2009, New Image Concepts, Inc. changed its name to Car Charging Group, Inc. On August 17, 2017, Car Charging Group, Inc. changed its name to Blink Charging Co.

Blink Charging Co., through its wholly-owned subsidiaries (collectively, the “Company” or “Blink”), is a leading owner, operator, and provider of electric vehicle (“EV”) charging equipment and networked EV charging services. Blink offers both residential and commercial EV charging equipment, enabling EV drivers to easily recharge at various location types.

Blink’s principal line of products and services is its Blink EV charging network (the “Blink Network”) and EV charging equipment (also known as electric vehicle supply equipment) and EV related services. The Blink Network is a proprietary cloud-based software that operates, maintains, and tracks all of the Blink EV charging stations and the associated charging data. The Blink Network provides property owners, managers, and parking companies (“Property Partners”) with cloud-based services that enable the remote monitoring and management of EV charging stations, payment processing, and provides EV drivers with vital station information including station location, availability, and applicable fees.

Blink offers its Property Partners a flexible range of business models for EV charging equipment and services. In its comprehensive and turnkey business model, Blink owns and operates the EV charging equipment, manages the installation, maintenance, and related services; and shares a portion of the EV charging revenue with the property owner. Alternatively, Property Partners may share in the equipment and installation expenses, with Blink operating and managing the EV charging stations and providing connectivity to the Blink Network. For Property Partners interested in purchasing and owning EV charging stations that they manage, Blink provides EV charging hardware, site recommendations, connectivity to the Blink Network, and service and maintenance services.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by U.S. GAAP for complete financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for a fair presentation of the condensed consolidated financial statements of the Company as of September 30, 2017 and for the three and nine months then ended. The results of operations for the three and nine months ended September 30, 2017 are not necessarily indicative of the operating results for the full year ending December 31, 2017 or any other period. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related disclosures of the Company as of December 31, 2016 and for the year then ended, which were filed with the Securities and Exchange Commission (“SEC”) on Form 10-K on April 14, 2017.

Effective August 29, 2017, pursuant to authority granted by the stockholders of the Company, the Company implemented a 1-for-50 reverse split of the Company’s issued and outstanding common stock (the “Reverse Split”). The number of authorized shares remains unchanged. All share and per share information has been retroactively adjusted to reflect the Reverse Split for all periods presented, unless otherwise indicated. See Note 7 – Stockholders’ Deficiency for additional details regarding the Company’s authorized capital.

2. GOING CONCERN AND MANAGEMENT’S PLANS

As of September 30, 2017, the Company had a cash balance, a working capital deficiency and an accumulated deficit of \$9,062, \$67,198,792 and \$182,206,113, respectively. During the three and nine months ended September 30, 2017, the Company incurred a net loss of \$93,620,432 and \$101,134,331, respectively. These conditions raise substantial doubt about the Company’s ability to continue as a going concern within a year after the issuance date of this filing.

Since inception, the Company’s operations have primarily been funded through proceeds received in equity and debt financings. Although management believes that the Company has access to capital resources, there are currently no commitments in place for new financing at this time, except as described below, and there is no assurance that the Company will be able to obtain funds on commercially acceptable terms, if at all. There is also no assurance that the amount of funds the Company might raise will enable the Company to complete its development initiatives or attain profitable operations. If the Company is unable to obtain additional financing on a timely basis, it may have to curtail its development, marketing and promotional activities, which would have a material adverse effect on the Company’s business, financial condition and results of operations, and ultimately the Company could be forced to discontinue its operations and liquidate.

The accompanying condensed consolidated financial statements have been prepared in conformity with U.S. GAAP, which contemplate continuation of the Company as a going concern and the realization of assets and satisfaction of liabilities in the normal course of business. The condensed consolidated financial statements do not include any adjustment that might become necessary should the Company be unable to continue as a going concern.

Subsequent to September 30, 2017, the Company received an aggregate of \$949,900 associated with the issuance of a convertible note payable and non-convertible notes payable. See Note 5 – Notes Payable – Convertible and Other and Note 10 – Subsequent Events – Promissory Note for additional details. The Company is currently funding its operations on a month-to-month basis. While there can be no assurance that it will be successful, the Company is in active negotiations to raise additional capital. On November 7, 2016, the Company filed, and subsequently amended, a registration statement on Form S-1 to register its securities for the purpose of raising capital under the Securities Act of 1933. There can be no assurance that the Company will be successful in raising such capital.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements include the accounts of Blink Charging Co. and its wholly-owned subsidiaries, including Car Charging, Inc., Beam Charging LLC (“Beam”), EV Pass LLC (“EV Pass”), Blink Network LLC (“Blink Network”) and Car Charging China Corp. (“Car Charging China”). All intercompany transactions and balances have been eliminated in consolidation.

Through April 16, 2014, 350 Green LLC (“350 Green”) was a wholly-owned subsidiary of the Company in which the Company had full voting control and was therefore consolidated. Beginning on April 17, 2014, when 350 Green’s assets and liabilities were transferred to a trust mortgage, 350 Green became a Variable Interest Entity (“VIE”). The consolidation guidance relating to accounting for VIEs requires an enterprise to perform an analysis to determine whether the enterprise’s variable interest or interests give it a controlling financial interest in a variable interest entity and perform ongoing reassessments of whether an enterprise is the primary beneficiary of a VIE. The Company determined that it is the primary beneficiary of 350 Green, and as such, effective April 17, 2014, 350 Green’s assets, liabilities and results of operations were included in the Company’s condensed consolidated financial statements. On May 18, 2017, each of 350 Green and Green 350 Trust Mortgage LLC filed to commence an assignment for the benefit of creditors, which results in their residual assets being controlled by an assignee in a judicial proceeding. As a result, as of May 18, 2017, 350 Green is no longer a variable interest entity of the Company and, accordingly, 350 Green, which had approximately \$3.7 million of liabilities, has been deconsolidated from the Company’s financial statements.

USE OF ESTIMATES

Preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, together with amounts disclosed in the related notes to the financial statements. The Company’s significant estimates used in these financial statements include, but are not limited to, stock-based compensation, accounts receivable reserves, warranty reserves, inventory valuations, the valuation allowance related to the Company’s deferred tax assets, the carrying amount of intangible assets, estimates of future EV sales and the effects thereon, derivative liabilities and the recoverability and useful lives of long-lived assets. Certain of the Company’s estimates could be affected by external conditions, including those unique to the Company and general economic conditions. It is reasonably possible that these external factors could have an effect on the Company’s estimates and could cause actual results to differ from those estimates.

ACCOUNTS RECEIVABLE

Accounts receivable are carried at their contractual amounts, less an estimate for uncollectible amounts. As of September 30, 2017 and December 31, 2016, there was an allowance for uncollectible amounts of \$38,275 and \$42,349, respectively. Management estimates the allowance for bad debts based on existing economic conditions, the financial conditions of the customers, and the amount and age of past due accounts. Receivables are considered past due if full payment is not received by the contractual due date. Past due accounts are generally written off against the allowance for bad debts only after all collection attempts have been exhausted.

INVENTORY

Inventory is comprised of electric charging stations and related parts, which are available for sale or for warranty requirements. Inventories are stated at the lower of cost and net realizable value. Cost is determined by the first-in, first-out method. Inventory that is sold to third parties is included within cost of sales and inventory that is installed on the premises of participating owner/operator properties, where the Company retains ownership, is transferred to fixed assets at the carrying value of the inventory. The Company periodically reviews for slow-moving, excess or obsolete inventories. Products that are determined to be obsolete, if any, are written down to net realizable value. Based on the aforementioned periodic reviews, the Company recorded an inventory reserve for slow-moving or excess inventory of \$192,000 and \$154,000 as of September 30, 2017 and December 31, 2016, respectively.

As of September 30, 2017 and December 31, 2016, the Company’s inventory was comprised solely of finished goods and parts that are available for sale.

FIXED ASSETS

Fixed assets are stated at cost, net of accumulated depreciation and amortization which is recorded commencing at the in-service date using the straight-line method over the estimated useful lives of the assets. Accumulated depreciation and amortization as of September 30, 2017 and December 31, 2016 was \$5,044,518 and \$4,726,861, respectively.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

INTANGIBLE ASSETS

Intangible assets were acquired in conjunction with the acquisition of Blink Network during 2013 and were recorded at their fair value at such time. Trademarks are amortized on a straight-line basis over their useful life of ten years. Patents are amortized on a straight-line basis over the lives of the patent (twenty years or less), commencing when the patent is approved and placed in service on a straight-line basis. Accumulated amortization related to intangible assets as of September 30, 2017 and December 31, 2016 was \$41,496 and \$33,759, respectively.

DERIVATIVE FINANCIAL INSTRUMENTS

The Company evaluates its convertible instruments to determine if those contracts or embedded components of those contracts qualify as derivative financial instruments to be separately accounted for in accordance with Topic 815 of the FASB ASC. The accounting treatment of derivative financial instruments requires that the Company record the conversion options and warrants at their fair values as of the inception date of the agreement and at fair value as of each subsequent balance sheet date. Any change in fair value is recorded as non-operating, non-cash income or expense for each reporting period at each balance sheet date. Conversion options are recorded as a discount to the host instrument and are amortized as interest expense over the life of the underlying instrument. The Company reassesses the classification of its derivative instruments at each balance sheet date. If the classification changes as a result of events during the period, the contract is reclassified as of the date of the event that caused the reclassification.

The Binomial Lattice Model was used to estimate the fair value of the warrants that are classified as derivative liabilities on the condensed consolidated balance sheets. The model includes subjective input assumptions that can materially affect the fair value estimates. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the warrants.

SEQUENCING POLICY

Under ASC 815-40-35, the Company has adopted a sequencing policy whereby, in the event that reclassification of contracts from equity to assets or liabilities is necessary pursuant to ASC 815 due to the Company's inability to demonstrate it has sufficient authorized shares, shares will be allocated on the basis of the earliest issuance date of potentially dilutive instruments, with the earliest grants receiving the first allocation of shares.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company measures the fair value of financial assets and liabilities based on the guidance of ASC 820 "Fair Value Measurements and Disclosures" ("ASC 820") which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 — quoted prices in active markets for identical assets or liabilities

Level 2 — quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 — inputs that are unobservable (for example, cash flow modeling inputs based on assumptions)

The carrying amounts of the Company's financial instruments, such as cash and cash equivalents, accounts receivable and accounts payable approximate fair values due to the short-term nature of these instruments. The carrying amount of the Company's notes payable approximates fair value because the effective yields on these obligations, which include contractual interest rates, taken together with other features such as concurrent issuance of warrants, are comparable to rates of returns for instruments of similar credit risk.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

REVENUE RECOGNITION

The Company recognizes revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured. Accordingly, when a customer completes use of a charging station, the service can be deemed rendered and revenue may be recognized based on the time duration of the session or kilowatt hours drawn during the session. Sales of EV stations are recognized upon shipment to the customer, free on board shipping point, or the point of customer acceptance.

Governmental grants and rebates pertaining to revenues and periodic expenses are recognized as income when the related revenue and/or periodic expense are recorded. Government grants and rebates related to EV charging stations and their installation are deferred and amortized in a manner consistent with the related depreciation expense of the related asset over their useful lives.

For arrangements with multiple elements, which is comprised of (1) a charging unit, (2) installation of the charging unit, (3) maintenance and (4) network fees, revenue is recognized dependent upon whether vendor specific objective evidence (“VSOE”) of fair value exists for separating each of the elements. The Company determined that VSOE exists for both the delivered and undelivered elements of the company’s multiple-element arrangements. The Company limited their assessment of fair value to either (a) the price charged when the same element is sold separately or (b) the price established by management having the relevant authority.

CONCENTRATIONS

During the nine months ended September 30, 2017, revenues generated from Entity C represented approximately 10%, of the Company’s total revenue. During the three and nine months ended September 30, 2016, revenues generated from Entity C represented approximately 15% and 14%, respectively, of the Company’s total revenue. During the three and nine months ended September 30, 2017, revenues generated from Entity D represented approximately 26% and 21% of the Company’s total revenue. The Company generated charging service revenues from a customer (Entity C) and equipment sales revenue from a customer (Entity D). As of September 30, 2017 and December 31, 2016, accounts receivable from Entity C was 10% and 18%, respectively, of total accounts receivable.

RECLASSIFICATIONS

Certain prior year balances have been reclassified in order to conform to current year presentation. These reclassifications have no effect on previously reported results of operations or loss per share.

STOCK-BASED COMPENSATION

The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is measured on the measurement date and re-measured on vesting dates and interim financial reporting dates until the service period is complete. The fair value amount is then recognized over the period during which services are required to be provided in exchange for the award, usually the vesting period. Awards granted to non-employee directors for their service as a director are treated on the same basis as awards granted to employees. The Company computes the fair value of equity-classified warrants and options granted using the Black-Scholes option pricing model.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

NET LOSS PER COMMON SHARE

Basic net loss per common share is computed by dividing net loss by the weighted average number of vested common shares outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number vested of common shares, plus the net impact of common shares (computed using the treasury stock method), if dilutive, resulting from the exercise of outstanding stock options and warrants, plus the conversion of preferred stock and convertible notes.

The following common stock equivalents are excluded from the calculation of weighted average dilutive common shares because their inclusion would have been anti-dilutive:

	<u>September 30</u>	
	<u>2017</u>	<u>2016</u>
Convertible preferred stock	2,884,383	1,017,646
Warrants	266,143	1,109,672
Options	147,300	138,467
Convertible notes	19,856	15,647
Total potentially dilutive shares	<u>3,317,682</u>	<u>2,281,432</u>

COMMITMENTS AND CONTINGENCIES

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

LITIGATION AND DISPUTES

The Company records legal costs associated with loss contingencies as incurred and accrues for all probable and estimable settlements.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers,” (“ASU 2014-09”). ASU 2014-09 supersedes the revenue recognition requirements in ASC 605 - Revenue Recognition (“ASC 605”) and most industry-specific guidance throughout ASC 605. The core principle of the standard requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, it is possible more judgment and estimates may be required within the revenue recognition process than required under existing U.S. GAAP including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The guidance in ASU 2014-09 was revised in July 2015 to be effective for interim periods beginning on or after December 15, 2017 and should be applied on a transitional basis either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. In 2016, FASB issued additional ASUs that clarify the implementation guidance on principal versus agent considerations (ASU 2016-08), on identifying performance obligations and licensing (ASU 2016-10), and on narrow-scope improvements and practical expedients (ASU 2016-12) as well as on the revenue recognition criteria and other technical corrections (ASU 2016-20). The Company has not yet selected a transition method and is currently evaluating the impact of the adoption of these ASUs on its consolidated financial position and results of operations, however, based on its preliminary analysis, the Company does not believe the adoption of these ASUs will have a material impact on its condensed consolidated financial position and results of operations.

In May 2017, the FASB issued ASU No. 2017-09, “Compensation—Stock Compensation (Topic 718)” (“ASU 2017-09”). ASU 2017-09 provides clarity on the accounting for modifications of stock-based awards. ASU 2017-09 requires adoption on a prospective basis in the annual and interim periods for our fiscal year ending December 31, 2019 for share-based payment awards modified on or after the adoption date. The Company is currently evaluating the effect that adopting this new accounting guidance will have on its condensed consolidated financial statements and related disclosures.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS - CONTINUED

In July 2017, the FASB issued ASU 2017-11, Earnings Per Share (Topic 260) and Derivatives and Hedging (Topic 815) - Accounting for Certain Financial Instruments with Down Round Features. Equity-linked instruments, such as warrants and convertible instruments may contain down round features that result in the strike price being reduced on the basis of the pricing of future equity offerings. Under the ASU, a down round feature will no longer require a freestanding equity-linked instrument (or embedded conversion option) to be classified as a liability that is remeasured at fair value through the income statement (i.e. marked-to-market). However, other features of the equity-linked instrument (or embedded conversion option) must still be evaluated to determine whether liability or equity classification is appropriate. Equity classified instruments are not marked-to-market. For earnings per share (“EPS”) reporting, the ASU requires companies to recognize the effect of the down round feature only when it is triggered by treating it as a dividend and as a reduction of income available to common shareholders in basic EPS. The amendments in this ASU are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted, including adoption in any interim period. The Company has not yet selected a transition method and is currently evaluating the impact of the adoption of these ASUs on its consolidated financial position and results of operations.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), Targeted Improvements to Accounting for Hedging Activities (“ASU 2017-12”) which is intended to better align an entity’s risk management activities and its financial reporting for hedging relationships. ASU 2017-12 will change both the designation and measurement guidance for a qualifying hedging relationship and the presentation of the impact of the hedging relationship on the entity’s financial statements. In addition, ASU 2017-12 contains targeted improvements to ease the application of current guidance related to the assessment of hedge effectiveness and eliminates the requirement for an entity to separately measure and report hedge ineffectiveness. For public companies, these amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the effect that adopting this new accounting guidance will have on its condensed consolidated financial statements and related disclosures.

REGISTRATION RIGHTS PENALTY

In connection with the sale of the Company's Series C Convertible Preferred Stock, the Company granted the purchasers certain registration rights. On November 7, 2016, the Company filed a registration statement under the Securities Act of 1933 but, as of September 30, 2017, the registration statement had not been declared effective by the SEC. The registration rights agreements entered into with the Series C Convertible Preferred Stock purchasers provide that the Company has to pay liquidated damages equal to 1% of all Series C subscription amounts received on the date the Series C resale registration statement was due to be filed pursuant to such registration rights agreements. The Company is required to pay such penalty each month thereafter until the resale registration statement is filed and once filed the Company has 30 days for the registration statement to be deemed effective otherwise the penalty resumes each month until the terms are met. The maximum liquidated damages amount is 10% of all Series C subscription amounts received. Failure to pay such liquidated damages results in interest on such damages at a rate of 18% per annum becoming due. On May 9, 2017, the Company issued 12,455 shares of Series C Convertible Preferred Stock in satisfaction of \$1,245,500 of liabilities associated with the Company's registration rights penalty.

ACCRUED PROFESSIONAL, BOARD AND OTHER FEES

The compensation will be paid by the third business day following: (i) a public offering of the Company's securities; and (ii) the listing of the Company's shares of common stock on the NASDAQ or other national securities exchange.

ACCRUED COMMISSIONS

See Note 8 – Related Parties for additional details.

WARRANTY PAYABLE

The Company provides a limited product warranty against defects in materials and workmanship for its Blink Network residential and commercial chargers, ranging in length from one to two years. The Company accrues for estimated warranty costs at the time of revenue recognition and records the expense of such accrued liabilities as a component of cost of sales. Estimated warranty costs are based on historical product data and anticipated future costs. Should actual cost to repair and failure rates differ significantly from estimates, the impact of these unforeseen costs would be recorded as a change in estimate in the period identified. For the nine months ended September 30, 2017, the change in reserve was approximately \$9,000. Warranty expenses (benefit) for the three and nine months ended September 30, 2017 were \$30,771 and \$(26,325) respectively. Warranty expenses for the three and nine months ended September 30, 2016 were \$21,895 and \$214,258 respectively.

ACCRUED ISSUABLE EQUITY

In connection with the issuance of a convertible note payable in 2016, the Company is obligated to issue to the purchaser shares of common stock equal to 48% of the consideration paid by the purchaser. The Company must issue such shares on the earlier of (i) the fifth (5th) trading day after the pricing of the public offering (defined as a public offering of the Company's securities to raise gross proceeds of at least \$20,000,000) and (ii) May 15, 2017. As of September 30, 2017, the purchaser paid aggregate consideration of \$2,500,100 to the Company but the Company has not yet issued the common stock to the purchaser. As a result, the Company accrued the remaining \$1,224,048 obligation which represents the fair value of the share obligation. Amendment of Promissory Note - Continued

With respect to the Origination Shares, on the fifth (5th) trading day after the pricing of the public offering, but in no event later than maturity date, the Company shall deliver to JMJ such number of duly and validly issued, fully paid and non-assessable Origination Shares equal to 48% of the consideration paid by JMJ, divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of the Common Stock during the ten days prior to delivery of the Origination Shares (subject to adjustment for stock splits), or (iii) 80% of the Common Stock offering price of the public offering, or (iv) 80% of the unit price offering price of the public offering (if applicable), or (v) the exercise price of any warrants issued in the public offering. In the event that the public offering is not completed before the maturity date, so long as purchaser owns any of the Origination Shares at the time of a subsequent public offering where the pricing terms above would result in a lower Origination Share pricing, the Origination Shares pricing shall be subject to a reset based on the same above pricing terms (such that the Origination Shares issuance price would be reduced and the number of Origination Shares issued would be increased to equal the Origination Dollar Amount). Unless otherwise agreed by both parties, at no time will the Company issue to JMJ such number of Origination Shares that would result in JMJ owning more than 9.99% of the number of shares of Common Stock outstanding of the Issuer immediately after giving effect to the issuance of the Origination Shares.

As a result of the action taken by the landlord, the Company accrued an additional \$300,000 as of September 30, 2017, which represents the present value of the Company’s rent obligation through the end of the lease. LITIGATION AND DISPUTES

On July 28, 2015, a Notice of Arbitration was received stating ITT Cannon has a dispute with Blink Network for the manufacturing and purchase of 6,500 charging cables by Blink Network, which had not taken delivery or made payment on the contract price of \$737,425. ITT Cannon also seeks to be paid the cost of attorney's fees as well as punitive damages. On June 13, 2017, as amended on November 27, 2017, Blink Network and ITT Cannon agreed to a settlement agreement under which the parties agreed to the following: (a) the Blink Network purchase order dated May 7, 2014 for 6,500 charging cables is terminated, cancelled and voided; (b) three (3) business days following the closing date of a public offering of the Company's securities and listing of such securities on the Nasdaq Capital Market, the Company shall issue to ITT Cannon shares of the same class of the Company's securities with an aggregate value of \$200,000 (which was accrued at September 30, 2017); and (c) within seven (7) calendar days of the valid issuance of the shares in item (b) above, ITT Cannon shall ship and provide the remaining 6,500 charging cables to Blink Network and dismiss the arbitration without prejudice. If the Company fails to consummate a registered public offering of its common stock, list such stock on the Nasdaq Capital Market and issue to ITT Cannon shares of the same class of the Company's securities by December 31, 2017, the settlement agreement will expire. See Note 10 – Subsequent Events – Litigation and Disputes for additional details.

On April 8, 2016, Douglas Stein filed a Petition for Fee Arbitration with the State Bar of Georgia against the Company for breach of contract for failure to pay invoices in the amount of \$178,893 for legal work provided. The invoices have been accrued for in the periods in which the services were provided. The Company has responded to the claim and is simultaneously pursuing settlement options. The parties failed to settle after numerous attempts. On February 15, 2017, the case was brought to the Georgia Arbitration Committee. On February 26, 2017, The Stein Law firm was awarded a summary judgment for \$178,893, which has been confirmed and converted into a judgment by the Superior Court of Fulton County, Georgia on August 7, 2017 in the amount of \$179,168, inclusive of court costs, which continues to accrue both interest at the rate of 7.25% per annum on that amount calculated on a daily as of February 28, 2014, and costs to-date of \$40,000 which are hereby added to the foregoing judgment amount (all of which was accrued at September 30, 2017). In connection with perfecting the Georgia judgment in the State of New York, Mr. Stein served an Information Subpoena with Restraining Notice dated September 12, 2017 on the underwriter of the offering for which the Company filed a registration statement on Form S-1 on November 7, 2016 (as amended) (the "Restraining Notice"). The Restraining Notice seeks to force the underwriter to pay the judgment amount directly out of the proceeds of the offering. The underwriter may seek to withdraw as the underwriter of the Company's registered offering if Mr. Stein does not withdraw the Restraining Notice. On May 18, 2016, the Company was served with a complaint from Solomon Edwards Group, LLC for breach of written agreement and unjust enrichment for failure to pay invoices in the amount of \$172,645 for services provided, plus interest and costs. The invoices have been accrued for in the periods in which the services were provided. The Company has responded to the claim and is simultaneously pursuing settlement options. On May 9, 2017, the Company issued 7,281 shares of common stock to Solomon Edwards Group, LLC in satisfaction of \$121,800 of the Company's liability. See Note 10 – Subsequent Events – Litigation and Disputes for additional details.

From time to time, the Company is a defendant or plaintiff in various legal actions that arise in the normal course of business.

350 Green, LLC

350 Green lawsuits relate solely to alleged pre-acquisition unpaid debts of 350 Green. Also, there are other unpaid creditors, aside from those noted above, that claim to be owed certain amounts for pre-acquisition work done on behalf of 350 Green solely, that potentially could file lawsuits at some point in the future.

On August 7, 2014, 350 Green received a copy of a complaint filed by Sheetz, a former vendor of 350 Green alleging breach of contract and unjust enrichment of \$112,500. The complaint names 350 Green, 350 Holdings LLC and Blink Charging Co. in separate breach of contract counts and names all three entities together in an unjust enrichment claim. Blink Charging Co. and 350 Holdings will seek to be dismissed from the litigation, because, as the complaint is currently plead, there is no legal basis to hold Blink Charging Co. or 350 Green liable for a contract to which they are not parties. The Company settled with Sheetz and the parties signed two agreements on February 23, 2017: a General Release and Settlement Agreement and a Exclusive Electronic Vehicle Charging Services Agreement. The settlement involved a combination of DC charging equipment, installation, charging services, shared driver charging revenue and maintenance for two systems in exchange for no further legal action between 350 Holdings or the Company. The Exclusive Electronic Vehicle Charging Services Agreement with Sheetz is for a five (5) year term. Pursuant to the agreement, Blink shall remit to Sheetz gross revenue generated by electric vehicle charging fees and advertising, minus (i) any and all taxes, (ii) 8% transaction fees, (iii) \$18.00 per charger per month; and (iv) any electricity costs incurred by Blink ((i), (ii), (iii), and (iv) being referred to as the "Service Fees"). In the event the aggregate gross revenues are insufficient to cover the Service Fees incurred in a given month by the charging stations, such unpaid Service Fees will accrue to the following month. The agreement is subject to an automatic five-year renewal unless written notice for the contrary is provided.

On May 30, 2013, JNS Power & Control Systems, Inc. ("JNS") filed a complaint against 350 Green, LLC (the "JNS Litigation") alleging claims for breach of contract, specific performance and indemnity arising out of an Asset Purchase Agreement between JNS and 350 Green entered on April 13, 2013, whereby JNS would purchase car chargers and related assets from 350 Green. On September 24, 2013, the District Court entered summary judgment in favor of JNS on its claim for specific performance. On September 9, 2015, the United States Court of Appeals for the Seventh Circuit of Chicago, Illinois affirmed the ruling of the District Court, which affirmed the sale of certain assets by 350 Green to JNS and the assumption of certain 350 Green liabilities by JNS. On April 7, 2016, JNS amended the complaint to add the Company, alleging an unspecified amount of lost revenues from the chargers, among other matters, caused by the defendants. Plaintiff also seeks indemnity for its unspecified attorney's fees and costs in connection with enforcing the Asset Purchase Agreement in courts in New York and Chicago. On July 26, 2017, the District Court denied the Company's motion to dismiss the Company from the suit. The Company answered the second amended complaint on August 16, 2017. The deadline for the parties to complete discovery is December 8, 2017. The next status hearing on the matter is set for December 8, 2017. As of September 30, 2017, the Company accrued a \$750,000 liability in connection with its settlement offer to JNS. The parties are in the process of documenting a settlement. See Note 10 – Subsequent Events – Litigation and Disputes for additional details.

Pursuant to the JMJ Agreement, the parties agreed to two different scenarios under which the defaults under the Promissory Note would be settled, provided that (i) the Company completes its public offering by February 15, 2018, and (ii) no additional event of default or breach occurs between the date of the JMJ Agreement and the close of the public offering. Pursuant to the JMJ Agreement, the following options are available to the Company:

- vi. Defaults - The Company agrees to pay to JMJ \$750,000 in common stock as fees for the numerous events of default under the Purchase Agreement, the Promissory Note and related documents (“Default Shares”).
- vii. Share Delivery and Pricing - The number of Settlement Shares, Warrant Shares, Note Balance Shares, Lockup Shares, Origination Shares and Default Shares (collectively, “Investor Shares”) deliverable to JMJ, and the time of the delivery of the Investor Shares, shall be determined in accordance with the pricing formula and delivery specified in the Purchase Agreement.
- viii. Investor Shares Beneficial Ownership Limitation - Unless agreed by both parties, at no time will the Company issue such shares that would result in JMJ owning more than 9.99% of all shares of common stock.

Option B

- i. No Cash Payment – The Company shall not pay to JMJ any part of the Promissory Note balance in cash.
- ii. Mandatory Default Amount – JMJ agrees to settle the \$12 million default penalty for \$2,100,000 of common stock (“Settlement Shares”).

- v. Lockup Fee - The Company agrees to pay a lockup fee of \$250,000 payable in common stock as consideration for JMJ entering into a lockup agreement, not to exceed six months, that will be effective upon closing of the public offering (“Lockup Shares”).
- vi. Defaults - The Company agrees to pay to JMJ \$750,000 in common stock as fees for the numerous events of default under the Purchase Agreement, the Promissory Note and related documents (“Default Shares”).
- vii. Share Delivery and Pricing - The number of Settlement Shares, Warrant Shares, Note Balance Shares, Lockup Shares, Origination Shares and Default Shares (collectively, “Investor Shares”) deliverable to JMJ, and the time of the delivery of the Investor Shares, shall be determined in accordance with the pricing formula and delivery specified in the Purchase Agreement.
- viii. Investor Shares Beneficial Ownership Limitation - Unless agreed by both parties, at no time will the Company issue such shares that would result in JMJ owning more than 9.99% of all shares of common stock.

Furthermore, at JMJ’s election at any time prior to the closing of the public offering, the Company shall create, within five (5) business days after such election, a series of convertible preferred stock to address the Beneficial Ownership Limitation on Investor Shares. JMJ shall have the right to invest up to \$5 million in the public offering and up to \$5 million in each of the Company’s subsequent financings during the two year period after the public offering, on the same terms as the best terms, as determined by JMJ, provided to any investor in the public offering or in any such subsequent financing.

10. SUBSEQUENT EVENTS – CONTINUED

JMJ Agreement – Continued

As of the date of filing, ten (10) warrants to purchase a total of 100,001 shares of the Company's common stock have been issued to JMJ. The aggregate exercise price is \$3,500,000. On the fifth (5th) trading day after the closing of the public offering, but in no event later than February 15, 2018, the Company will deliver to JMJ shares of common stock ("Origination Shares") equal to 48% of the consideration paid by JMJ under the Promissory Note divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of the Company's common stock during the ten days prior to delivery of the Origination Shares (subject to adjustment for stock splits), or (iii) 80% of the common stock offering price of the public offering, or (iv) 80% of the unit offering price of the public offering (if applicable), or (v) the exercise price of any warrants issued in the public offering. The number of shares to be issued will be determined based on the offering price in the public offering. If the public offering does not occur prior to February 15, 2018 and JMJ owns Origination Shares at the time of a subsequent public offering where the pricing terms above would result in a lower Origination Share pricing, the Origination Shares pricing shall be subject to a reset based on the same pricing terms as described above.

Pursuant to the JMJ Agreement, the Promissory Note maturity date and was extended to February 15, 2018.

Pursuant to the JMJ Agreement, on January 29, 2018, JMJ informed the Company that it had elected to convert all of the principal and interest due and owing to them in connection with the Promissory Note and all other advances made to the Company into a series of preferred stock with the designations, rights, preferences and privileges as mutually agreed upon between the Company and JMJ. Accordingly, the Company filed a Certificate of Designation for its Series D Convertible Preferred Stock. See Note 10 – Subsequent Events – Designation of Series D Convertible Preferred Stock for additional details.

Securities Sales Commission Agreement

On December 7, 2017, the Company entered into a Securities Sales Commission Agreement with Ardour Capital Investments, LLC ("Ardour"), an entity of which Mr. Farkas owns less than 5%. The parties previously entered into a Financial Advisory Agreement dated August 3, 2016, pursuant to which Ardour was entitled to placement agent fees related to the Company's transaction with JMJ. Pursuant to the Securities Sales Commission Agreement, the parties agreed that, depending on which of the two (2) repayment options the Company chooses with respect to the JMJ Agreement, the Company, upon the closing of the public offering, will issue shares of common stock to Ardour with a value of \$900,500 or \$1,200,500. See Note 10 – Subsequent Events – JMJ Agreement for details of the two (2) repayment options. The Company will issue such number of shares of common stock to Ardour equal to the amount in question (either \$900,500 or \$1,200,500) divided by the lowest of (i) \$35.00 per share, or (ii) the lowest daily closing price of the Company's common stock during the ten days prior to delivery of the Origination Shares (subject to adjustment for stock splits), or (iii) 80% of the common stock offering price of the public offering, or (iv) 80% of the unit offering price of the public offering (if applicable), or (v) the exercise price of any warrants issued in the public offering. Upon such issuance, the Company shall not owe any further securities to Ardour with respect to the JMJ financing.

Warrant Agreement

On November 20, 2017, JMJ confirmed in writing that they would not pursue a price reset of their outstanding warrants as a result of the August 29, 2017 exercise of certain warrants that were not impacted by the Reverse Split. The Company expects that this will result in a substantial reduction of the fair market value of JMJ's derivative liabilities (\$25 million on the September 30, 2017 balance sheet) in the fourth quarter of 2017.

Stock Issuances

Subsequent to September 30, 2017, the Company issued an aggregate of 711,041 shares of common stock in exchange for warrants to purchase an aggregate of 726,704 shares of common stock as well as an aggregate of 9,119 shares of Series C Convertible Preferred Stock in satisfaction of dividends, registration rights penalties and interest.

Within three (3) business days following the payment by the Company to JNS of \$50,000 cash, JNS shall file a motion to dismiss without prejudice any and all lawsuits related to the Company and 350 Green including, but not limited to the JNS Litigation. Within three (3) business days following the payment by the Company to JNS of \$100,000 cash, JNS shall file a motion to convert the said dismissal from "without prejudice" to dismissal "with prejudice". In the event the Company fails to timely pay the \$100,000 cash payment, the Company agrees to the immediate entry of a judgement against it in an amount equal to 125% of the unpaid amount. In the event that the public offering is not consummated by March 31, 2018, the asset purchase agreement will terminate.
